Monsters in the Closet - Harry M. Benshoff
1997-11-15

Monster in the Closet is a history of the horror film that explores the genre's relationship to the social and cultural history of homosexuality in America. Drawing on a wide variety of films and primary source materials including censorship files, critical reviews, promotional materials, fanzines, men's magazines, and popular news weeklies, the book examines the historical figure of the movie monster in relation to various medical, psychological, religious and social models of homosexuality. While recent work within gay and lesbian studies has explored how the genetic tropes of the horror film intersect with popular culture's understanding of queerness, this is the first book to examine how the concept of the monster queer has evolved from era to era. From the gay and lesbian sensibilities encoded into the form and content of the classical Hollywood horror film, to recent films which play upon AIDS-related fears. Monster in the Closet examines how the horror film started and continues, to demonize (or quite literally "monsterize") queer sexuality, and what the pleasures and "costs" of such representations might be both for individual spectators and culture at large.

In Praise of Older Women - Stephen Vizinczey
1990-10-15

"A cool, comic survey of the sexual education of a young Hungarian, from his first encounter, as a twelve-year-old refugee with the American forces, to his unsatisfactory liaison with a reporter's wife in Canada at the belated end of his youth, when he was twenty-three . . . elegantly erotic, with masses of that indefinable quality, style . . . this has the real stuff of immortality."—B. A. Young, *Punch* "A pleasure. Vizinczey writes of women beautifully, with sympathy, tact and delight, and he writes about sex with more lucidity and grace than most writers ever acquire."—Larry McMurtry, *Houston Post* "Like James Joyce, who was as far from being a writer of erotica as Dostoevsky, Vizinczey has a refreshing message to deliver: Life is not about sex, sex is about life."—John Podhoretz, *Washington Times* "The gracefully written story of a young man growing up among older women . . . although some passages may well arouse the reader, this novel brims with what the courts have termed "redeeming literary merit."—Clarence Petersen, *Chicago Tribune* "A funny novel about sex, or rather (which is rarer) a novel which is funny as well as touching about sex . . . elegant, exact and melodious—has style, presence and individuality."—Isabel Quigly,

Sunday Telegraph "The delicious adventures of a young Casanova who appreciates maturity while acquiring it himself. In turn naive, sophisticated, arrogant, disarming, the narrator woos his women and his tale wins the reader."—Polly Devlin, Vogue

A General Introduction to Psychoanalysis - Sigmund Freud 2023-10-04

In "A General Introduction to Psychoanalysis," Sigmund Freud presents an overview of his groundbreaking theories and concepts in the field of psychoanalysis. The book is intended for a general audience, making Freud's ideas more accessible to the public. It provides a comprehensive introduction to the core concepts of psychoanalysis and offers insight into the workings of the human mind. The book covers key concepts in psychoanalysis, including: The Unconscious Mind: Freud explores the idea that much of human behavior is influenced by unconscious thoughts, desires, and conflicts, which can manifest in various ways, including dreams and slips of the tongue. The Oedipus

Complex: Freud discusses the Oedipus complex, a central concept in psychoanalysis, which involves a child's feelings of attraction toward the opposite-sex parent and rivalry with the same-sex parent. He explains how its resolution can impact psychological development. Defense Mechanisms: Freud describes defense mechanisms that individuals use to protect themselves from uncomfortable thoughts and emotions, such as repression, denial, and projection. Dream Analysis: Freud emphasizes the significance of dreams in understanding the unconscious mind, introducing dream symbolism and interpretation as tools to uncover hidden desires and fears. Sexual Development: Freud explores stages of psychosexual development, including oral, anal, phallic, latent, and genital stages, and their influence on personality and behavior. Neuroses: Freud examines various forms of neuroses, such as hysteria and obsessional neurosis, attributing them to repressed conflicts and unresolved issues from childhood.

Sexuality, Health and Human Rights - Sonia Corrêa 2008-08-18

This new work surveys how rapid changes taking place at the start of the twenty-first century in social, cultural, political and economic domains impact on sexuality, health and human rights. The relationships between men, women and children are changing quickly, as are traditional family structures and gender norms. What were once viewed as private matters have become public, and an array of new social movements – transgender, intersex, sex worker, people living with HIV – have come into the open. The book is split into three sections: Global 'Sex' Wars – discusses the notion of sexualities, its political landscapes internationally, and the return of religious fervour and extremism Epistemological Challenges and Research Agendas – examines modern 'scientific' understandings of sexuality, its history and the way in which AIDS has drawn attention to sexuality The Promises and Limits of Sexual Rights – discusses human rights approaches to sexuality, their strengths and limitations and new ways of imagining erotic justice Offering a unique framework for understanding this new world, set in the context of the major theoretical debates of recent decades, this book will be of interest to

professionals, advocates and policy researchers and is suitable for a wide range of courses covering areas such as gender studies, human sexuality, public health and social policy.

