night, some play what they think of as pranks, or games. Night games with women. Sometimes these involve consensual sex, but sometimes they don't, and sometimes they fall into a grey area. In *Night Games*, Anna Krien follows the trial of a young footballer. Fearlessly and without prejudice, she shines a light into the darkest recesses of sports culture.

Policing the Sex Industry - Teela Sanders 2017-12-12
The exponential growth of sexual commerce, migration and movement of people into the sex industry, as well as localised concerns about transactional sex, are key areas of interest across the urban west. Given the complex regulatory frameworks under which the sex industry manifests, the role of the police is significant. *Policing the Sex Industry* draws on the research

and expertise of academics and practitioners, presenting advanced scholarship across a range of countries and spaces. Unpicking the relationship between police practice and commercial sex whilst speaking to the current policy agendas, *Policing the Sex Industry* explores key issues including: trafficking, decriminalisation, localised impacts of punitive policing approaches, uneven policing approaches, hate-crime approaches and the impact of policing on trans sex workers. A dynamic and incisive contribution to existing research, *Policing the Sex Industry* will appeal to undergraduate and postgraduate students, as well as researchers at all levels, interested in fields including Criminology, Sociology, Gender Politics and Women's Studies

The Price of Sex - Belinda Brooks-Gordon 2013-06-17
As a society we are buying more sex than ever before. Adult sex shops now take their place amongst retailers in the high street and lap dancing clubs compete for an increased

share of the leisure economy; hotel chains offer sexually explicit films as part of their standard service, the party selling of adult toys to women in their homes has become a mainstream activity; and at the traditional end of the sexual service economy, prostitution has experienced new growth. Along with this has come new legal measures and attempts to regulate the sexual leisure economy, and far more comprehensive plans than ever before to regulate prostitution, in particular in the form of the new Sex Offences Act. This book seeks to address the range of issues and contemporary debates on the sex industry, including the demand by customers who buy sex, the policing of women who work in the street sex industry, and the violence that pervades prostitution. It shows how these issues have been addressed in policy terms, the problems that have emerged in this, and how a social policy might be formulated to minimize harm and enhance public understanding. Overall

the book aims to provide a critical perspective on prostitution policies and the legal chaos and complexities that surround this.

Sex, Work, and Professionalism - Katie Deverell 2001

Sex, Work and Professionalism examines what happens when professional concern is defined in terms of sex. Based on original fieldwork with outreach workers in HIV prevention it addresses issues of professionalism, emotion work and boundaries, integrating empirical insights with sociological theory. In most professional relationships sex is not defined as part of the relationship, in fact it is explicitly excluded in guidelines and codes of ethics. HIV prevention outreach workers work in sexual environments with a sexually defined target group and are often employed on the basis of their sexuality. They have to learn how to balance their work and professional lives, overcoming conflicts such as: *

role * sexual skills V sexual boundaries * personal experiences V professional understanding * professional identity V worldviews. Many of the questions being raised in this book about the meaning of professionalism, the pain and pleasure in emotion work and the management of boundaries between home, sex and work are being asked more generally by workers in a range of organisations. Sex, Work and Professionalism argues for a new understanding of professionalism more appropriate to the human services.

Serial Killers Leonard Lake & Charles Ng (A True Crime Short) delves into the sex-motivated crimes at a secluded cabin and adjacent custom-made bunker of horrors in an unincorporated area in Calaveras County, California, where the brutal killers sexually assaulted, tortured, and murdered their multiple victims, often videotaping the heinous crimes for their sick pleasure, before a twist of fate brought their reign of terror to a shocking conclusion. Paul Bernardo and Karla Homolka is a true crime short that looks at the infamous Canadian sexually motivated serial killers and husband and wife, who took three lives including that of Holmoka's own sister; with Bernardo a serial rapist as well, known as The Scarborough Rapist, before justice came down on them.
