*Discovering Your Couple Sexual Style* - Barry W. McCarthy 2011-03-17

Winner of the 2009 Smart Marriages® Impact Award Think all sex should be earth shattering? The quality of most couple sex doesn't measure up to the much distorted image of the perfect romantic love/passionate sex encounter portrayed in popular culture. In *Discovering Your Couple Sexual Style: Sharing Desire, Pleasure, and Satisfaction*, renowned marital and sex therapist Barry McCarthy and his wife Emily McCarthy urge couples to ignore what they see on TV, in books, or online, and discover their own unique sexual style. The McCarthys offer three guidelines for sexual satisfaction: develop positive, realistic sexual expectations; explore sensual and sexual options; and communicate sexual desires. With this foundation, couples can take a straightforward survey to determine which of four couple sexual styles best fits their relationship. Based on three years of research and treating more than 4,000 individuals and couples, *Discovering Your Couple Sexual Style* provides information, guidelines, exercises, and case studies that will help readers find their own sexual voice and develop a mutually satisfying sexual style.

Life Happens - Kathleen McCoy 1996-03-01

Do you: • Often feel afraid to let anyone know how bad you feel and why you feel that way? • Hide your feelings—pretending to be happy and that life is going along as it always did? • Deny your feelings or cover them up with angry or impulsive behavior—lashing out at parents, family, friends, or teachers? • Try to numb your feelings with alcohol, drugs, sex, or eating disorders—not always realizing what you're doing and why? If you can't seem to get in touch with your emotions—and you feel that there's no one you can turn to—then you need *Life Happens*. Written by specialists in adolescent psychology and medicine, this reassuring guide offers information to help you understand that the way you're feeling is totally normal, even when it seems that you're depressed for no reason at all. Using the voices and letters of teens seeking help, the authors discuss some of today's most difficult situations—from the pressure to get good grades to questions concerning sexuality to dealing with your parents. You'll learn the steps you can take to help yourself, as well as how and where to get professional help, if you want it.

*Teachers Guides to Television* - 1978

**The British National Bibliography** - Arthur James Wells 2000

Love in America - Lawrence R. Samuel 2019-11-22

Widely considered the most complex of human emotions, romantic love both shapes and reflects core societal values, its expression offering a window into the cultural zeitgeist. In popular culture, romantic love has long been a mainstay of film, television and music. The gap between fictitious narratives of love and real-life ones is, however, usually wide--American's expectations of romance and affection often transcend reality. Tracing the history of love in American culture, this book offers insight into both the national character and emotional nature.