Encyclopedia of French Film Directors - Philippe Rège 2009-12-11

Cinema has been long associated with France, dating back to 1895, when Louis and Auguste Lumi_re screened their works, the first public viewing of films anywhere. Early silent pioneers Georges MZli_s, Alice Guy BlachZ and others followed in the footsteps of the Lumi_re brothers and the tradition of important filmmaking continued throughout the 20th century and beyond. In Encyclopedia of French Film Directors, Philippe Rège identifies every French director who has made at least one feature film since 1895. From undisputed masters to obscure one-timers, nearly 3,000 directors are cited here, including at least 200 filmmakers not mentioned in similar books published in France. Each director's entry contains a brief biographical summary, including dates and places of birth and death; information on the individual's education and professional training; and other pertinent details, such as real names (when the filmmaker uses a pseudonym). The entries also provide complete filmographies, including credits for feature films, shorts, documentaries, and television work. Some of the most important names in the history of film can be found in this encyclopedia, from masters of the Golden Age_Jean Renoir and RenZ Clair_to French New Wave artists such as Fran_ois Truffaut and Jean-Luc Godard.

The Diary of a Chambermaid - Octave Mirbeau 2021-05-07

The novel presents itself as the diary of Mademoiselle Célestine R., a chambermaid. Her first employer fetishizes her boots, and she later discovers the elderly man dead, with one of her boots stuffed into his mouth. Later on, Célestine becomes the maid of an upper class couple, Lanlaire, and is perfectly aware that she is entangled in the power struggles of their marriage. Célestine ends by becoming a café hostess, who mistreats her servants in turn! Excerpt: "To-day, September 14, at three o'clock in the afternoon, in mild, gray, and rainy

weather, I have entered upon my new place. It is the twelfth in two years. Of course I say nothing of the places which I held in previous years. It would be impossible for me to count them. Ah! I can boast of having seen interiors and faces, and dirty souls. And the end is not yet. Judging from the really extraordinary and dizzy way in which I have rolled, here and there, successively, from houses to employment-bureaus, and from employment-bureaus to houses, from the Bois de Boulogne to the Bastille, from the Observatory to Montmartre, from the Ternes to the Gobelins, everywhere, without ever succeeding in establishing myself anywhere, the masters in these days must be hard to please. It is incredible..."

Cubism - Guillaume Apollinaire 2014-05-10
 Les Demoiselles d'Avignon: five young women that changed modern art forever. Faces seen simultaneously from the front and in profile, angular bodies whose once voluptuous feminine forms disappear behind asymmetric lines - with this work, Picasso revolutionised the entire history of painting. Cubism was thus born in 1907. Transforming natural forms into cylinders and cubes, painters like Juan Gris and Robert Delaunay, led by Braque and Picasso, imposed a new vision upon the world that was in total opposition to the principles of the Impressionists. Largely diffused in Europe, Cubism developed rapidly in successive phases that brought art history to all the richness of the 20th century: from the futurism of Boccioni to the abstraction of Kandinsky, from the suprematism of Malevich to the constructivism of Tatlin. Linking the core text of Guillaume Apollinaire with the studies of Dr. Dorothea Eimert, this work offers a new interpretation of modernity's crucial moment, and permits the reader to rediscover, through their biographies, the principal representatives of the movement.

Spatial Boundaries, Abounding Spaces - Mohit Chandna 2021-06-30

Colonialism advanced its project of territorial expansion by changing the very meaning of borders and space. The colonial project scripted a unipolar spatial discourse that saw the colonies as an extension of European borders. In his monograph, Mohit Chandna engages with narrations of spatial conflicts in French and Francophone literature and film from the nineteenth to the early twenty-first century. In literary works by Jules Verne, Ananda Devi, and Patrick Chamoiseau, and film by Michael Haneke, Chandna analyzes the depiction of ever-changing borders and spatial grammar within the colonial project. In so doing, he also examines the ongoing resistance to the spatial legacies of colonial practices that act as omnipresent enforcers of colonial borders. Literature and film become sites that register colonial spatial paradigms and advance competing narratives that fracture the dominance of these borders. Through its analyses *Spatial Boundaries, Abounding Spaces* shows that colonialism is not a finished project relegated to our past. Colonialism is present in the here and now, and exercises its power through the borders that define us.
