Secrets of "Men are from Mars, Women are from Venus" PAUL CARNEGIE 2019-11-25 Reading through the book Men Are From Mars, Women Are From Venus which was written by American author and relationship counselor John Gray, after he had earned degrees in meditation and taken a correspondence course in psychology. The book was published on January 1, 1992. It provides a practical and proven way for men and women to improve their communication by acknowledging the differences between their needs, desires, and behaviors. Absolutely, there is no other relationship guide on the market that will give you the same level of evidence-based insight sure to help you strengthen and nurture your relationships for years to come more than this book. In the book Men Are From Mars, Women Are From Venus, the author opines that most prevalent relationship challenges between men and women are as a result of fundamental psychological differences between the sexes, which the author demonstrates by means of its eponymous metaphor: that men and women are from separate planets, that is, men are from Mars while women are from Venus; and that each sex is wont to its own planet's society and customs, but not to those of the other. One example John Gray gave was that men's complaint that if they offer solutions to problems that women bring up in conversation, the women are not necessarily interested in solving those problems, but mainly want to discuss about them. The book avers each sex can be understood in terms of their unique ways they respond to stress and stressful situations. In the book, the author wrote: "When a man can listen to a woman's feelings without getting angry and frustrated, he gives her a wonderful gift. He makes it safe for her to express herself. The more she is able to express herself, the more she feels heard and understood, and the more she is able to give a man the loving trust, acceptance, appreciation, admiration, approval, and encouragement that he needs." This explains that when a man genuinely listens to the emotions of a woman by not being upset, he is showing her she is safe with him and understood as well. And she reciprocates this gesture with love, trust and encouragement a man needs. Likewise, when he stated that, "Men are motivated when they feel needed while women are motivated when they feel cherished." This is just the basic fact of a successful relationship or marriage by the author. In the world of many self-help books we are, there are very few titles that can be compared with the popularity of John Gray's Men Are From Mars, Women Are From Venus. Interestingly, when this title was first published in 1992, it not only helped educate countless men and women from around the globe, but it managed to nestle its way into popular culture and become an instant classic. In spite of the fun, metaphoric and catchy title, this book essentially tackles a very serious relationship issues in many male or female relationships we have today -which can be said to be a lack of effective communication. In lieu of focusing blame on one person or one gender, this book dives into some of the inherent differences between the way males and females communicate. As it is a well known fact that communication is one of the most central factors in finding the right balance, genuine love and loyalty in a long term relationship. Well, based on the concept that men and women are living on different "planets," this

book helps to not only identify these differences for the opposing gender, but to offer solutions on how both men and women can meet in the middle to have better, more productive communication strategies. The author deliberately lays big emphasis placed on love – since it is a relationship advice book. One of the biggest takeaways about love from the book actually has nothing to do with talking, it is all about showing. This is one of the biggest keys to keeping the love alive in long-term relationships. This is a very important lesson to note throughout the book, *Men Are From Mars, Women Are From Venus*, as communication isn't always about talking or telling someone something, it is often about showing them or using non-verbal communication in order to get your message across. According to *Men Are From Mars, Women Are From Venus*, men will give and give until they are pleased with what they have done. This can be with emotions, money, effort, work, or physical objects. However, women will typically give with the hope that the man will return the gesture. This is where a lot of disconnect can happen. Now, let's take a vivid look at where communication falls short. Where communication falls short Both man and woman may feel as though they are doing everything they can to show their love and that they are giving love the way they want to receive it. But, the opposing party may not recognize this, and may actually think that their partner is not showing love at all. This is one tip that both men and women should keep in the back of their minds as they continue to take John Gray's relationship advice, as many communication disconnects or crumbles, it may actually stem from this one major issue. If both parties can understand that the other partner simply has a different interpretation of what it means to show and give love, they can move forward. To cap it all, everyone has a different love language. *How To Improve Communication In A Relationship* There are so many little things that men and women can both do in order to improve their communication lines, yet one of the classic disconnects between these two genders often comes when women are not as direct with men while communicating. There is an old story about men and women communicating that perfectly depict how this lack of directness can cause misunderstandings. A man and a woman are driving down the street. The woman points at the ice cream store and says "look! The ice cream store is open." The man says "Yes, it is," and keeps driving. Later that evening, the woman is upset and asks "Why didn't you stop for ice cream when I asked?" The man is confused and says, "I never heard you ask to stop for ice cream." It may be either small or inconsequential example, but it is one that many people in male or female relationships can relate to. What went wrong? Both parties thought they said and heard different things in the same conversation. This is one of the reasons why communication tends to be more effective when women are more direct. According to John Gray, if a woman wants to go do something with a man, she shouldn't just ask him what he wants to do. She should, instead, tell him what she wants to do, and then ask him to join. This is an instance of direct communication that doesn't blur the lines and allows both parties to communicate more clearly. *How to make communication work* The following scenario was suggested by: - The woman gives the man three options of what she wants to do on a date, a week in advance. - The man gets to decide, but doesn't tell the woman until the date happens. - This allows the woman to anticipate the date all week, while the man gets to feel as though he made a decision, while still receiving clear communication on what types of dates the woman wanted to go on. It may sound like a lot of work, but the key is to start with direct communication on the woman's part. It can open up new doorways to successful interaction that both parties may have never thought were possible. In addition, emotions have great impact as regards how we communicate. They can entice us to say certain things, hold different things in, or even respond in ways we may have never thought we would. Emotions can also alter our body language and the way we give off signals to one another, even when we don't realize we are doing it. Yes, it can be safe to state that women's emotions go up and down and have really high-highs and really low-lows. In general, women's emotions tend to fluctuate more than men's do. Men tend to be a bit steadier with their emotions, which can be both positive and negative. While they may not have as deep of a dive into depression, they may also not experience as high of a high when they are happy. All this now depend on how each sex processes "alone time." As well, men are much more prone to want alone time when they feel scared or uncomfortable. Men need to be left alone where they feel safe.

