Covenant Lovers - Deborah Neel 2015-11-01

Covenant Lovers inspires couples to practice and integrate godly principles to create, enhance or reclaim a vibrant sexual intimacy that is mutually satisfying and lifelong. We all yearn for a passionate marriage overflowing with love so lavish that it fills our souls. We crave this chemistry and intimacy, and then want it to automatically produce a great sex life.

Hollywood's tales of romance exploit this deep desire often leaving us feeling disappointed. We then seek magical techniques and easy answers, again finding disappointment. God gives us great latitude in the means of expression and enjoyment as long as it builds a bonding love that strengthens the covenant of marriage. You and your spouse will explore scriptural principles to help you govern behaviors and develop a repertoire of mutually agreed upon activities. Seek God's heart as you begin your own sacred adventure of building a more creative, passionate and fun-filled sex life in your own distinctive, Holy Spirit inspired way! Explore the mystery by asking: What does God want us to teach us through our sexuality and desire for our sex life? What does covenant sexuality teach us about God's love for us? What does God think about sexual pleasure and playfulness? Is it godly to learn about our bodies? Techniques that enhance pleasure? Are sexual assertiveness and creativity OK with God? God's plan for intimacy and a great sex life can be summarized: An Intimate Marriage + Mature Lovers = A Passionate and Fulfilling Sex Life. Intimate marriages share feelings, attitudes, and touches that draw the lovers closer. There will be differences in marriage, yet we can maintain accepting attitudes and bonding love. Mature Lovers are willing to be vulnerable, sharing our

deepest self and receiving the deepest self of our spouse. Intimacy requires us to be willing to adjust, instead of just promoting our own reality. Intimate, mature lovemaking inspires the lovers, both individually and together, to become truly "naked and unashamed." Use this workbook in conjunction with *A Celebration Of Sex* by Dr. Douglas Rosenau.

Principles of Medical Therapy in Pregnancy - Norbert Gleicher 2012-12-06

Prefaces of textbooks are generally meant to give editors an opportunity to express the rationale for the creation of yet another textbook. It is rare to find an author or editor who does not believe that his/her book fills a

very specific need. This editor is no exception. With the incredible proliferation of medical textbooks in recent years, it has become difficult to find an empty niche for yet another text. Nevertheless, the editors and authors of Principles of Medical Therapy in Pregnancy have been impressed by one very clearly appreciated void: While the association of medical disorders with pregnancy is increasing in frequency as improved medical care allows more patients with medical diseases to conceive, an authoritative text covering the issue, comparable to an authoritative text in internal medicine, has been missing. With pregnancy representing a very specific disease situation-different from the nonpregnant state in diagnosis, management, and course of disease-a detailed textbook addressing all these issues for both the internist and the obstetrician seemed urgently needed.

Clinical Psychology and Medicine - Chris Main 2013-11-11

This book had its origins In a conference, organised by the Scottish Association for Behaviour Modification (SABM), which took place from September 29th to October 2nd, 1980 in Pitlochry, Scotland. The SABM was founded in the early 1970s to fulfil a teaching need and provide a forum at conferences in the Highlands and Islands of Scotland at which mainly clinical psychologists from Scotland and North-West England could discuss research. There have been four such major conferences over the years and the common feature has been the highlighting of research issues mainly in behavioural psychology. At the 4th conference

(Pitlochry, 1980), the general emphasis was on the assessment and treatment of chronic illness, although a number of other individual papers were presented. Chapters 4, 5, 8, 10 and 11 are based on papers from the full-day symposium on clinical psychology and physical illness (to which general medical practitioners were invited), although Chapter 8 in particular comprises a much wider review paper than the original conference paper; and Chapter 13 is also a much extended version of a paper accepted for, but not presented at, the conference. Chapters 15, 16, 18 and 19 are based on papers comprising the symposium on behavioural approaches to the care of the long-stay psychiatric patient. Chapters 2 and 3 are based on invited individual papers presented at the conference. At the request of the publisher, additional material was commissioned.
