Frank, fresh and funny, this down to earth guide brings the sex manual into the 21st century. It acknowledges the fact that today women are the driving force in initiating change and exploring new avenues in sexual relationships, and provides the kind of advice and instruction that women who grew up with the pill, forthright magazines like Cosmopolitan, and equal opportunities legislation expect. Essential bedside reading for modern women -- and the men in their lives -- this comprehensive guide to lovemaking explores the mind and sex as well as the physical aspects. A fully illustrated insight into the classic positions is followed by up-to-date facts of sexual health, from positive advice on body attitudes to an exploration of women's favorite fantasies. With specially shot new photographs, up-to-date design and a fresh female-centered approach, this will be the standard work on the subject.

With a detailed description of the female anatomy and a section on how to achieve the utmost in orgasmic pleasure, *The Sex You Want* will help women take control of their sexuality in ways that will not only change how they relate to their bodies, but how they live in the world.
