Avatar, The Last Airbender: The Rise of Kyoshi (Chronicles of the Avatar Book 1) - F. C. Yee

2019-07-16

From the world of Avatar: The Last Airbender comes the instant USA Today and New York Times bestselling novel starring Avatar

Kyoshi—now in paperback! Justice begins with one woman. After nine years of desperate searching for the next Avatar, the discovery of young, charming Avatar Yun has brought stability to the four nations—that is, until Earth Kingdom-born Kyoshi, Yun’s unassuming friend and servant, demonstrates remarkable bending during a mission to the South Pole. With the identity of the true Avatar at stake and the growing unrest among her allies turning into violence, Kyoshi is forced to flee the Avatar mansion with her fiery friend Rangi, taking little more than the metal war fans and headdress her parents left behind. It isn’t easy finding Avatar training on the run, but Kyoshi and Rangi find unlikely supporters in the daofei: ragtag criminals and outlaws living in the shadows of the Earth Kingdom. Torn between following the traditional path of an Avatar and seeking vengeance for those she has lost, Kyoshi struggles to accept her newfound power as she trains in secret. But while Kyoshi, Rangi, and her daofei friends face off against brutal underworld rivals, those who seek to control the Avatar draw ever closer to her, leaving trails of the dead in their wake. The story behind the longest-living Avatar in the history of this beloved world, *The Rise of Kyoshi* maps Kyoshi’s journey from a girl of humble origins to the merciless pursuer of justice still feared and admired centuries after becoming the Avatar.

Emergency Contact - Mary H. K. Choi
2019-04-09

“Smart and funny, with characters so real and vulnerable, you want to send them care packages. I loved this book.” —Rainbow Rowell
From debut author Mary H.K. Choi comes a compulsively readable novel that shows young love in all its awkward glory—perfect for fans of *Eleanor & Park* and *To All the Boys I’ve Loved Before*. For Penny Lee, high school was a total nonevent. Her friends were okay, her grades were fine, and while she’d somehow landed a boyfriend, they never managed to know much about each other. Now Penny is heading to college in Austin, Texas, to learn how to become a writer. It’s seventy-nine miles and a zillion light years away from everything she can’t wait to leave behind. Sam’s stuck. Literally, figuratively, emotionally, financially. He works at a café and sleeps there too, on a mattress on the

floor of an empty storage room upstairs. He knows that this is the god-awful chapter of his life that will serve as inspiration for when he’s a famous movie director but right this second the seventeen bucks in his checking account and his dying laptop are really testing him. When Sam and Penny cross paths it’s less meet-cute and more a collision of unbearable awkwardness. Still, they swap numbers and stay in touch—via text—and soon become digitally inseparable, sharing their deepest anxieties and secret dreams without the humiliating weirdness of having to, you know, see each other.

At the city's edge, Zhu Li enlists everyone she can to aid the thousands of hungry and homeless evacuees who have relocated there. Meanwhile, the Triple Threats' ruthless new leader, Tokuga, is determined to unite the other triads under his rule, no matter the cost.
