World Class Marriage - Patty Howell
2010-05-16

Millions of American marriages have failed or will fail, resulting in what the authors see as a social epidemic that brings devastating consequences to the couple, their children, and to the economic and social fabric of society. Building upon their notion of the 16 'pillars' that promote a healthy and rewarding marriage, the authors present a structure for relationship success that is built upon groundbreaking information about what does and does not work in relationships and the conditions that promote growth and intimacy. This approach offers

couples a powerful toolbox for eliminating behaviors that damage their relationship and pumping up the behaviors that promote love, caring, closeness and cooperation. World Class Marriage is a book all couples who want to see their marriages last should read and share.

The Relationship Toolbox - Kenny Brixey
2018-10-26

It is said that relationships are hard. This is true when our focus falls on all that is wrong, and we adopt a "fix it" mentality. Relationships need not be hard, they simply require attention and intention towards the goodness and love that is available. The Relationship Toolbox is a collection of resources designed to assist in creating empowering behaviors and beliefs that elevate and expand love. With these resources, we are encouraged to release behaviors that limit love and peace. We can transform the situations where we once withheld love into opportunities where our authentic expression of love is abundant. The Relationship Toolbox guides us to more fully open awareness to the goodness and truth of the relationship, and from here, we create opportunities to elevate and expand love and peace beyond our greatest desires. When we expand our expression of love into the relationship, we receive, in abundance, the love that is available always.

Top Secrets for Building a Successful Relationship - Jim Byrne 2018-11-28

This book is an introductory guide to the subject of how to have a happy marriage, pair bond, civil partnership, or sex-love relationship - which means a happy and successful couple relationship - and it is designed to be helpful for committed, long-term couples, and for counsellors and therapists (who want to learn from the author's experience in this field). It deals with a broad range of knowledge and skills, spread across three volumes, and is based on the author's thirty-four years of study of couple relationships; and his twenty years' experience of helping couples to improve, revive, restore (or dissolve) their relationships with their long-term, committed, sex-love partners. This first volume is an essential foundation for what comes later. The fundamental need for this book Why is this book so important? What makes it different from other forms of marriage guidance and relationship advice which are available today? As far as I can tell, most modern resources for couples - including books, articles and blogs - are designed to inform the reader of certain facts about love and relationship, without teaching how to change habitual ways of being. Some may want to help couples to change their habits, but they do not go far enough in this direction. They do not provide tools for habit change. But this book, in addition to informing the reader, also sets out to help individuals to change themselves, at deep, non-conscious, emotional levels, so that they become better lovers, and more successful relationship partners. Loving-couple³ There is research to

support the idea that people choose their love partners non-consciously[i], on the basis of habit. (Teachworth, 1999). And, also that we tend to have conscious goals for the type of mate we would like, but that we then choose our mate on the basis of a non-conscious goal about which we know nothing. (Gladwell, 2006; and Lewis, Amini and Lannon, 2001). Therefore, it is clearly pointless producing a list of 'rules of love' (Templar, 2016) and encouraging people to read them, if we do not at the same time show them how to get those rules into their non-conscious brain-mind, from where they can inform their non-conscious goals for partner selection. And that is why we have structured this book so that the reader can reprogram themselves; change their non-conscious goals; change their 'radar device' for finding a partner. This 'radar device' is their inner model of an ideal couple (called, by us, 'The Inner Couple'. [Teachworth, 1999]). Anybody who studies this book, in the ways we recommend, will find that: - their relationship behaviours change for the better (because their non-conscious goals have changed!);- their emotional intelligence will increase; and- they will find themselves either choosing a better partner, or working successfully with their current partner to produce an amazingly satisfying relationship together. And counsellors and psychotherapists who study this book, will be able to incorporate many new strategies, tools and techniques into their work with their own troubled couple- clients.

Real Men Hug Porcupines - Randy Allsbury
2012-04-01

Men! Take your marriage from a "5" to a "7" or take it from an "8" to a "10"! Just following a few principles we learned from Dr. Talley. Be reconciled to one another as friends! (with benefits) This book helps men who want to improve their marriage. It was written specifically for men who consider themselves to be followers of Christ. Some of the chapter titles are: Focus on Yourself, The Big "H", Your Top 5 Priorities, Financial Leadership, Better Sex and Best Friends. This book contains stories and advice that can help any marriage. It is written for men who claim to be followers of Christ. You will gain a better understanding of your leadership role as a husband. You will uncover

what your priorities should be. You might even learn a few things that will improve you love life. Randy and Sherri Allsbury were heading for divorce when they met Dr. Jim Talley. This book tells the story of reconciliation, renewed friendship and hope for all marriages. "After the verbal blast to her heart from a church lady, Sherri made some new resolutions in her life. She came to the realization she could not please the church people, she could not please her husband, and she could not please God. So, she quit trying. From that point on, my sanguine wife decided to make money and have fun. She did, or at least that's what it looked like from my vantage point. I began to seek counsel on how to get my wayward wife back on track. Sherri's uncle Roger told me about a guy name Dr. Talley a while back and I had sent a few people from my congregation to him for marriage help. My marriage was heading south fast, so I decided to make an appointment and take my wife in for a tune-up and a straightening out. It was mid to late June of 2000 when my wife agreed to go to counseling with me. I needed him to straighten her out, because her behavior was starting to affect my ministry. We talked to Dr. Talley for about 45 minutes and when our time for that session was up, he looked at me and said. "Mister, it's time for you to get your priorities in order, or this sweet lady will end up killing herself." If you apply the tools in this book to your marriage, your relationship will improve, no matter how good or bad things are.
