

What Is The Binary Of Gender And Sexuality

Law, Politics and the Gender Binary - Petr Agha 2018-08-06

The distinction between male and female, or masculinity and femininity, has long been considered to be foundational to society and the organization of its institutions. In the last decades, the massive literature on gender has challenged this discursive construction.

Gender has been disassembled and reassembled, variously considered as social practice, performance, ideology. Yet the binary relationship

'man/woman' continues to be a characteristic trait of Western societies. This book gathers together contributions by experts in various fields - including law, sociology, philosophy and anthropology - to pin down the relationship between institutions and the gender binary. Centrally, it

examines the way in which the present-day gender binary is shored up by the conceptualization and regulation of sex and gender at societal and institutional levels. Based on this examination, it tackles the issue of what the practices and processes of subjectivation are that preserve this binary distinction as the foundation of gender. Each of the chapters discusses this pressing question with a view to considering whether current equality policies challenge hierarchical and hegemonic understandings of gender or are the residue of a sexist understanding of gender. This analysis then paves the way for a more general and crucial question: whether institutions can, or should, contribute to the process of deconstructing the gender

What Is The Binary Of Gender And Sexuality

binary.

Queer Excursions - Lal Zimman
2014-07-01

Across scholarship on gender and sexuality, binaries like female versus male and gay versus straight have been problematized as a symbol of the stigmatization and erasure of non-normative subjects and practices. The chapters in *Queer Excursions* offer a series of distinct perspectives on these binaries, as well as on a number of other, less immediately apparent dichotomies that nevertheless permeate the gendered and sexual lives of speakers. Several chapters focus on the limiting or misleading qualities of binaristic analyses, while others suggest that binaries are a crucial component of social meaning within particular communities of study. Rather than simply accepting binary structures as inevitable, or discarding them from our analyses entirely based on their oppressive or reductionary qualities, this volume advocates for a re-theorization of the binary that

affords more complex and contextually-grounded engagement with speakers' own orientations to dichotomous systems. It is from this perspective that contributors identify a number of diverging conceptualizations of binaries, including those that are non-mutually exclusive, those that liberate in the same moment that they constrain, those that are imposed implicitly by researchers, and those that re-contextualize familiar divisions with innovative meanings. Each chapter offers a unique perspective on locally salient linguistic practices that help constitute gender and sexuality in marginalized communities. As a collection, *Queer Excursions* argues that researchers must be careful to avoid the assumption that our own preconceptions about binary social structures will be shared by the communities we study.

Transgender Identities -

Sally Hines 2010-04-05

This volume offers vivid accounts of the diversity of

What Is The Binary Of Gender And Sexuality

living transgender in today's world, representing the cutting-edge scholarship in transgender studies. This book will be of interest to scholars and students in sociology and gender and sexuality studies.

Case Studies in Clinical Practice with Trans and Gender Non-Binary Clients -

lore m. dickey 2021-04-21

Exploring clinical examples of the lived experiences of trans people across the lifespan, this unique and authoritative book addresses topics such as attending school, puberty, employment issues, suicide, bullying, autism and intersecting identities. Divided into three sections, childhood, adolescence, and adulthood, the book brings the case studies to life and dispels common myths by including short responses from leading professional experts. By enabling a greater knowledge of work with trans people and therefore filling an important gap in available literature, *Case Studies in Clinical Practice with Trans and Gender Non-Binary Clients*

allows mental health providers to understand the nuanced differences of handling clinical concerns for their trans clients.

Seeing Gender - Iris Gottlieb
2019-10-22

Seeing Gender is an of-the-moment investigation into how we express and understand the complexities of gender today. Deeply researched and fully illustrated, this book demystifies an intensely personal—yet universal—facet of humanity. Illustrating a different concept on each spread, queer author and artist Iris Gottlieb touches on history, science, sociology, and her own experience. This book is an essential tool for understanding and contributing to a necessary cultural conversation, bringing clarity and reassurance to the sometimes confusing process of navigating ones' identity. Whether LGBTQ+, cisgender, or nonbinary, *Seeing Gender* is a must-read for intelligent, curious, want-to-be woke people who care about how we see and talk about gender and sexuality in the 21st century.

