When Texas Prison Scams Religion - Michael G. Maness 2023-05-22

When Texas Prison Scams Religion exposes corruption in the Texas Department of Criminal Justice, especially in the abuse of religion. In many ways, this book is a literature review of 1,800-plus works that defends freedom of conscience in prison while exposing the unconstitutionality of the seminary program that "buys faith with favor" from prisoners. The state veritably ordains the prisoner a "Field Minister" that represents the offices of the Governor, TDCJ Director, and wardens throughout the prison. Therein, TDCJ lies about neutrality in a program all about Christian missions and lies again in falsely certifying elementary Bible students as counselors. Why is the director sponsoring psychopaths counseling psychopaths? In fact, TDCJ pays \$314 million a year to UTMB for psychiatric care and receives not a single report of the care given, and worse, for UTMB generates no reports itself. The underbelly TDCJ's executive culture of cover up is exposed. TDCJ has hired the lowest qualified of the applicant pool many times in the last 25 years and regularly destroys statistics on violence. TDCJ Dir. Collier led the prison to model Louisiana Warden Burl Cain, the most scandal-ridden in penal history according to a host of published news stories for 20 years. Therein, Collier led TDCJ to favor the smallest segment of religious society within Evangelical Dominionism. Texas has no business endorsing the truth of any religion over another. We close with a proposal that utilizes the 400,000,000 hours of officer contact over ten years as a definitive influence in contrast to a commissioner that spends less than 10 minutes on each decision. Maness has been lobbying Austin for 15 years to definitively access staff for his "100,000 Mothers' 1% Certainty Parole Texas Constitutional Amendment," which would revolutionize prison culture and save Texans millions of the dollars.

*Sexual Content in Young Adult Literature* -

Bryan Gillis 2015-02-10

Though discussing sexual material in novels aimed at the young adult market may make some individuals blush, the authors of such fiction often seek to represent a very real component in the lives of many teens. Unfortunately, authentic and teen-relatable information on healthy adolescent sexuality is not readily available, and sex education classes have had a minimal effect on positive sexual identity development. Consequently, young adult literature that contains sexual elements can play a critical role in addressing the questions and concerns of teens. In *Sexual Content in Young Adult Fiction: Reading between the Sheets*, Bryan Gillis and Joanna Simpson examine sexual material in canonical, historical, dystopian, romantic, and realistic contemporary fiction for teens. The authors begin with an exploration of sexual identity development and discuss the constructive influence that realistic representations of teen sexual behavior can have on that development. The authors provide a myriad of texts and examples that will help parents, teachers, and librarians better understand the positive role that sexual content in YA fiction can play in the socio-emotional and academic development of adolescents. The book concludes with an overview and analysis of censorship in the world of young adult fiction. In addition to providing a survey of sexual content in young adult literature, this book can help inspire adults to facilitate effective and responsible discussions about young adult fiction that contains sexual material. Featuring a "novels cited" and "works cited" bibliography, *Sexual Content in Young Adult Fiction* is an important resource that parents and educators will find particularly valuable.

**Confessions of Sexual Mania** - Leslie Mae  
2000-07

Sunny Jim was the love child of doting parents. Exceptionally bright, he was twice promoted to a higher grade level. Among older, more sexually aware boys, he was teased for his ignorance of sex. Sunny made it his goal to learn more than the older boys. At age nineteen, Sunny became employed by Ma Bell of Canada, choosing that job because of all the female telephone operators. On his first day at a suburban telephone station, the chief operator invited herself to be his weekend companion. The chief operator used Sunny for sexual experimentation, then tricked him into donating a dowry for her daughter's wedding. Sunny married twice, but marriage didn't keep him from seeking sex with other women. A special thrill for Sunny was the Christmas he spent with a countess who wanted him as her consort, an ex-sister-in-law who had issued an open invitation to share her bed, Sunny's wife, and an orphan he had trained in sexual arts. Sunny invented a method of sending a cardiogram by telephone, but couldn't have invented a stranger life than his own. Though his love died with his beloved Mindy, Sunny became the love of a homeless and unattractive woman's life.

