The 48 Laws of Power - Robert Greene 2000-09-01

Amoral, cunning, ruthless, and instructive, this multi-million-copy New York Times bestseller is the definitive manual for anyone interested in gaining, observing, or defending against ultimate control - from the author of *The Laws of Human Nature*. In the book that *People* magazine proclaimed "beguiling" and "fascinating," Robert Greene and Joost Elffers have distilled three thousand years of the history of power into 48 essential laws by drawing from the philosophies of Machiavelli, Sun Tzu, and Carl Von Clausewitz and also from the lives of figures ranging from Henry Kissinger to P.T. Barnum. Some laws teach the need for prudence ("Law 1: Never Outshine the Master"),

others teach the value of confidence ("Law 28: Enter Action with Boldness"), and many recommend absolute self-preservation ("Law 15: Crush Your Enemy Totally"). Every law, though, has one thing in common: an interest in total domination. In a bold and arresting two-color package, *The 48 Laws of Power* is ideal whether your aim is conquest, self-defense, or simply to understand the rules of the game.

Clyde E. Keeler 2010-04-01

Clyde E. Keeler spent five summers studying the Cuna Indians on the San Blas islands off the coast of Panama as part of his genetics

Keeler describes a people who still adhered to many of their traditional tribal customs while also embracing modern ways of life. Mildred Pierce - James M. Cain
2010-09-09

'Cain was not just a great hard-boiled novelist but a great novelist, period ... To read MILDRED PIERCE now is to experience a double vision, in which we confront both how much and how little things have changed' LA TIMES
'Vivid, gritty, real...this is crime writing at its very best' MY WEEKLY
Mildred Pierce is the story of a determined and ambitious woman who, after her feckless husband abandons her, by hard work and sacrifice builds a successful business to ensure the future of her pampered and selfish daughter. But she isn't prepared for the intrigues and devastating betrayals of those closest to her. This is James M. Cain's most substantial novel and a classic of the Depression years.

Natalie Brown 2021-11-16

Unashamedly oversharing the truth about the first year

Confessions of a Crummy Mummy - The Baby Years by

parenting blogger and accidental mum of four Natalie Brown

(@confessionsofacrummymummy) is the literary equivalent of the tea and toast you're handed after giving birth: warm, reassuring and you can't help but want more! An antidote to the traditional parenting manual, the telling-it-how-it-is parenting memoir lifts the lid on a subject the hugely successful genre of telling-it-how-it-is parenting memoirs has yet to touch on: giving birth during a global pandemic. And let's just say giving birth during a global pandemic was not in the birth plan! An easy-to-digest and quick-paced list-

style format offers a collection of witty and brutally honest confessions time-poor mums can dip in and out of and back into again. Starting with the birth and what really happens to your lady bits after pushing a human being out of your foo-foo, chapters are split into confessions on subjects including breastfeeding, weaning, homeschooling and washing - and what happens when you find yourself doing it all in the middle of a global pandemic. The light-hearted and entertaining confessions are peppered with heartfelt thoughts, frustrations, and home truths about the first year that every mum will relate to, making the book a perfect gift and must-read for all new (and not so new) mamas feeling like they're doing too many things and none of them well.

Born to Eat - Wendy Jo Peterson 2017-05-16

Eating is an innate skill that marketing schemes and diet culture have overcomplicated. In recent decades, we have begun overthinking our food, which has led to chronic dieting, disordered eating, body distrust, and epidemic levels of confusion about the best way to feed ourselves and our families. We can raise kids with confidence in their food and bodies from baby’s first bite! We are all Born to Eat, and it seems only natural for us to start at the beginning—with our babies. When babies show signs of readiness for solid foods, they can eat almost everything the family eats and become competent, happy eaters. By honoring self-regulation and using a family food foundation, we can support an intuitive eating approach for everyone around the table. With a focus on self-feeding and a baby-led weaning

approach, nutritionists and wellness experts Leslie Schilling and Wendy Jo Peterson provide age-based advice, step-by-step instructions, self-care help for parents, and easy recipes to ensure that your infant is introduced to solid, tasty food as early as possible. It's time to kick diet culture out of our homes!

of a brand-new member of family: What to Expect the Second Year. This essential sequel to What to Expect the First Year picks up the action at baby's first birthday, and takes parents through what can only be called 'the wonder year' - 12 jam-packed (and jam-smearing) months of memorable milestones (from first steps to first words, first scribbles to first friends), lightning-speed learning, endless explorations driven by insatiable curiosity. Not to mention a year of challenges, both for toddlers and the parents who love them, but don't always love their behaviour (picky eating, negativity, separation anxiety, bedtime battles, biting, and tantrums). Comprehensive, reassuring, empathetic, realistic and practical, What to Expect the Second Year is filled with solutions, strategies, and plenty of parental pep talks. It helps parents decode the fascinating, complicated, sometimes maddening, always adorable little person last year's baby has become. From the first birthday to the second,

There's a developmental time line of the second year plus special 'milestone' boxes throughout that help parents keep track of their toddler's development. Thinking of travelling with tot in tow? There's a chapter for that, too.

Oh Baby! A Mom's Self-Care Survival Guide for the First Year - Maria Lianos-Carbone
2018-03-01

You read all the birthing books, took the Lamaze classes, and made it through labor (mostly) unscathed, but now the baby is home—and it's a whole new ballgame! There are plenty of books and resources about how to properly care for your new baby, but what about caring for yourself? Maria Lianos-Carbone, founder of AMotherWorld.com, outlines the “proper care and feeding” of mothers during their baby’s first year with humor and honesty. From the physical and emotional changes a new mom will undergo to rekindling intimacy with her partner, *Oh Baby! Mom’s Survival Guide for the First Year* keeps the focus on moms—because you can’t draw water (or breastmilk, for that matter) from an empty well. Maria's straight-talking, no-nonsense approach will give new moms everything they need to survive as they embark on the journey of motherhood. This book is not