What Is The Binary Of Gender And Sexuality

How to Understand Your Gender - Alex Iantaffi

2017-09-21

'For anyone who's ever wished they had a smart, kind, friend with whom they could calmly and safely discuss gender issues: this most excellent book is that kind of friend'. - Kate Bornstein, author of Gender Outlaw Have you ever questioned your own gender identity? Do you know somebody who is transgender or who identifies as non-binary? Do you ever feel confused when people talk about gender diversity? This down-to-earth guide is for anybody who wants to know more about gender, from its biology, history and sociology, to how it plays a role in our relationships and interactions with family, friends, partners and strangers. It looks at practical ways people can express their own gender, and will help you to understand people whose gender might be different from your own. With activities and points for reflection throughout, this book will help people of all

genders engage with gender diversity and explore the ideas in the book in relation to their own lived experiences.

Beyond the Binary: Thinking about Sex and Gender -

Shannon Dea 2016-05-15

How many sexes are there?

What is the relationship

between sex and gender? Is

gender a product of nature, or

nurture, or both? In Beyond the

Binary, Shannon Dea addresses

these questions and others

while introducing readers to

evidence and theoretical

perspectives from a range of

cultures and disciplines, and

from sources spanning three

millennia. Dea's pluralistic and

historically informed approach

offers readers a timely

background to current debates

about sex and gender in the

media, health sciences, and

public policy.

Genderqueer and Non-

Binary Genders - Christina

Richards 2017-12-13

This book addresses the

emerging field of genderqueer

or non-binary genders - that is,

individuals who do not identify

as male or female. It considers

What Is The Binary Of Gender And Sexuality

theoretical, research, practice, and activist perspectives; and outlines a basis for good practice when working with non-binary individuals. The first section provides an overview of historical, legal and academic aspects of this phenomenon. The second section explores how psychotherapeutic, psychological and psychiatric theory and practice are adapting to a non-binary model of gender, and the third section considers the body related aspects, from endocrinology to surgery. This work will appeal to a wide readership, from practitioners working with non-binary individuals - including psychologists, surgeons, social workers, nurses, psychiatrists, endocrinologists, psychotherapists and counselors, lawyers, and healthcare workers - to researchers interested in the study of gender identities, to students and gender activists.

Trans/Love - Morty Diamond
2011-10-11

"This is where sex and gender collide, then ricochet like

fragments of heart rending shrapnel. Rarely has a book about lust been full of so much love, conflict, and intelligence. If you think you already know what's in these stories, or you think you don't need to know, you're wrong."—Patrick Califa, author of *Sex Changes: The Politics of Transgenderism*

Exploring the crossroads of gender and sexuality, *Trans/Love: Radical Sex, Love & Relationships Beyond the Gender Binary* offers unusually engaging narratives that create a raw and honest depiction of dating, sex, love, and relationships among members of the gender variant community. FTM, MTF, thirdgender, genderqueer, and other non-traditional identities beyond the gender binary of traditional male and female are included in this often heartwarming, occasionally heartbreaking, always heartfelt groundbreaking anthology. From monogamous love and marriage to anonymous sex and one-night hook-ups (and everything in between), these stories offer readers insight

What Is The Binary Of Gender And Sexuality

into the precarious emotional and practical mechanics of intimacy among gender-variant experiences. Features contributions from award-winning authors including Julia Serano, Sassafras Lowery, and Max Valerio, alongside outstanding new writing by Tribe 8 guitarist and acclaimed film director Silas Howard, activist Joelle Ruby Ryan, filmmaker Ashley Altadonna, SisterSpit alum Cooper Lee Bombardier, and many other unique and talented voices. Morty Diamond is the editor of the critically-acclaimed anthology *From the Inside Out: Radical Gender Transformation, FTM and Beyond*. His performance work includes *My Year In Pink* and *Ask A Tranny*, a public performance piece on acceptance of and education about the trans experience.

Gender Trouble - Judith Butler 2011-09-22

Since its initial publication in 1990, this book has become a key work of contemporary feminist theory, and an essential work for anyone

interested in the study of gender, queer theory, or the politics of sexuality in culture. This is the text where the author began to advance the ideas that would go on to take life as "performativity theory," as well as some of the first articulations of the possibility for subversive gender practices. Overall, this book offers a powerful critique of heteronormativity and of the function of gender in the modern world.

