Iron Curtain Anne Applebaum 2012-10-30 In the long-awaited follow-up to her Pulitzer Prize-winning *Gulag*, acclaimed journalist Anne Applebaum delivers a groundbreaking history of how Communism took over Eastern Europe after World War II and transformed in frightening fashion the individuals who came under its sway. At the end of World War II, the Soviet Union to its surprise and delight found itself in control of a huge swath of territory in Eastern Europe. Stalin and his secret police set out to convert a dozen radically different countries to Communism, a completely new political and moral system. In *Iron Curtain*, Pulitzer Prize-winning journalist Anne Applebaum describes how the Communist regimes of Eastern Europe were created and what daily life was like once they were complete. She draws on newly opened East European archives, interviews, and personal accounts translated for the first time to portray in devastating detail the dilemmas faced by millions of individuals trying to adjust to a way of life that challenged their every belief and took away everything they had accumulated. Today the Soviet Bloc is a lost civilization, one whose cruelty, paranoia, bizarre morality, and strange aesthetics Applebaum captures in the electrifying

Mergers & Acquisitions: Crushing It as a Corporate Buyer in the Middle Market Kevin Tomossonie 2020-05-25

Practical, real-world advice and technical knowledge for corporate buyers who do M&A Did you ever do a search for the failure rate of M&A deals? Apparently, it's high. In fact, there are many studies that say M&A deals tend to fail a majority of the time, especially for corporate buyers. But are these statistics really true? Because if the majority of deals fail, then why would anyone keep doing them year after year? Does anyone do them right? Actually, a lot of people do them right. But if you believe the statistics, there seem to be a lot more people doing them wrong. The question is, how can buyers do deals the right way, so that they don't become just another statistic? This book answers that question and explains exactly how corporate buyers in particular can do deals the right way. Buyers who have the right mindset to approaching their deals, and a process that involves the right people with the right skills, are much more likely to have success in M&A. With that being said, this book contains practical real-world advice that has been applied in actual deals, and it provides the framework, best practices, and technical skills that are so important for executing successful deals and avoiding the failures. What's Inside Part one of the book provides a basic overview of the M&A market. It then turns its attention to the corporate buyer and explains some of the more common reasons why deals tend to fail for corporate buyers. From there, it provides a framework for these buyers to develop their own playbooks for approaching and executing deals in a consistent, reliable, and repeatable way. Part two of the book begins to cover some of the more technical details that a buyer should know when doing a deal. It explains in detail how M&A deals are structured and negotiated. It also points out where buyers need to be careful as they negotiate, so that they're choosing the right structures, keeping the economics of a deal fair, and aren't taking on any unnecessary risks. Part three of the

book explains how businesses are valued, with a focus on the middle market where many businesses are privately owned. It explains purchase price multiples, discounted cash flow analysis, and how to measure returns. It also explains how accretion and dilution are created from a deal and why that's so important to a corporate buyer. Then, the book provides a framework so that buyers can use all of this information together in order to objectively decide for themselves what a business should be worth when negotiating a deal. Part four of the book covers some of the more advanced topics that buyers should be aware of when doing deals so that they don't run into unexpected surprises after a deal has closed. This includes explaining what a quality of earnings is, why it's important, and how it can affect a buyer's view on the valuation of a business, as well as how to navigate the complexities of carve-outs, cross-border transactions, structuring earn-outs, and valuing intangible assets. From having an appreciation for the mindset and process that goes into executing deals, to understanding how they're structured, negotiated, and valued, this book is intended to be the most useful, practical, and hands-on guide ever written for corporate buyers doing M&A deals in the middle market.

use marketing to reach the right people in the right way. The 48 Laws of Power Robert Greene 2000-09-01 Amoral, cunning, ruthless, and instructive, this multi-million-copy New York Times bestseller is the definitive manual for anyone interested in gaining, observing, or defending against ultimate control - from the author of *The Laws of Human Nature*. In the book that *People* magazine proclaimed "beguiling" and "fascinating," Robert Greene and Joost Elffers have distilled three thousand years of the history of power into 48 essential laws by drawing from the philosophies of Machiavelli, Sun Tzu, and Carl Von Clausewitz and also from the lives of figures ranging from Henry Kissinger to P.T. Barnum. Some laws teach the need for prudence ("Law 1: Never Outshine the Master"), others teach the value of confidence ("Law 28: Enter Action with Boldness"), and many recommend absolute self-preservation ("Law 15: Crush Your Enemy Totally"). Every law, though, has one thing in common: an interest in total domination. In a bold and arresting two-color package, *The 48 Laws of Power* is ideal whether your aim is conquest, self-defense, or simply to understand the rules of the game.

Crush Maureen Chadwick 2016 An outrageously fun musical set in an all-girls school in the 60s, from the team behind *Bad Girls: The Musical*. It's 1963 and the Dame Dorothea Dosserdale School for Girls has a proud tradition of fostering free spirits from all walks of life. So it's a crushing blow when the new headmistress turns out to be a tyrant with strict Victorian values - and top of her hit list are the two sixth-formers accused of 'Unnatural Behaviour' in the Art Room... Brimming with catchy tunes and witty lyrics, *Crush* is a hilarious pastiche of Girls' School stories - a blend of *Malory Towers* and *St Trinian's* - with added hockey sticks and 'lashings of jolly good fun' *Coventry Telegraph*. *Crush* was first performed on tour in the UK in 2015.
