Monitoring State Compliance with the UN Convention on the Rights of the Child Ziba Vaghri 2022-01-03 This open access book presents a discussion on human rights-based attributes for each article pertinent to the substantive rights of children, as defined in the United Nations Convention on the Rights of the Child (UNCRC). It provides the reader with a unique and clear overview of the scope and core content of the articles, together with an analysis of the latest jurisprudence of the UN Committee on the Rights of the Child. For each article of the UNCRC, the authors explore the nature and scope of corresponding State obligations, and identify the main features that need to be taken into consideration when assessing a State's progressive implementation of the UNCRC. This analysis considers which aspects of a given right are most important to track, in order to monitor States' implementation of any given right, and whether there is any resultant change in the lives of children. This approach transforms the narrative of legal international standards concerning a given right into a set of characteristics that ensure no aspect of said right is overlooked. The book develops a clear and comprehensive understanding of the UNCRC that can be used as an introduction to the rights and principles it contains, and to identify directions for future policy and strategy development in compliance with the UNCRC. As such, it offers an invaluable reference guide for researchers and students in the field of childhood and children's rights studies, as well as a wide range of professionals and organisations concerned with the subject.

Essential Guide to Child Abuse and Missing Children: Law Enforcement and Family Response, Injuries, Illness, Fatalities, STDs and Sexual Abuse, Battered Child Syndrome, Burn Injuries, AMBER Alert U. S. Department of Justice 2017-05-06 This unique compilation reproduces official documents about child abuse and missing children. Contents include: Portable Guide To Investigating Child Abuse - Law Enforcement Response to Child Abuse * Recognizing When a Child's Injury or Illness Is Caused by Abuse * When Your Child Is Missing: A Family Survival Guide * The Crime of Family Abduction - A Child's and Parent's Perspective * Investigating Child Fatalities * Sexually Transmitted Diseases and Child Sexual Abuse * Battered Child Syndrome: Investigating Physical Abuse and Homicide * Burn Injuries in Child Abuse * Law Enforcement Response to Child Abuse * Diagnostic Imaging of Child Abuse * Forming a Multidisciplinary Team To Investigate Child Abuse. Law Enforcement Response - Child abuse is a community problem. No single agency has the training, manpower, resources, or legal mandate to intervene effectively in child abuse cases. No one agency has the sole responsibility for dealing with abused children. When a child is physically assaulted or sexually abused, the ideal response is for doctors to treat injuries, therapists to counsel the child, social services professionals to work with the family, law enforcement officers to arrest the offender, and attorneys to prosecute the case. This is possible only if the agencies and organizations involved have an established process for working together to respond to child abuse cases. The most effective community response involves establishing a child protection team that includes professionals from the medical, mental health, criminal justice, social services, and education fields who understand and appreciate the different roles, responsibilities, strengths, and weaknesses of the other team members and can cooperate and coordinate their efforts. Law enforcement's role in child abuse cases cannot be overstated. It spans the entire case from the initial call, through the investigation, to the court proceedings. Law enforcement officers investigate and determine if a criminal law has been violated; identify and apprehend the offender; file appropriate criminal charges; and provide guidance and support to the child, family, and other agencies involved. Law enforcement's response needs to be constant and consistent. This guide provides the information officers need to ensure consistency, understand their importance as vital members of the multidisciplinary team, and recognize the value of effective procedures and protocols in guiding their work with other professionals to meet the needs of abused children. Each year, nearly 1.3 million children are reported missing. Although the unforeseen absence of a child is always upsetting, fortunately most missing children are returned home in a short period of time. This fact, however, provides little consolation for the parents of children whose whereabouts and welfare remain unknown. The Guide provides helpful advice for parents whose children are missing and also offers encouragement and support. Investigators should have a working knowledge of battered child syndrome and what it means to an investigation. Battered child syndrome is defined as the collection of injuries sustained by a child as a result of repeated mistreatment or beating. If a child's injuries indicate intentional trauma or appear to be more severe than could reasonably be expected to result from an accident, battered child syndrome should be suspected. In such cases, an investigator must do more than collect information about the currently reported injury. A full investigation requires interviewing possible witnesses about other injuries that the child may have suffered, obtaining the caretakers' explanation for those injuries, and assessing the conclusions of medical personnel who may have seen the victim before.

Warrior Guardian's Guide: Children's Abduction and Molestation Prevention Skills Kenneth R. Haslam 2017-02 This to the point instruction book explains from the first chapter the essential ideas a parent, guardian or anyone working with children must teach to keep children safe from fear and violence in today's world. This is a straightforward reality-based instruction on the aspects of abduction and molestation prevention as taught by Professor Kenneth R. Haslam, World Martial Arts Hall of Fame Inductee who has been teaching parents and thousands of children over the last five decades. 1 in 5 girls and 1 in 7 boys succumb to sexual assault today, and 1 in 42 children go missing. Over 30% of sexual abuse is with children under 12 years of age. But, this is not a book of statistic or psychology, but a practical guide to what to teach and how. As a busy

