**Corrections** - John T. Whitehead 2012-09-28

Corrections: Exploring Crime, Punishment, and Justice in America provides a thorough introduction to the topic of corrections in America. In addition to providing complete coverage of the history and structure of corrections, it offers a balanced account of the issues facing the field so that readers can arrive at informed opinions regarding the process and current state of corrections in America. The 3e introduces new content and fully updated information on America's correctional system in a lively, colorful, readable textbook. Both instructors and students benefit from the inclusion of pedagogical tools and visual elements that help clarify the material.

**Sexual Offending** - Amy Phenix 2015-12-07

This expert reference provides a broad, comprehensive review of the major domains of sexual offending. Beginning with an integrated etiological model of sexual offending, chapters follow addressing the primary predisposing conditions related to sexual offending (e.g.

pedophilic, hebephilic, paraphilic rape and non-contact paraphilic disorders, hyper sexuality and personality factors). In addition, special subgroups of sexual offenders (females, youth and the intellectually disable) are considered. Both broad and specific perspectives on the assessment of sexual offenders are provided. Overviews are offered of clinical and forensic evaluations of such offenders and the utility of structured psychological assessment. A novel conceptual model of risk assessment is proposed. More specifically, each of the primary approaches or instruments related to risk assessment of sexual offending are addressed: the Static risk assessment measures, the Sex Offender Risk Appraisal Guide, structured professional judgment, and the varied measures of dynamic or criminogenic needs assessment. Finally, multiple aspects of management of sexual offenders are discussed including models of psychosocial treatment, the question of the effectiveness of such treatment, biological interventions, civil commitment, circles of support, and the containment approach to community management. Chapters are authored by both prominent experts and experienced professionals for a breadth of perspective. Among the topics covered: Pedophilic, Hebephilic, Rape Paraphilic Disorders and the variety of Non Contact sexual offending conditions Personality, related conditions, & their association with sexual offending: motivators and disinhibition in context. Disorders of hyper sexuality. Assessments of sexual offenders, including the role of psychological testing, clinical & interview approaches, as well as forensic evaluations Conceptual models of risk assessment & discussion of specific static, dynamic & structured clinical risk assessment approaches Models of & reviews of treatment outcome with sexual offenders, including psychotherapy, psychopharmacology and castration, the containment approach, civil commitment & circles of

support Overview of public policy issues & an evidence-based perspective on sex offender registration and residential restrictions. This breadth of material in Sexual Offenders will help practitioners gain multiple levels of clinical insight as well as giving them up-to-date practical tools and techniques for working with this problematic class of individuals.

**Treating Addicted Offenders** - Kevin Knight (Ph. D.) 2004

Effective interventions for substance-abusing offenders spanning the entire criminal justice spectrum - from screening and assessment to alternative-to-incarceration programs to in-prison treatment and post-release aftercare services. Topics covered include : how different jurisdictions are implementing innovative probation and drug court-based programs; which screening protocols and instruments are most effective; findings on treatment readiness; practical guidance on getting offenders receptive to programming; critical elements for in-prison TC programming; how ancillary and aftercare programs can cement early gains.

*Tall Walls and High Fences* - Bob Alexander 2020-10-15

Texas has one of the world's largest prison systems, in operation for more than 170 years and currently employing more than 28,000 people. Hundreds of thousands of people have been involved in the prison business in Texas: inmates, correctional officers, public officials, private industry representatives, and volunteers have all entered the secure facilities and experienced a different world. Previous books on Texas prisons have focused either on records and data of the prisons, personal memoirs by both inmates and correctional officers, or accounts of prison breaks. Tall Walls and High Fences is the first comprehensive history of

Texas prisons, written by a former law enforcement officer and an officer of the Texas prisons. Bob Alexander and Richard K. Alford chronicle the significant events and transformation of the Texas prison system from its earliest times to the present day, paying special attention to the human side of the story. Incarceration policy evolved from isolation to hard labor to rodeo and educational opportunities, with reform measures becoming an ever-evolving quest. The complex job of the correctional officer has evolved as well—they must ensure custody and control over the inmate population at all times, in order to provide a proper environment conducive to safety and positive change. Alexander and Alford focus especially on the men and women who work with diligence and dedication at their jobs “inside the walls,” risking their lives and—in too many instances—giving their lives in a peculiar line of duty most would find unpalatable. Within these pages are stories of prison breaks, bloodhounds chasing escapees, and gunfights. Inside the walls are deadly confrontations, human trafficking, rape, clandestine consensual trysts, and tricks turned against correctional officers. Famous people and episodes in Texas prison history receive their due, from Texas Rangers apprehending and placing outlaws in prison to the famed gunfighter John Wesley Hardin's time in and out of prison. Tall Walls and High Fences covers numerous convict escape attempts and successes, including the 1974 prison siege at Huntsville and the 2007 prisoner gunfight and escape at the Wynne Unit. Throughout this long history Alexander and Alford pay special tribute to the more than 75 correctional officers, lawmen, and civilians who lost their lives in the line of duty.