Reclaiming Religion from the Church - Frank  
Canatella 2003-02

The first rule of life is "survive." And since we are necessarily social we must add the corollary, "together." All "oughts" derive from this two-part rule. Most of us understand this intuitively if not explicitly. The only issue to be resolved is how inclusive is our togetherness. Is it just our tribe, our nation, the northern hemisphere? Or, must we include the whole human family? These are the moral issues we must answer and they are empirical questions. Behavior has consequences. We have to ask ourselves, "Will such and such behaviors promote survival?" The answer can only come from the experience of the community. Present demographics will not allow us to elude the question much longer. Church rules can be faulted on a number of counts, not the least of which is that God gave us the rules so they can't change, even when experience indicates that they should. Also, the church

leaders think the purpose of the rules is to save our souls and so our life here has been seriously neglected in many respects especially for the poor and the underclass because everything is supposed to be made right in the hereafter. This I regard as backward. It affirms those who oppress the poor. Scientists make inferences from empirical data and the results are always subject to revision. Church officials make inferences from myths and they are set in stone. A good example is the doctrine of Original Sin that is presented as an occult event that causes all our problems and about which we can do nothing. The church approved of slavery for the better part of two millennia because it was in place when the church was created and St. Augustine justified it as one of the punishments resulting from Original Sin. Clearly, our problem is ignorance, the kind we are born with and the kind we acquire through learning falsely. I call this Ignorance II after Gregory Bateson's Learning II (learning how to learn). Ignorance II is a learning dead end, learning how not to learn. We very obviously do not always know how to act in our own best interests. Our best chance of breaking out of this mold is through sharing the best of our communal experience to discover how to act in our own best interests in the long run. This is how to develop a proper morality, one we can all live with. With a superior organization in place the church is positioned to unite us in the task of developing a proper morality. However, the church as presently structured can only evolve by backing into the future. It claims to already know everything that is necessary to know so it has difficulty learning, thus denying it's human origin and makeup. To change, the church requires a "spin" on history that demonstrates a development and continuity with the past instead of just saying, "We have been wrong." The People of God, the true Church, show signs of reclaiming religion through various dissident groups. These groups do not yet recognize the intimate connection between morality and survival. My hope is that this book will guide them toward that recognition.

*Dante, Eros, and Kabbalah* - Mark Jay Mirsky  
2003-10-01

Did Dante Alighieri, author of *The Divine Comedy* as a young man in Florence sleep with

Beatrice Portinari before and after her marriage? Did the poet travel after her death through Hell to find her again? The clues to this academic detective story, writes Mark Jay Mirsky, lie not only in Dante's earlier poetry, *The New Life*, or in *The Divine Comedy*, but in the *Zohar* of Moses de Leon, a Jewish text written some years before and based on Neoplatonic ideas similar to those that inspired Dante. *Purgatorio* and *Paradiso*, the second and third volumes of the *Commedia*, are inaccessible to most readers unfamiliar with the boldness of Dante's use of the philosophical debate in the Middle Ages. Does Dante's *Commedia* hint at his hope of intimacy with Beatrice in the Highest Heaven? In this book Mirsky distinctively traces the influence on Dante of Provençal poets, medieval theologians, Dante's personal life, and the sources of his classical education to propose a radical reading of Dante. The text compounds the riddles of dream, poetry, philosophy, and Dante's concealed autobiography in his work. It treats the *Commedia* in the spirit of its title, as a hopeful and comic vision of the other world.

*Sex and the Devil's Wager* - Lee Huxley  
2009-11-25

Anti-erotic elements in feminism have joined forces with Islam and Christianity to condemn prostitution, the male gaze and the natural love men have for the feminine body as a symbol of universal beauty. The author, whose religion is based in Tantra regards these attitudes both wrong and offensive to pagans. Lee Huxley, claims to be a knower - an enlightened one who sees with the third eye and whose wisdom and lateral thinking demonstrate his special insights in this book. Lee knows the truth the unthinkable that Jesus Christ, the hellfire and damnation preacher, is not the Son of God but the Son of Evil. If Christ is the Son of Evil, then Lee argues from this basis, that Judaism, Christianity and Islam are blasphemies. This book asks how Western civilization could be founded on lies, delusions and blasphemies that even today are still taken seriously. This book is the result of a lifetime of research which has