It scientifically helps them to build up their testosterone and think more clearly. If given the time to retreat to his safe space, a man will come out of this "alone time" once he has handled the problem internally and finally. On the other hand, a woman may feel better by talking it out. She may not understand why her male partner wants to spend time alone processing the issue. Allowing women and men to process emotions in a way that is comfortable and natural to them is an essential component to keeping communications lines free and open. You Should Learn To Show Appreciation So much of Men Are From Mars, Women Are From Venus is about the differences between men and women, but there is one big similarity between men and women in relationships—showing understanding is key. Men and women are different. They are different physically, biologically, emotionally, almost in every way. Yet, the reason so many of these relationships can work out in the end is because these differences provide a balance. You just need to find that balance. Get to know your partner more intimately If you sincerely take the time to really get to understand your partner, it can go a long way in helping them feel loved, valued, and appreciated. Men and women are different, and it is important to accept and understand this. You may be speaking different languages, but if you take the time to really talk to your partner and attempt to understand the place they are coming from it can speak volumes. For instance, take the time to do things like ask questions, put yourself in the other person's shoes, or even read relationship advice books, like Men Are From Mars, Women Are From Venus, to show the other person that you want to understand them better because you appreciate who they are and that you want to communicate more clearly and effectively. Mind you, this can help restore energy in your romantic relationship so that you and your partner can continue to keep your relationship as healthy as possible.

The Perfect Sex Guide How to Make Her Explode Tino Mario 2017-02-21 Have you ever wondered what it was that appeals to woman about Italian men? French men also have a certain "je ne sais quoi" but do you know why this is? In this book, I will explain why the appeal is so universal among women and what it is that these men have that perhaps you don't. Ask a woman about a fantasy romance, and no doubt, the idea of making love with a passionate Italian may figure in her dreams. It's not that she's even interested in being with a man of another culture. It's just that Italians have long since learned the art of lovemaking and do it with panache. Men, on the other hand, may think of an Italian woman as being hot, but it's the combination of man and woman that makes them like that. So what is it in the approach that is different? What makes a woman explode with passion? Well, I have been studying the subject for a rather long time and my findings may not be what you expect to read. However, they are accurate, bearing in mind both the male and female point of view. You may think that your macro approach to sex is working, but you may actually be surprised to know that being macho is low on the list of priorities when it comes to pleasing a woman in bed. Macho men are all about proving what they can do. They are less interested in caring about what the woman thinks or feels. These are the guys who boast about knowing all the secret

parts of a woman, but who are least likely to be in the know. Why? Well, the fact is that women don't usually discuss their delicate parts with someone who has this attitude. Thus, it will only be by a sheer fluke of nature that she may actually climax during lovemaking. Wouldn't you prefer that your approach was what made sure she would be satisfied? As you read through the book, be prepared to see that a traditionalist approach is not going to gain you any brownie points. If you really want to make a woman sexually stimulated and happy, you need to appreciate that her part in the whole act of lovemaking is every bit as vital as his. It's not just a case of how hard you are. Neither is it a case of how much thrust you have. It's a two-way process and she needs to feel secure enough to let go. That won't happen if you don't teach her that she can relax and be herself with you, and most women can't do that, left to their own devices. It's an unfair world, though the classic view of a woman is that she doesn't have opinions when it comes to sex, or at least should not express them. If you are of this opinion, then this book is not written for you. It is written for those open minded enough to realize that the part a woman and man play in bed is equal or for those who wish it to be. I will show you what Italian men do that you may never have thought of! Here is a Preview of what You'll Learn... The Approach The purpose of foreplay The Different Types of Climax for a Woman The heavy uncontrollable climax Locating the G-spot Sex Toys.... And Much, Much More!