Private Security, Public Order - Simon Chesterman 2009-11-05

Public functions are increasingly being outsourced to the private sector. This includes activities that impact on human rights and security. Drawing on insights from various disciplines, this book looks at the costs and benefits of privatization and at whether there are limits to this trend.

**Prison Masculinities** - Tess Bartlett 2022-09-08

This edited book explores prison masculinities, drawing from a wide range of international researchers to highlight how masculinities may divert from the "hypermasculine" or macho typology typically found in the prison masculinities literature. The book includes a diverse selection of writing on masculinities "in" and "of" prison; masculinities experienced by those living within, working, and experiencing prison as well as historical and critical accounts of masculinities from around the world. The contributors highlight how masculinities are experienced in a multitude of ways as is evidenced in both qualitative and quantitative research with men before, during, and after imprisonment; with correctional officers and staff; in the analysis of public records, in the critical examination of Sykes' seminal work; and in historical and contemporary Australian society. Evidenced in writing drawn from Australia, the Dominican Republic, Ukraine, Hong Kong, the United States, Scotland, and the Netherlands, the contributors acknowledge that rather than being fixed, discourses around prison masculinities now include sexuality, gender identity, and diverse understandings around masculinities as strategic, hegemonic, and ever changing. Prison Masculinities is important reading for students and scholars across disciplines, including criminology, sociology, gender studies, law, international relations, history, health, psychology, and education. Chapter 4 of this book is available for free in PDF format as Open Access from the individual product page at [www.routledge.com](http://www.routledge.com). **Criminal Justice** - Eleanor Hannon Judah 2013-04-03

There are nearly two million inmates in America today. Are there better alternatives to incarceration? *Criminal Justice: Retribution vs. Restoration* presents new answers and unconventional suggestions addressing America's overcrowded prisons and jails, high recidivism rates, and weakened family and community relationships with ex-prisoners. Experts in the field discuss the benefits and failures of America's criminal justice system at various times in history and today, then explore possibilities to improve on that system. This

groundbreaking book introduces encouraging, therapeutic approaches to criminal justice that include treatment, rehabilitation, and the direct involvement the victims, the families, and the communities. *Criminal Justice* looks at America's over-reliance on punishment and retribution as the means of responding to prevalent social problems and examines the justice system's tendency to incarcerate—rather than treat—minority, mentally ill, poor, and drug-dependent offenders. The authors—who are all active in some field of criminal justice—argue for a restorative model of correction that is more humane to both offenders and victims. This model opens up dialogue between offenders and their victims, families, and communities by promoting hallmark programs, including victim offender mediation, conferencing, peacemaking circles, restitution, and community projects and services. *Criminal Justice* includes such intriguing topics as: the social costs and moral economy of incarceration drug policy—should drug users be incarcerated or rehabilitated? the potential of restorative justice—a first-hand account from a prison inmate restorative justice and faith communities the practice and efficacy of restorative justice the path from fury to forgiveness—the emotions of the mother of a murdered child strategies for creating safe and just communities women in prison—their special needs both during incarceration and after re-entry social work and criminal justice—how they work together grassroots advocacy for criminal justice reform—a look back over the last 30 years by the founders of CURE (Citizens United for Rehabilitation of Errants) This book's foundation rests on the Biblical concepts of restoration, healing, forgiveness, reconciliation, and responsibility. *Criminal Justice: Retribution vs Restoration* is an eye-opening look at the negative effects of our current system of blame and punishment and offers hope for better, more humane methods in the future. This holistic, empowering, and strengths-based perspective offers insight and suggestions that are valuable for students, social workers, policymakers, and criminal justice professionals.