The Emergence of Trans -

Ruth Pearce 2019-08-05

This book represents the vanguard of new work in the rapidly growing arena of Trans Studies. Thematically organised, it brings together studies from an international, cross-disciplinary range of contributors to address a range of questions pertinent to the emergence of trans lives and discourses. Examining the ways in which the emergence of trans challenges, develops and extends understandings of gender and reconfigures everyday lives, it asks how trans lives and discourses

What Is The Binary Of Gender And Sexuality

articulate and contest with issues of rights, education and popular common-sense. With attention to the question of how trans has shaped and been shaped by new modes of social action and networking, *The Emergence of Trans* also explores what the proliferation of trans representation across multiple media forms and public discourse suggests about the wider cultural moment, and considers the challenges presented for health care, social policy, gender and sexuality theory, and everyday articulations of identity. As such, it will appeal to scholars and students of gender and sexuality studies, as well as activists, professionals and individuals interested in trans lives and discourses.

Undoing the Gender Binary - Charlotte Chucky Tate
2020-06-04

The central question of this *Element* is this: What does it mean to be transgender - in general and in specific ways? What does the designation mean for any individual and for the groups in which the

individual exists? Biologically, what occurs? Psychologically, what transpires? *The Element* starts with the basics. The authors question some traditional assumptions, lay out some bio-medical information, and define their terms. They then move to the question of central concern, seen first in terms of the individual and then in terms of the group or society. They conclude with some implications, urging some new approaches to research and suggest some applications in the classroom and beyond.

Sex vs Gender - Nate Altera
2020-12-27

A complicated topic made short, simple and clear. This book will be of interest to everyone. It will help you to understand the difference between a person's biological sex, gender identity and sexual orientation. Interesting life stories will allow you to experience what it is like to be "different". You will be able to personally participate in the gender and sexual orientation choices made by every non-binary, trans or non-

What Is The Binary Of Gender And Sexuality

heterosexual person. Bringing together scientific facts from the fields of biology and history, statistical data from different countries, and the latest news on this topic, will make it possible to understand what the "gender identity" of a person is. You will discover how its variations were, and are, treated throughout the world. A supplementary guide, 'How to create a gender neutral environment', will support organisations and individuals to implement or/and improve a gender equality policy. These practical recommendations will help reduce levels of stress and discrimination for trans and non-binary people and create a work environment in which all customers, visitors, colleagues and employees will feel comfortable and welcome. This book does not contain medical advice. Please consult a trained medical professional for any matter relating to your health.

Emergent Identities - Rob Cover 2018-09-11

Examining the emergence of new sexual and gender

identities in the context of an ever-changing digital landscape, *Emergent Identities* considers how traditional, binary understandings of sexuality and gender are being challenged and overridden by a taxonomy of non-binary, fluid classifications and descriptors. In this comprehensive account of the ongoing shift in our understandings of gender and sexuality, Cover explores how and why traditional masculine/feminine and hetero/homo dichotomies are quickly being replaced with identity labels such as heteroflexible, bigender, non-binary, asexual, sapiosexual, demisexual, ciswoman and transcurious. Drawing on real-world data, Cover considers how new ways of perceiving relationships, attraction and desire are contesting authorised, institutional knowledge on gender and sexuality. The book explores the role that digital communication practices have played in these developments and considers the implications of these new approaches for

What Is The Binary Of Gender And Sexuality

identity, individuality, creativity, media, healthcare and social belonging. A timely response to recent developments in the field of gender identity, this will be a fascinating read for students of Psychology, Gender Studies, Media and Cultural Studies, and related areas as well as professionals in this field.

Gender Panic, Gender Policy - Vasilikie Demos 2017-10-30

Using diverse theories and methods including analysis of on-line data, feminist critical discourse, fieldwork, grounded theory, and queer theory, this volume explores gender panic and policy in the United States and beyond.

