Between social and cultural pressures, academic challenges, family dynamics, changing hormones, and a growing awareness of the world around them, middle school girls often end up feeling voiceless and powerless. They can struggle with speaking in class, standing up for their beliefs, navigating complicated social situations, and generally letting their voices be heard. *Speak Up!* confronts these issues head on. In a relatable, frank tone, *Speak Up!* lets young girls know that what they have to say is important and that their thoughts are worth hearing. By presenting real issues and scenarios that girls will recognize from their own day-to-day lives, as well as exploring the negative thoughts and feelings that can hold them back, *Speak Up!* will supply girls with the tools they need to understand their feelings and speak up in any situation. Interactive exercises, lists, real-life examples, and attractive graphics will keep the readers engaged from start to finish. More than a book about self-esteem, *Speak Up!* addresses the cultural factors that hold girls back, and features real strategies to enable them in finding, and using, their voices.

The Blueprint for My Girls Yasmin Shiraz 2007-11-01 Have you ever wished that someone had told you ahead of time how a problem could be avoided? Do you feel like no one understands where you're coming from? Now there's a blueprint that can offer you comfort, motivation, and real solutions. When Yasmin Shiraz launched *Mad Rhythms*, a hip-hop magazine aimed at college students, she visited youth organizations and colleges across the country to teach young people how to effectively pursue their dreams. Drawn to Yasmin's confidence and determination, young women in particular sought her opinion on topics such as body image, popularity, dating, sexuality, child-parent relationships, and social and academic pressures. Yasmin could easily speak to those issues. She struggled with many of the same concerns when she was younger. Inspired by the common threads connecting each generation, Yasmin developed *The Blueprint for My Girls* to help young women discover who they are, develop a sense of self, and stay positive. In the book, Yasmin pairs her personal stories with 99 "expressions" designed to help readers deal with situations they may not feel comfortable discussing with friends and family. Each expression is accompanied by exercises to help readers progress on their journey. Staying real without being preachy, *The Blueprint for My Girls* will be a solution giver, a problem solver, and a friend in need for generations to come.

When Food Is Comfort Julie M. Simon, MA, MBA, LMFT 2018-02-10 Learn Inner Nurturing and End Emotional Eating If you regularly eat when you're not truly hungry, choose unhealthy comfort foods, or eat beyond fullness, something is out of balance. Recent advances in brain science have uncovered the crucial role that our early social and emotional environment plays in the development of imbalanced eating patterns. When we do not receive consistent and sufficient emotional nurturance during our early years, we are at greater risk of seeking it from external sources, such as food. Despite logical arguments, we have difficulty modifying our behavior because we are under the influence of an emotionally dominant part of the brain. The good news is that the brain can be rewired for optimal emotional health. *When Food Is Comfort* presents a breakthrough mindfulness practice called Inner Nurturing, a comprehensive, step-by-step program developed by an author who was herself an emotional eater. You'll learn how to nurture yourself with the loving-kindness you crave and handle stressors more easily so that you can stop turning to food for comfort. Improved health and self-esteem, more energy, and weight loss will naturally follow.

Autism Brought Me Joy Lizzy Clarke-Benjamin 2021-05-03 This book was written to let parents of children on the autism spectrum know that they did nothing wrong and that their child or children being on the spectrum is in no way their fault. I did everything right with my third child and only son, and he was diagnosed as being on the autism spectrum. I believe that we as parents of these exceptional children have been given the opportunity to love these uniquely beautiful, smart, bright, talented, and loving children unconditionally and for us, as parents, to experience the absolute joy of receiving their pure and sincere unconditional love, which ultimately brings us an indescribable joy that words cannot express. I thank God for this unique opportunity, and I would not change it for the world. This sunrise reminded me that God has given me the opportunity to watch my own son rise out of the gray mist of autism. Amen. 2

Hough 2009-09-01 Middle Grades Research: Exemplary Studies Linking Theory to Practice is the first and only book to present what is perhaps the most thoroughly scrutinized group of studies focusing on middle grades education issues ever assembled. Each research project undertaken by the contributing authors herein resulted in the publication of a scholarly paper. As a collection, the ten studies featured in this book are the crème de la crème of submissions to the Middle Grades Research Journal between August 2006 and December 2008. They are the ten highest peer reviewed manuscripts examined by members of the MGRJ Review Board - each having undergone careful "blinded" examination by three or more experts in the sub-specialty area addressed by the research study conducted. In addition, each study serves to exemplify how sound, practical research findings can be linked to classroom practice in middle grades classrooms. Middle Grades Research: Exemplary Studies Linking Theory to Practice is a must read for university professors and a useful tool for middle grades educators across all subject areas and school settings. Professors who teach middle grades courses, at both the undergraduate and graduate levels, will find the book to be a superb supplemental / accelerated readings text. Every college-level middle grades education course should make this book an integral part of class discussions.