**Inside Private Prisons** - Lauren-Brooke Eisen 2017-11-07

When the tough-on-crime politics of the 1980s overcrowded state prisons, private companies saw potential profit in building and operating

correctional facilities. Today more than a hundred thousand of the 1.5 million incarcerated Americans are held in private prisons in twenty-nine states and federal corrections. Private prisons are criticized for making money off mass incarceration—to the tune of \$5 billion in annual revenue. Based on Lauren-Brooke Eisen's work as a prosecutor, journalist, and attorney at policy think tanks, *Inside Private Prisons* blends investigative reportage and quantitative and historical research to analyze privatized corrections in America. From divestment campaigns to boardrooms to private immigration-detention centers across the Southwest, Eisen examines private prisons through the eyes of inmates, their families, correctional staff, policymakers, activists, Immigration and Customs Enforcement employees, undocumented immigrants, and the executives of America's largest private prison corporations. Private prisons have become ground zero in the anti-mass-incarceration movement. Universities have divested from these companies, political candidates hesitate to accept their campaign donations, and the Department of Justice tried to phase out its contracts with them. On the other side, impoverished rural towns often try to lure the for-profit prison industry to build facilities and create new jobs. Neither an endorsement or a demonization, *Inside Private Prisons* details the complicated and perverse incentives rooted in the industry, from mandatory bed occupancy to vested interests in mass incarceration. If private prisons are here to stay, how can we fix them? This book is a blueprint for policymakers to reform practices and for concerned citizens to understand our changing carceral landscape.

*Prisons* - Ashley G. Blackburn 2014

*Prisons: Today and Tomorrow*, Third Edition uses current case studies and research to present balanced and comprehensive coverage of prisons and prisoners. Featuring chapters contributed by leading authorities on the modern prison system, this text examines the many purposes of prisons-punishment, deterrence, rehabilitation, and incapacitation-and examines controversial issues such as whether imprisonment actually deters crime or merely serves as punishment.

**Lepers No More** - Stephen Canup 2021-06-20

Ex-convicts in general, and former sex offenders in particular, are treated as outcasts in modern society. Once a person is assigned a label of "ex-convict", "felon", or "sex offender", they are set up for many unique lifetime challenges and trials other people typically do not endure. Internally, they are burdened with guilt and shame over their past, and are often hopeless to think anything good could ever come of their lives. Externally, they are treated by the world as if they were "less than", "separated", "unclean", "damaged goods", and "disfigured". People often become fearful in their presence, and assume that they can't or won't ever change. In a remarkably striking sense, they might be considered as modern day "lepers". Many of us first heard of lepers, and leprosy as a disease, from reading the Bible or hearing Bible stories as children. In Biblical days, once a person was diagnosed as having leprosy they had to keep their head shaved and their clothes torn. They were considered "outcasts" from society. The Hebrew custom of tearing one's clothing was an expression of extraordinary emotion, usually of grief, terror, or horror. The tearing of one's clothes was also an expression of anger or despair. Among the people, they had to maintain a distance and constantly cry out, "unclean"! In contrast to the rest of society, Jesus was

neither repulsed by, nor fearful of, lepers in His time of ministry here on Earth. He allowed them into His close Presence; and, listened to, touched, healed, blessed and loved them. Jesus is still seeking and saving the lost, even those of us who are labeled felons, ex-convicts or sex offenders - modern day "lepers". Of course, He is also seeking and saving those who have never been incarcerated - addicts, liars, cowards, gossipers, adulterers, idolaters, thieves, drunkards, swindlers; as well as the immoral, proud and covetous. Jesus loves us all, and wants us to choose to follow Him, and fall forever in love with Him. When we do, truly, we will be lepers no more! Find out how this can be true for you!

Avenging Child Sex Abuse - Joshua Long 2023-07-21

This book explores the subjects of child sex abuse, flaws in the justice system, cultural support for vigilantism, prison violence, and the socio-legal philosophy of punishment. Child sex abuse leaves a scar that lasts a lifetime. Can any legal punishment balance the scales of justice? Can sex offenders ever repay their debt to society, or more importantly, to the victim? For some victims of this traumatic abuse, the debt remains unpaid, and it accrues interest. Vigilantes seek to avenge child victims by hunting down sex offenders in the community. Sometimes prisoners in correctional facilities conspire with rogue correctional officers to mete out their own form of "convict justice" on people who hurt children. While their motives and methods differ, these outraged citizens seek retribution through violence because they are disgusted with a justice system they believe shows extraordinary leniency toward child sex abusers. Whether this violence occurs in the community or in jail cells across the country, the message these vigilantes broadcast is the same: if the government won't seek retribution, they will. The story is told through a series of case studies based on interviews with real-life vigilantes, most of whom are serving life sentences for their crimes. For the first time, vigilantes have been given a chance to tell their own stories. Patrick Drum, Steven Sandison, Joseph Druce, Jeremy Moody, Jon Watson, James Fairbanks, and others have shared their personal insights to help us get inside the vigilante mind. For some readers, these accounts will humanize people considered to be simply murderers. For others, it will demystify the popular portrayals of vigilantes in our society.