How to Be a Good Girlfriend and Keep Your Boyfriend Happy Andres Munsel 2015-04-12 Why should the women of today - who want to be treated equally to men - be motivated to go above and beyond in their relationship? The truth is, some women don't feel any desire to go out of their way to make their partners especially happy, and that's their prerogative. But contributing that bare minimum to a relationship makes you far from perfect, and makes the relationship far from perfect too. Even more so now that 21st century men are increasingly realizing their own shortcomings and attempting to correct them. Luckily, you're here reading this now because you probably aren't among the status quo: You're ready to take a path of self-improvement for the benefit of your relationship and the happiness of your boyfriend. Kudos! The perfect woman (in the opinion of most men) is an assertive and confident leader at work, a gourmet chef at home, a goddess in bed, and a master organizer. She's not only skilled, intuitive, intelligent, well-read, witty, and positive, but can put her hair in a pony-tail and whoop ass better than the best, when needed. Sure, this massive expectation isn't exactly fair, but that's the meaning and price of perfection. Getting into a relationship is easy, but keeping a relationship happy is hard work - even more so if you wish to be the unequivocal owner of your man's heart and mind.

A Bloke's Guide to Sex Blake Denbigh 2019-06-26 Are you a man who knows how to satisfy a woman in bed? If you were lucky, when you were 18, some 35-year-old woman who looked like Jennifer Lopez seduced you and spent a summer teaching you everything you needed to know. More likely, you had no sex at all until you were in your 20s and that was with a "nice" girl who knew even less than you did. So you've had to make do with the embarrassed mumblings of your father when you were a teenager (who basically told you nothing), some sex education in school about how to avoid infections and not get a girl pregnant, the enthusiastic but ill-informed bragging of your mates in the locker room, and a misleading array of porn. You're still stuck trying to figure out how this sex thing actually works. You've had plenty of affairs or not so many, maybe been married or still are, and sometimes it's been good, sometimes not so good, and you're not sure why. What do women actually want? The man is supposed to just know. There are books, of course, but they're mostly instructions manuals with techniques, which may or may not work with the woman you're actually with (how are you supposed to know?--half the time, even she doesn't know), or they're by female doctors largely for women, with a few remarks thrown in for men. It's time, therefore, for some frank talk about sex from a male perspective, and that's what this book is about.

The Secrets of Happily Married Men Scott Haltzman 2010-06-03 A professor of psychiatry and human behavior offers up a positive, humorous marriage guide for husbands that plays to their strengths. Dr. Scott Haltzman, Clinical Assistant Professor of Psychiatry and Human Behavior at Brown University, has devised a proven method for improving relationships, based on a man's special and unique skills, strengths, powers—as a responsible and motivated worker, manager, leader, problem-solver, partner, husband, and father. Men are different, Dr. Haltzman says. They don't approach relationships with the same skills and techniques that women do—and viva la difference. In *The Secrets of Happily Married Men*, Dr. Haltzman presents eight proven techniques that he developed from his research and through the confidential correspondence to his highly successful website, including: · Make Your Marriage Your Job · Know Your Wife · Be Home Now · Expect Conflict and Deal with It · Learn to Listen · Aim to Please · Understand the Truth About Sex · Celebrate Your Love Written in a humorous and entertaining style, the book provides specific analysis, guidelines, and techniques that are based on male biology, neuroscience, brain differences, and unique developmental stages from youth to seniority. In addition, *The Secrets of Happily Married Men* contains compelling true stories, anecdotes, and confessions written by and for men (and the women who love them). Praise for *The Secrets of Happily Married Men* “Lively and entertaining, this broad guidebook provides Haltzman's insights illuminated by anecdotes from his online discussion forum for married men.” —Psychology Today “Haltzman . . . launches his eight strategies with remarkable vigor. More important, they are extraordinarily well fleshed out and convincingly supported with useful “to do” lists and a multitude of examples. They will no doubt prove helpful to many men struggling to build a happy marriage.” —Publishers Weekly

What Women Want When They Test Men Bruce Bryans 2015-08-13 Discover What Women Want in a Man and How They Secretly Test You For it If you pay close enough attention to what really attracts women, you'll find that what women want is a man with a backbone. Women want to be with a man who knows how to take the lead and make decisions; one who has strong personal boundaries and knows how to love her like...a man. Unfortunately, a lot of men have difficulty accepting the truth that many women prefer to be with a man who isn't afraid to stand up to them, who challenges them, and who refuses to be pushed around by women (or anything else for that matter). This is especially true of women who seek a