culminated in the formulation of the Devils Wager. The Devils Wager challenges you, the reader, to name any moral idea from the worst evildoers of history that is as evil as the central teaching of the Bible and the Koran, namely that God will resurrect the human race and torture most of them in hell for all eternity. Fifty per cent of the damned will be women. The male God of monotheism is a hellfire pyromaniac: Jesus Christ and Allah are arsonists who burn women alive! This is the feminist issue of our times. Lee uses the writings of theologian and lapsed Catholic Mary Daly, one of the greatest feminist thinkers, to explain their common conviction that feminism must now assume the role of the Antichrist and bring an end to monotheism!

'King Lear' in Context - Keith Linley 2015-02-15  
This engaging book provides in-depth discussion of the various influences that an audience in 1606 would have brought to interpreting 'King Lear'. How did people think about the world, about God, about sin, about kings, about civilized conduct? Learn about the social hierarchy, gender relationships, parenting and family dynamics, court corruption, class tensions, the literary profile of the time, the concept of tragedy - and all the subversions, transgressions, and oppositions that made the play an unsettling picture of a disintegrating world in free fall.

Sentenced to Science - Allen M. Hornblum 2015-09-10  
From 1951 until 1974, Holmesburg Prison in Philadelphia was the site of thousands of experiments on prisoners conducted by researchers under the direction of University of Pennsylvania dermatologist Albert M. Kligman. While most of the experiments were testing cosmetics, detergents, and deodorants, the trials also included scores of Phase I drug trials, inoculations of radioactive isotopes, and applications of dioxin in addition to mind-control experiments for the Army and CIA. These experiments often left the subject-prisoners, mostly African Americans, in excruciating pain and had long-term debilitating effects on their health. This is one among many episodes of the sordid history of medical experimentation on the black population of the United States. The story of the Holmesburg trials was documented by Allen Hornblum in his 1998 book *Acres of Skin*. The more general history of African Americans as human guinea pigs has most recently been told by Harriet Washington in her 2007 book *Medical Apartheid*. The subject is currently a

topic of heated public debate in the wake of a 2006 report from an influential panel of medical experts recommending that the federal government loosen the regulations in place since the 1970s that have limited the testing of pharmaceuticals on prison inmates. Sentenced to Science retells the story of the Holmesburg experiments more dramatically through the eyes of one black man, Edward "Butch" Anthony, who suffered greatly from the experiments for which he "volunteered" during multiple terms at the prison. This is not only one black man's highly personal account of what it was like to be an imprisoned test subject, but also a sobering reminder that there were many African Americans caught in the viselike grip of a scientific research community willing to bend any code of ethics in order to accomplish its goals and a criminal justice system that sold prisoners to the highest bidder.

enhance people's lives so they spend more time doing good instead of praying and wishing something will come to be. To question all the stories, we have been taught through are church leaders and our government's. Think of all the time mankind has spent in churches, temples, mosque's and what they could have accomplished if they had put their energy into something that has been proven scientifically for the good of mankind. The money people have spent in the church to hear a bunch of nonsense. This time and money could have been spent on knowledge of science and helping out other people without the church. To learn the real truth about mankind instead of worshipping people like Jesus, Mohammad or a God that is make up with fictitious facts. How many people have been killed for the sake of religion and how many wars have we fought over religious dogma? Our civilization would be so advanced and maybe even civilized if we embraced science instead of religion. We might have even wiped out famine, war, diseases by now and be living

on another planet. Our ancestors were ignorant of the world by no fault of their own, after all we haven't evolved that long compared to the universe and we couldn't evolve until the conditions were right. A world where we were one people instead of people divided my countries and religions that don't get along, where women, children and the oppressed are treated with respect and dignity. I like to acknowledge all the scientists, philosophers and all those who sought knowledge instead of fables. I could never have written this book without the knowledge that has come before me and the research and dedication to finding out the real truth is beyond measurement. The church wants you to give them your money so they can buy their gold chalices, crosses, feed them, clothe them, and build the most expensive churches. Wouldn't it be easier to cut out the middleman and go directly to the people? Volunteers, community services, and prisoners can do the same work as the church and it would save a lot of money and time.
