The Coming Fin De Siècle (Routledge Revivals) - Stjepan Mestrovic 2010-11

First Published in 1991, this book attempts to show the relevance of Durkheim's sociology to the debate on modernity and postmodernism. It does so by examining how Durkheim's ideas can be applied to current social issues. The author argues that there are striking parallels between the social context of the 1890s, when Durkheim began to publish in book form, and today. The book will appeal to the readers of sociology, as well as the related disciplines of philosophy, psychology, cultural studies and history. It is also intended for anyone interested in the issues and questions that were being raised as humanity approached the end of the twentieth century and the end of the millennium.

Recreating Sexual Politics (Routledge Revivals) - Victor Seidler 2009-12-15

This thought-provoking book, first published in 1991, examines sexual

politics in a world which is being radically changed by the challenges of feminism. Seidler explores how men have responded to feminism, and the contradictory feelings men have towards dominant forms of masculinity. Seidler's stimulating and original analysis of social and political theory connects personally to everyday issues in people's lives. It reflects the growing importance of sexual and personal politics within contemporary politics and culture, and demonstrates clearly the challenge that feminism brings to our inherited forms of morality, politics and sexuality.

Henry Sidgwick - Eye of the Universe - Bart Schultz 2004-06-07

Henry Sidgwick was one of the great intellectual figures of nineteenth-century Britain. He was first and foremost a great moral philosopher, whose masterwork *The Methods of Ethics* is still widely studied today. He also wrote on economics, politics, education and literature. He was deeply involved in the founding of the first college for women at the University of Cambridge. He was also much concerned with the sexual politics of his close friend John Addington Symonds, a pioneer of gay studies. Through his famous student, G. E. Moore, a direct line can be traced from Sidgwick and his circle to the Bloomsbury group. Bart Schultz has written a magisterial overview of this great Victorian sage. This biography will be eagerly sought out by readers interested in philosophy, Victorian literary studies, the history of ideas, the history of psychology and gender and gay studies.

Revivals - William Robert 2015-10-26

Presents new ways of thinking about the human and the humanities through a rethinking of *Antigone*. Why revive *Antigone* again? And why now? William Robert responds to these questions through an inventive reading of Sophocles's *Antigone*, reimagining *Antigone* in

unprecedented ways. These new possibilities, of new Antigones, offer fresh ideas on what it means to be human in relation to others. Recast in novel roles, Antigone is brought into contemporary conversations taking place in the humanities concerning animals, biopolitics, ethics, philosophies, religions, and sexualities. Robert also brings her into conversation with Luce Irigaray in ways that illuminate Antigone and Irigaray alike, opening up new avenues for understanding them both and their potential for further contributions to the humanities.

New Forms of Revolt - Sarah K. Hansen 2017-05-24

Essays explore the significance of Julia Kristeva's concept of intimate revolt for social and political philosophy. Over the last twenty years, French philosopher, psychoanalyst, and novelist Julia Kristeva has explored how global crises threaten people's ability to revolt. In a context of widespread war, deepening poverty, environmental catastrophes, and rising fundamentalisms, she argues that a revival of inner psychic experience is necessary and empowering. "Intimate revolt" has become a central concept in Kristeva's critical repertoire, framing and permeating her understanding of power, meaning, and identity. *New Forms of Revolt* brings together ten essays on this aspect of Kristeva's work, addressing contemporary social and political issues like immigration and cross-cultural encounters, colonial and postcolonial imaginations, racism and artistic representation, healthcare and social justice, the spectacle of global capitalism, and new media. "This book is important for Kristeva scholars, as it expands and deepens areas of her work that have been dismissed by her critics. Further, it links Kristeva's philosophy to historical philosophers, contemporaries, and how her philosophy applies to pressing problems today. All of the essays are well done and valuable." — Danielle Poe, author of *Maternal Activism: Mothers Confronting Injustice*

Philosophy of Love, Sex, and Marriage - Raja Halwani 2018-01-29

How is love different from lust or infatuation? Do love and marriage really go together "like a horse and carriage"? Does sex have any necessary connection to either? And how important are love, sex, and marriage to a well-lived life? In the Second Edition of this lively, lucid, and comprehensive book, Raja Halwani explores and elucidates the nature, uses, and ethics of romantic love, sexuality, and marriage. It is structured in three parts: Love examines the nature of romantic love and how it differs from other types of love, such as friendship and parental

love. It also investigates the relationship of love to morality and asks what limits morality puts on romantic love and even whether romantic love is inherently moral. Sex demonstrates the difficulty in defining sex and the sexual, and examines what constitutes good and bad sex in terms of pleasure, "naturalness," and moral permissibility. It discusses the nature of sexual desire and its connection to objectification and virtue, all the while looking at specific sexual engagements such as pornography, BDSM, and racial desires. Marriage traces the history of the institution and describes the various forms in which marriage exists and the reasons why people marry. It also investigates the necessity of marriage and ways in which it requires reform. Updates and Revisions in the Second Edition Expands the coverage of love and morality from one to two chapters, incorporating much of the recent literature on love as a moral emotion. Includes a new chapter on sex and virtue ethics. Ends each of the chapters on sex with an "applied" topic, such as pornography, BDSM, prostitution, racial sexual desires, and adultery. Increases coverage of the nature and purpose of marriage, including debates surrounding same-sex marriage, but also moving beyond these debates to include issues on minimal marriage, temporary marriage, polygamy, and other forms of marriage. Updates the Further Reading and Study Questions sections at the end of each chapter and provides an up-to-date comprehensive bibliography at the back of the book. Includes new discussions of topics on the nature of love; love and reasons; distinctions between two types of romantic love; love and its connections to moral theories; definitions of crucial sexual concepts; objectification; virtue and sex; racial sexual desires; and the definition of marriage and whether it is important as an institution.

Revival: Contemporary Indian Philosophy (1936) - S. Radhakrishnan
2018-12-20

The book includes essay which are all written by philosophers of or about forty -five years of age. They fall into two main groups: those in which the writer devotes himself chiefly to the exposition of the great Vedic tradition as he has apprehended it and made it the basis of his own life's work; and those in which the writer, while on the whole remaining true to

the spirit of that tradition, has sought to give new interpretations of it, either by instituting comparisons of it with the Western doctrines most closely allied to it or by treating of modern problems in a way which, though suggested by what he has learned from the West, is yet stamped with the mark of his own racial sympathy. Western readers will naturally find the latter group more attractive; but this volume will have failed of its purpose if it does not give them some sense of the truth that underlies even the essays with which, owing to the presuppositions on which these are founded, they find themselves least in sympathy.

The Collaborative Bibliography of Women in Philosophy - Noël Hutchings 1997

Revival: Fertility and Sterility in Marriage (1929) - Theodoor Hendrik van de Velde 2018-12-18

This book is the third and last volume in Dr Theodoor Hendrik van de Velde's trilogy on the problems of marriage and this book completes his internationally authoritative work on eugenics and volitional sex behavior. Following his other book *Ideal Marriage and Sexual Tensions in Marriage*, this book considers such problems as sexual abstinence and excess, family limitation, the achievement of desired pregnancy, the causes and consequences, physically and emotionally, and sterility in women and impotence in men, artificial insemination, and the delicate personal and social aspects of undesired conception. Scientific in its approach and simple in its presentation, this book is for doctors and laymen.