more traditional male-female gender role dynamic in their romantic relationships. Even if a man knows how to attract women, cultivating a mind-blowing relationship with one requires a different set of skills entirely. Women want men who can make them feel secure - men with strong boundaries and unwavering commitment. Sadly, most dating and relationship books rarely show men how to keep a woman happy without them having to sacrifice their manhood in the process. How to Understand Women and Pass Their Tests With Unshakeable Confidence Men around the world have no idea that the women they know and love are testing them. These men go about their lives interacting with the opposite sex in absolute darkness, ignorant to the fact that they're being judged, appraised, approved, and rejected based on their subconscious reactions to female testing. If you had no idea that women test men and why they have to, you're about to take a journey onto a road less traveled - the more mysterious side of female psychology and how women think. Attract Women Through Authenticity and Be the Strong Man a Woman Wants For a Relationship It's important for a man to learn how to walk that thin line between caring, thoughtful lover and firm, assertive leader. The man who masters the art of being the perfect gentleman and a strong alpha male is the ideal specimen to a high-quality woman. This is what you're going to learn in this book. So if you're dating or in a relationship and women constantly create drama, lose interest in you, or manipulate you, it's time you finally got some advice from one of the only relationship books for men that won't turn you into a doormat. Here's what you're going to learn inside: How to be radically honest with a woman and why this makes her MORE attracted to you. The reason why women test men CONSISTENTLY and how to use this knowledge to deepen a woman's desire. (Hint: This is the key to female psychology and how women think.) How to be confident with difficult women. What women want in a man and how to give it to them. How to make a woman happy without becoming a complete doormat of a man. How to seduce your wife and get her in the mood by responding like a MAN whenever she "pokes the bear." How to be firm and say "No" to the woman you love without destroying intimacy. How to keep a woman interested in you by doing the ONE thing MOST men are deathly afraid of doing. How to avoid unnecessary arguments, fights, and drama with a woman by using a simple communication technique. The best way to secretly test a woman's level of romantic interest in you (as well as her emotional maturity) before making a long-term commitment. How to stop living in fear of what a woman might think, say, or do if she disagrees with or disapproves of you in any way. And much, much more... Would You Like to Know More? Get started right away and learn how to become the attractive man that has zero difficulty keeping a woman's respect, desire, and unwavering support. How to Get Your Wife in the Mood Bruce Bryans 2013-02-08 How to Get Your Wife in the Mood and Eager to Have Sex With You More Often What's the secret to getting your wife to have sex with you when and how you want it? Simple...learn how to turn her on by seducing her. Most husbands probably don't think about "seducing" their wives. A lot of guys seem to think that once they get married they don't need to make the effort anymore, and that sex is just a given. But even if sex IS given to you on a regular basis, it's still worth learning how to seduce your wife. The reality is that your wife wants to have hotter, more passionate, mind-blowing sex with you on a regular basis, but there's something she needs from you first in order to give you all the great sex you can handle... She needs you to learn how to get her in the mood. Discover How to Seduce Your Wife and Make Her Desperate to Make Love to You Make no mistake; learning how to get your wife in the mood is pivotal for any husband who has difficulty turning his woman on and making her enthusiastic for sex. Even if she seems cold and distant, learning how to get your wife in the mood will trigger the feelings of love in her heart once again and help you to rekindle the sparks in your relationship. The key to seduction is not difficult. It really comes down to four things: paying attention to your wife's needs, getting to know what she enjoys and what stimulates her emotionally and physically, doing the things she likes as often as you can, and most importantly...projecting a powerful, dominant masculine presence. Learn How to Love Your Wife with Romantic Passion If you want to know how to get your wife in the mood simply ask her, listen to what she says, and follow through. But what most wives REALLY want is for their husbands to "show up" as the strong and powerful MAN that they love and want sexually. Husbands who enjoy frequent, enthusiastic sex with their wives know how to do at least two things right: 1. They know how to make themselves sexually irresistible by increasing their "mating potential", and... 2. They know how to please a woman sexually AND emotionally, thereby NATURALLY triggering their wives' most primal sexual cravings. In How To Get Your Wife In The Mood you're going to learn: How to get your wife in the mood to have sex with you without wasting precious time and money trying to "buy sex" with romantic gifts. How to turn a woman on mentally by using your sexual influence to drive her wild without touching her. How to love your wife and make her feel beautiful again. (Hint: This is the key to reclaiming the love and passion in your marriage once more) Why learning how to please a woman in bed (and out of bed) is critically important to the success and happiness of your marriage. How to make your wife happy and eager to please you in bed by making her feel an irresistible attraction for you. Why you should learn how to turn a woman on using your words, and how this one skill can make your wife hot for you from morning until bedtime. How to be romantic and sweep her off her feet using nothing but your masculine presence to unleash her sex drive. And much, much more... Inside you'll find the relationship secrets used by some of the most blissful couples in the world as well as romantic hacks that will help you to get all the sex you want and make it seem like it was all HER idea.
