The Butterick Publishing Co. Metropolitan Fashions Of 1898

- Kristina Seleshanko 2020

Before the twentieth century, women's ready-made apparel was practically unheard of, and only the wealthy could afford to hire someone to make their clothes. But during the 1860s, a pioneering American tailor named Ebenezer Butterick developed simplified patterns that allowed home seamstresses to broaden their wardrobes and dress in the latest styles. To promote his patterns, Butterick established a semi-annual catalog containing "the Latest and Reigning Fashions for Ladies', Misses', and Children's Wear." Kristina Seleshanko, a noted fashion historian, has selected images from an 1898 issue of The Butterick Publishing Co.'s Metropolitan Fashions to

highlight a gorgeous variety of women's and children's apparel. The illustrations range from everyday dresses to evening gowns and include lingerie, sportswear, and hats. An Appendix showcases men's styles as well. Seleshanko's informative Introduction discusses authentic era attire and explains the catalog's modern-day relevance.

Costumers, fashion designers, and those interested in the history of style and fashion will appreciate this vast collection.

The New Woman's Survival Catalog - Kirsten Grimstad 2019-11-19

At once practical and creative, this book was feminism's Whole Earth Catalog Originally published in 1973, The New Woman's Survival Catalog is a seminal survey of the second-wave feminist effort across the

US. Edited by Kirsten Grimstad and Susan Rennie in just five months, *The New Woman's Survival Catalog* makes a nod to Stewart Brand's influential *Whole Earth Catalog*, mapping a vast network of feminist alternative cultural activity in the 1970s. Grimstad and Rennie set out on a two-month road trip in the summer of 1973, meeting and interviewing a range of organizations and individuals, and gathering vital information on everything from arts groups to bookstores and independent presses, health, parenting and rape crisis centers and educational, legal and financial resources. "These projects express a rejection of the values of existing institutional structures," Grimstad and Rennie wrote, "and, unlike the hip male counterculture, represent an active attempt to reshape culture through changing values and consciousness." Arranged in themed sections on art, communications, work and money, child care, self-help, self-defense and activism, *The*

New Woman's Survival Catalog provides crucial insight into feminist initiatives and activism nationwide during the Women's Movement. It includes a "Making the Book" section that details the publication's production. Kirsten Grimstad and Susan Rennie are the coeditors of *The New Woman's Survival Catalog* and *The New Woman's Survival Sourcebook* (1975). They went on to cofound *Chrysalis: A Magazine of Women's Culture*, published out of the Woman's Building in downtown Los Angeles from 1977 to 1981. Grimstad is currently Co-Chair of Undergraduate Studies at Antioch University, Los Angeles; she is the author of *The Modern Revival of Gnosticism* and *Thomas Mann's Doktor Faustus* (2002). Rennie taught social sciences at Union Institute & University in Cincinnati, worked as a women's health activist and now lives in Venice, California.

Guitar Music by Women

Composers - Janna MacAuslan
1997-08-07

A practical guide for guitarists searching for new repertoire that includes women composers, this unique work lists musical works by instrumentation followed by biographies of each composer. The format first leads users to available pieces in possible ensembles and then to the biographical section, which introduces them to the composers, many of whom have been completely unknown in the guitar world. Appendixes list addresses for composers and publishers. Indexes cross reference composers with their works. Instrumentation entries include titles, composer names, publisher names, specific instruments, and length and description of the piece for indication of style. In the biographical entries, sources are given to guide the reader

to more complete information about the composer. These features, combined with valuable appendixes, indexes, and cross-referencing capabilities from section to section, make this work easy to use.

Virtue and Venom - Glenda McLeod 1991

"Virtue and Venom 'traces a general history of . . . the catalog of women - focusing especially on ... the close of the Middle Ages' (1). McLeod defines catalogs of women as 'lists - sometimes found in other works, sometimes found alone - enumerating pagan and (sometimes) Christian heroines who jointly define a notion of femineity'. The assumption that the women included in catalogs 'define a notion of femineity, ' a term she uses to rid her book of the connotations of

'femininity', is central to McLeod's study. ...

The New Woman's Survival Catalog - Kirsten Grimstad 1973

Tiré du site Internet
Amazon.com: "This book is a tool for women whose rising expectations are running into a

wall of patriarchal privilege: the women who are aggrieved at the discrepancy between the expectations of expanded choice and room to grow and the reality of male resistance. Whether women wish to file job discrimination complaints, equal pay suits, or start their own separatist ventures, this catalog presents answers, aids, tools produced by the feminist movement in battle against sexism. But, it has relevance and usefulness to all women. After all, you don't have to be a feminist to want to prevent yourself from getting raped, to know whether that vaginal itch is worth a trip to the specialist, to get a bank loan, to have access to child care facilities, to avoid car repair ripoff, and the need for these survival tool is growing. This book documents a massive trend among American women occurring on many levels toward self assertion and an end to dependency. It is meant, above all, to be a self-help tool for ALL women to take control of their lives."

Welcome to the 70s, an era when women dressed as if life was one long Benny Hill sketch. The choice of looks ran from the mini: baby-doll smocks and pinafores, to the maxi: ground-hugging dresses for glamorous party swingers. No item was free from ric-rac, ruching or wet-look trim. Crease-shedding crimplene flares were so wide they made footwear redundant and the only troubling question for a girl was the denier of her new nylon negligee. Meanwhile, peasant dresses, bolero suits and ponchos were all brought back from the continent and murdered with man-made fabrics and lurid colours. But, as these wonderfully cheesy catalogue snapshots reveal, despite it's excesses, the 70s was a time when everyone was deliriously happy in their gay,

gorgeous and washable new looks.

What a Woman Ought to Be and to Do - Stephanie J. Shaw 1996-05-15

Stephanie J. Shaw takes us into the inner world of American black professional women during the Jim Crow era. This is a story of struggle and empowerment, of the strength of a group of women who worked against daunting odds to improve the world for themselves and their people. Shaw's remarkable research into the lives of social workers, librarians, nurses, and teachers from the 1870s through the 1950s allows us to hear these women's voices for the first time. The women tell us, in their own words, about their families, their values, their expectations. We learn of the forces and factors that made them exceptional, and of the choices and commitments that made them leaders in their communities. What a Woman Ought to Be and to Do brings to life a world in which African-American families, communities, and schools

worked to encourage the self-confidence, individual initiative, and social responsibility of girls. Shaw shows us how, in a society that denied black women full professional status, these girls embraced and in turn defined an ideal of "socially responsible individualism" that balanced private and public sphere responsibilities. A collective portrait of character shaped in the toughest circumstances, this book is more than a study of the socialization of these women as children and the organization of their work as adults. It is also a study of leadership—of how African American communities gave their daughters the power to succeed in and change a hostile world.