The A-Z of Gender and Sexuality - Morgan Lev

Edward Holleb 2019-04-18

There can be confusion around the appropriate terminology for trans and queer identities, even within the trans community itself. As language is constantly evolving, it can be especially difficult to know what to say. As a thorough A-Z glossary of trans and queer words from 'ace' to 'xe', this dictionary

guide will help to dispel the anxiety around using the "wrong" words, while explaining the weight of using certain labels and providing individuals with a vocabulary for personal identification. Having correct and accurate terminology to describe oneself can be empowering, especially with words and phrases that describe gender identity, sexuality, sexual orientation, as well as slang relevant to LGBTQ+ rights and anti-discrimination, queer activism, gender-affirming healthcare and psychology. Written in a traditional A-Z glossary style, this guide will serve as a quick reference for looking up individual words, as well as an in-depth look at trans history and culture.

Breaking the Binary - Jen Burke 2006-11

Breaking the Binary: Sex, Gender Identity, and Gender Presentation is a multivolume series that presents U.S. case law with questions and comments. The series covers the difficulties and rights faced by people who do not fit neatly

Downloaded from
legacy.opendemocracy.net
on 2019-02-04 by guest

What Is The Binary Of Gender And Sexuality

into either/or categories of male or female, masculine or feminine. The people in these cases tell their stories through the courts of being intersexed, transgendered, genderqueer, transsexual, and gender nonconforming. The series presents both current and older cases to provide readers with an overview of the history of case law, sexuality, and gender. The edited opinions reveal the ways that the judicial system can both inhibit and enable a culture that is tolerant of diversity in gender and gender expression.

Trans Studies - Yolanda Martínez-San Miguel

2016-03-22

Winner of the 2017 Sylvia Rivera Award in Transgender Studies from the Center for LGBTQ Studies (CLAGS) From Caitlyn Jenner to Laverne Cox, transgender people have rapidly gained public visibility, contesting many basic assumptions about what gender and embodiment mean. The vibrant discipline of Trans Studies explores such challenges in depth, building

on the insights of queer and feminist theory to raise provocative questions about the relationships among gender, sexuality, and accepted social norms. Trans Studies is an interdisciplinary essay collection, bringing together leading experts in this burgeoning field and offering insights about how transgender activism and scholarship might transform scholarship and public policy. Taking an intersectional approach, this theoretically sophisticated book deeply grounded in real-world concerns bridges the gaps between activism and academia by offering examples of cutting-edge activism, research, and pedagogy.

Life Isn't Binary - Alex Iantaffi 2019-05-21

'The book we all need for this moment in time.' CN LESTER 'An absolute must read' FOX FISHER 'A genius book' LIBRARY JOURNAL REVIEW Much of society's thinking operates in a highly rigid and binary manner; something is good or bad, right or wrong, a success or a failure, and so on.

What Is The Binary Of Gender And Sexuality

Challenging this limited way of thinking, this ground-breaking book looks at how non-binary methods of thought can be applied to all aspects of life, and offer new and greater ways of understanding ourselves and how we relate to others. Using bisexual and non-binary gender experiences as a starting point, this book addresses the key issues with binary thinking regarding our relationships, bodies, emotions, wellbeing and our sense of identity and sets out a range of practices which may help us to think in more non-binary, both/and, or uncertain ways. A truly original and insightful piece, this guide encourages reflection on how we view and understand the world we live in and how we all bend, blur or break society's binary codes.

Non-Binary Gender Identities - Sebastian Cordoba 2022-10-12
Non-Binary Gender Identities examines how non-binary people discover, adopt, and negotiate language in a variety of social settings, both offline and online. It considers how language, in the form of

gender-neutral pronouns, names, and labels, is a central aspect of identity for many and has been the subject of much debate in recent years. Cordoba captures the psychological, social, and linguistic experiences of non-binary people by illustrating the multiple, complex, and evolving ways in which non-binary people use language to express their gender identities, bodies, authenticity, and navigate social interactions - especially those where their identities are not affirmed. These findings shed light on the gender and linguistic becomings of non-binary people, a pioneering theoretical framework developed in the book, which reflects the dynamic realities of language, subjectivities, and the materiality of the body. Informed by these findings, the text offers recommendations for policy makers and practitioners, designed to facilitate gender-related communication and decrease language-related distress on non-binary people, as well as
