**Three Ways Home** - Sheila Kaye-Smith 1937

*Sussex Gorse* - Sheila Kaye-Smith 2015-07-06

Excerpt from *Sussex Gorse: The Story of a Fight* This day in the October of 1835, the flowerets were either nipped or scattered, or hidden by the cloths the gipsies had spread to dry on the bushes. The gipsies always camped on the flanks of the Fair, which they looked on with greater detachment than the gaujos who crowded into its heart, either selling or buying, doing or being done. Just within the semicircle of their earth-coloured tents were the caravans of the showmen, gaudily painted, with seedy horses at tether, very different from the Romany gris. Then came the booths, stalls piled with sweets in an interesting state of preservation, trays of neck and shoulder ribbons, tinsel cords, tin lockets with glass stones, all fairings, to be bought out of the hard-won wages of husbandry in love. Then there was the panorama, creaking and torn in places, but still giving a realistic picture of the crowning of King William; there was the merry-go-round, trundled noisily by two sweating carthorses; there was the cocoa-nut shy, and the fighting booth, in the doorway of which half-breed Buck Washington loved to stand and display his hairy chest between the folds of his dressing-gown; and there was the shooting-gallery, where one could pot at the cardboard effigies of one's hates, Lord Brougham who had robbed the poor working man of his parish relief, or Boney, still a blood-curdler to those who had seen the building of the Martello towers. To-day business was bad. Here and there a plough-boy pulled up his slop and fumbled for pennies in his corduroys, but for the most part the stalls were deserted, even in certain cases by their holders. This was not because the Fair was empty. On the contrary, it was much more crowded than usual; but the crowd clotted into groups, all discussing the same thing - the Inclosure. **Modernity and the English Rural Novel** - Dominic Head 2017-04-07

This book re-evaluates the rural English novel in the twentieth century in relation to the recognised artistic responses to modernity. It argues that the most important writers in this tradition have had a very significant bearing on the trajectory of English cultural life through the modernist period and beyond.

*Sussex Folk Tales for Children* - Xanthe Gresham-Knight 2018-05-21

The stories in this collection have slipped on a sunbeam, skidded on the dew and sprinted fast as a fox to be here with you. Of course, they're true, puffed on to the page with a hint of lavender and a gust of sage. They tell of Sussex: its sparkling seas; chalk giants; wise witches and crossdressing smugglers. Once you've heard them, you'll know that when leaves skitter, it's Puck, the sprite of Sussex, fighting with his sister the Fairy Queen. When you hear laughter in the forest, it's Flint, the phantom highwayman making his escape, and when you run over the Downs, you'll remember they were shaped by the Devil's buttocks. These tales - specially chosen for the enjoyment of 7- to 11-year-old readers - sparkle with magic and explode with adventure. Not only will children love to read them, or listen to them being read, these stories will also stimulate an interest in the county and help children engage with their own surroundings.

**Women Writers of the First World War: An Annotated Bibliography** - Sharon Ouditt 2002-01-22

'They also serve who only stand and wait' The idea of there being a 'women's writing' during the First World War is often dismissed. The war, the story goes, was a masculine domain, and as women did not fight, it is also assumed that they were excluded from a war experience. This bibliography challenges that view by listing and annotating hundreds of published books, articles, memoirs, diaries and letters written by women during the First World War. Included are: \* Virginia Woolf \* Katherine Mansfield \* G.B Stern \* Brenda Girvin \* known and unknown autobiographers and diarists \* writers of pro and anti-war propaganda \* journal and magazine articles \* literary, cultural and historical criticism

**Sussex Writers in their Landscape** - Peter Brandon 2023-10-19

'Theirs was a pre-urban world in the glow of its last sunset, without a care or doubt, in which it seemed as if nothing could ever come to harm. Here was their version of that ideal world that has haunted the dreamer, rebel and pastoral poet for centuries.' Between 1850 and 1939 such well-known writers as Rudyard Kipling, Virginia Woolf and Richard Jefferies came to Sussex, a county already home to the likes of Wilfrid Blunt, Hilaire Belloc and others. The result was an explosion of literary creativity which rejected modernity and the London scene, and instead developed writing imbued with a sense of nature and landscape. In this, his last book, Peter Brandon (1927-2011) has drawn on his vast knowledge of the Sussex landscape to show how such writers, seeking a foil to London, were inspired by their surroundings and found peace and a tranquillity which existed in few other places.