parent or guardian, you must get the facts and implement the safety tools without the need for hours of research. The work has been done for you. The ideas in this book can be use immediately. While this book is a quick read, every topic associated with abduction and molestation prevention has been discussed. The four steps in the ladder of protection, how to leave a veil of protection that no predator will dare try to pierce when you leave a child with others, how to discuss nudity and sex your way, so your child does not learn things someone else's way, teaching your child without fear, safety on the internet, what to do if your child is lost, what to do if your child is abducted, what are the symptoms to tell if a child is believed to be being molested, fifteen action steps your child must learn to prevent themselves from becoming a victim in the first place. These actions are described in detail, so you know exactly what to teach a child and these actions all come with support tools such as rhymes for little ones to learn. "If you touch me I will tell if you touch me I will yell," "Adults don't ask children for help, adults ask adults for help," are examples of the many tools a parent can use to teach their child without fear at an early age. More, the ten lures predators use to trick children are not only discussed but how to role-play (another valuable tool) to help guarantee your child understands and will carry out the tasks which will keep them safe. Included are the mistakes parents make every day as parents are unaware of the dangers in places taken for granted to be safe. Also, discussed are the mistakes other instructors teach such as the secret word which is an absolute dangerous tool and should not be used. A scenario-based method of teaching a child is presented to parents so a parent can take random opportunities throughout the day to teach valuable lessons through simple observations of others and quick conversations with their child. Additionally, there are thirty-four guidelines for keeping a child safe from both abduction and molestation. This book was written as the need became obvious as I was teaching children martial arts that preventing abduction and molestation was the reality for self-defense in a child's world. While a child could not physically box an adult there were many strategies a child could learn to prevent abduction and molestation, and none were about martial art fighting skills. This book is not about psychology, social science or theory but the tools I personally have used for over five decades that I taught my four children that I am sure will work and help guarantee the safety of your children. Professor Kenneth R. Haslam Founder of the 360X DEFENSE Smart N' Safe Children's Program and has taught thousands of children and adults over his five-decade career in reality-based martial arts. He is also the author of C.A.R.E.S., Children's Action Response and Escapes Skills, how to escape predators once it gets physical and the soon to be released book B.R.A.V.E., Bully Response, Attitudes, Value, and Empowerment.

LOVE YOUR CHILDREN Dr. George Vareekal, Dr. (Smt.) Rajkumari George 2020-01-07 Love Your Children is a book co-authored with my wife Professor Dr. Rajkumari George on parenting. It is the product of our insights and fascinating experience about child and child care, and incorporates our views and thoughts as parents about children. The children are the most precious human asset, and the future of humanity depends on the 26 percent vibrant child population. They belong to the most vulnerable sections of the society and warrant special care and attention of the global community. This book honestly encapsulates the authors' reflections and convictions on responsible parenting. Holistic parenting is a challenging human project and encompasses the family and the community besides sensitization of the perennial issues related to child rights, child abuses, and child deviances. The book also contains many valuable suggestions and tips to parents and aspiring parents. It does not however provide any tailor-made criteria for raising children. There is only one golden rule of child-raising and child care. 'Parents, LOVE YOUR CHILDREN. They will perform miracles if you love them'.

Child Victim Witness Protection Act of 1985 United States. Congress. Senate. Committee on the Judiciary. Subcommittee on Juvenile Justice 1986

Overcoming Sexual Terrorism Jake Goldenflame 2006 WHY CASTRATION WON'T WORK Many times, you will hear people say, "Why don't we just castrate all the sex offenders? That will do the job." But, in fact, it won't, for some very simple reasons. First, long-term studies have already shown that, in spite of all the media hype, most convicted sex offenders (up to 75% of them) do not re-offend. (Hanson, 1999). To castrate them is a waste of time. Secondly, most children are not molested by them. Most children are molested by someone they know and trust: like a friendly neighbor, down the street, or a school teacher, volunteer in some youth group or at the church. Often, unfortunately, by a relative in the family, be that an older brother, cousin, an inlaw or step-parent. Because none of them have been caught, we don't call them "sex offenders" and, as a result, 'castrating all the sex offenders' won't get them. They will still be left just as free as before. There is a better answer. Records now show that when convicted sex offenders are given exactly the kind of treatment and counseling in that is described in this book, re-offense rates are cut by 60%. (Alexander 1999). It is not terribly complicated. It isn't just a lot of theories. It is just simple, blunt honesty: making men face the reality of what they are doing, and how it is also wrecking their own lives, then training them in the steps it takes to stop doing so. That is what does it, right there. Here is the book that tells it all. In ten chapters, I relate how it happened that I became a child molester and got over it. That was almost 20 years ago now and I remain re-offense free, with no further convictions or arrests. The lessons from it that you can use to protect your children are given at the end of each chapter. If you follow them, your child will be safer than ever before. Steps that sex offenders can take to earn their way back into the community and a prescription for the healing of America conclude the work. The readers' resources section includes a listing of further books, journals, websites, referral agencies and self-recovery organizations that may also be of use to those who want more information. Fully indexed, the book will be a useful guide in all future child sex abuse trials. If you have any questions, write me at: jake.goldenflame@gmail.com
