Understanding World Regional

Geography - Erin H. Fouberg

2017-12-27

Understanding World Regional Geography (UWRG) is a course designed to teach students to think and apply geographic concepts long after the course is over. Author Erin Fouberg draws from her expertise in geography education and research in student learning to create a product that has a strong pedagogical framework designed to engage students and deepen their understanding of the world by having them “DO” Geography. UWRG includes features that help students learn to read cultural and physical landscapes, ask geographic questions, apply geographic concepts, and make connections. It integrates 25 threshold concepts and teaches students how geographers apply these concepts and asks them to apply these concepts themselves. This enables them to grasp the complexities of the

world and provides them with the knowledge and thinking skills necessary to understanding it. UWRG is the first introductory course to integrate ESRI ArcGIS Online thematic maps, enabling students to engage with course materials, see patterns, and answer geographic questions. ## **A Gender Atlas of India** - Radha Kumar 2018

A Gender Atlas of India is a seminal body of work which comprehensively maps and grades India's performance from 2001 to 2016 on issues of concern for women. Taking into account 8 overall indicators and 28 sub-indicators, it looks at how India

is performing on various aspects, including sex ratio, women's education, employment, health, political participation and representation; and prevention of crimes against women. Unlike previous attempts, this book examines the change in India's performance over a 15-year period, compares the situation of women in India to that in its neighborhood and internationally, and rates each Indian state and union territory individually. The findings in this book are both provocative and incentivizing for policymakers--they show that where the central and state governments share concerns India's performance on gender has improved, but where they diverge women's condition has deteriorated even further.

**A Leap Forward: Capacity Building, Education and India-Afghanistan Cooperation** - 2013-10-15

Since 2001, Afghanistan has

provided New Delhi an opportunity to underline its role as a regional power. In the rapidly evolving geo-strategic scenario, India was forced to reconstitute and reassess its policies towards Afghanistan. India-Afghanistan Cooperation took a leap forward after the defeat of the Taliban and the installation of an Interim Authority. India's main focus has been to support the Afghan government and the political process in the country mandated under the Bonn Agreement of 2001. In the past decade, India pursued a policy of high-level engagement with Afghanistan through wide-ranging humanitarian, financial and infrastructural project assistance, as well as participation in international efforts aimed at political and economic rebuilding of Afghanistan. India has growing stakes in peace and stability in Afghanistan and the 2011 India-Afghanistan Strategic Partnership Agreement underlines India's commitment to ensure that a positive momentum in the Indo-

Afghanistan ties in maintained. One of the foremost aims of India's involvement in Afghanistan has been to assist in building indigenous Afghan capacity and institutions which encompasses all the sectors of development. This book, apart from examining the changing trajectory of India's policy towards Afghanistan, focuses on two particular areas of Indian intervention in Afghanistan namely Capacity Building and Education. It also evaluates its importance in strengthening the Delhi-Kabul ties. Identification of factors that are aiding or blockading the smooth functioning of these policies, have been the purpose of this academic pursuit. Attempts have been made to reach out to the Afghan beneficiaries in both India and Afghanistan, in order to understand their perspectives, requirements and disgruntlements. This research underscores that the purpose behind India's involvement in Afghanistan should not be defeated and thereby attempts to put forward certain steps

and directions that can be adopted by Indian Government in order to achieve long-lasting dividends by smooth implementation of India's aid disbursement policy. As US led North Atlantic Treaty Organization forces prepare to leave Afghanistan in 2014, India stands at a crossroads as it remains keen to preserve its interest in Afghanistan. This book apart from underlying ever-evolving Indian policy in Afghanistan provides concrete recommendations that can enhance the effectiveness of ongoing Indo-Afghanistan cooperation.
