Diamond Quarantine - Elaine Spencer 2021-05-04

This book is a truthful, honest and fascinating account of being quarantined on the cruise ship

Diamond Princess. It was the first cruise ship to be hit by Covid-19. This was the first major event of the coronavirus outbreak. The story draws heavily on a detailed diary kept by the author and includes the lead up to the holiday of a lifetime. It shares what it felt like being confined for 19 days in a small cabin room with no balcony or window, and the challenges that followed. After being repatriated from Japan to the Wirral in Liverpool, and enduring another quarantine, the author finally makes it back home. Further details Elaine and John's experiences have been covered in national newspapers including: The Daily Mail The Times The Straits Times

Cause Unknown - Barbie Bellinger 2009-07-01

Originally built in 1407, the Cooper home is the keeper of many horrific secrets and is riddled with hidden passageways. The present collides with the past as the Coopers try to unravel the mysterious events that unfold around them. A mysterious ancient Egyptian disease known as

the grunge has attacked their neighbors and a cure must be found. Using binoculars that can see 150 years into the past may be the only way to solve the curse by attempting to discover how the disease began. Rural Midwesterners, the Coopers and their four young children solicit the help of Dr. Grear Barnes, an established and trusted physician from New York, as they try to stop this plague before they all become infected. *Proceedings of the Natural Science Association of Staten Island* - Staten Island Institute of Arts and Sciences, Staten Island, N.Y. 1883

epicenter of a global crisis over a contagious new virus? Bestselling writer Gay Courter and her filmmaker husband learned the answer to that question in early February 2020, just as they were about to disembark from the Diamond Princess in Tokyo after a dazzling two-week southeast Asian cruise. Weeks before lockdowns and social distancing became the new normal, the Courters and their shipmates suddenly found themselves trapped in a posh penitentiary—courtesy of the Japanese Ministry of Health. Confined to their cabin and its balcony, they watched in terror as more and more sick and contagious passengers were loaded into ambulances and the world’s press swarmed the port. Rather than passively endure their nightmare-come-true, they launched a campaign to get themselves and everyone else off the ship. With the help of the global media and some well-placed connections, they managed to influence high-ranking U.S. government officials—right up to and

including the White House—to bring everyone home to safety. *Quarantine!* is the insider’s book on the Diamond Princess episode, a suspenseful real-life drama recounting Gay and Phil’s twelve-day ordeal aboard ship, their tenacious efforts to get the U.S. government to repatriate them and other Americans, and their additional fifteen-day quarantine under federal order behind chain-link fencing at the pointedly less-than-posh Lackland Air Force Base in Texas. The COVID-19 crisis has affected the entire world. In her inimitable, long-admired voice, Gay Courter tells how it feels to wonder if you will be the next victim. See quarantinediamondprincess.com for updates about the book and Phil Courter’s forthcoming documentary, *Quarantine! How We Survived the Diamond Princess Coronavirus Crisis*.

planning we will be more resilient in the future.”
—Richard Bailey Mayor of Coronado, California
We Endured chronicles of how lives were changed by the arrival of Covid-19. With experience in research and interviewing people for media, I took a dive into the ways the pandemic affected us physically, emotionally, and spiritually. I have been writing for some time for a LinkedIn Site, Bizcatalyst360. My style is to observe my everyday life looking for connection to the world. Finding an idea that touched my soul, doing some research, and asking questions of those who would know more in a particular area. My first ones approached the concept of change. As I became more inspired due to being home in the first months of the pandemic, I started writing weekly. I wrote and then turned it to a Facebook live show on a 24-hr. place called the Quarantine Network. The live chat with the audience resulted in more topics to discover. Because of my nomadic and gregarious life experiences, I would find friends

and ask a few poignant questions. “The Quarantine Network was created by humans for humans. Instead of panicking or falling into bad habits, we decided to spend our days being connected to people. We created programs to keep our friends and strangers informed and occupied during dark times. When the light at the end of the tunnel arrived, we had an entire community that had been built.” —Beau Harvey Doiron Creator of the Quarantine Network This book is a testament to all of those in my greater circle who endured with me. I didn’t not want all their efforts and sacrifices to be forgotten. Come dive in with me, I am confident you will be surprised!

of her husband's behavior. It doesn't help matters that they're quarantined together and she doesn't want to talk. Can family and friends help them get back on track to ride out this quarantine in love? (These characters originally appeared in the novella, *Bae Watch*)

In Another Time - Michael E. Tessier 2007-05

There are no paradoxes in time, only looped back versions of history we call alternate realities. Under the sands of Egypt and near the Sphinx, two amateur archeologists make a most unexpected find. Instead of a Pharaohs tomb, they uncover an ancient, dust-choked room filled with books, computers and modern equipment. The tomb is least five thousand years old. Slowly, the young spelunkers unravel the mystery of the apparent paradox. They also discover a working Time Machine. Time itself has taken an alternate course. The powerful European Trade Confederation bullies a depressed, non-nuclear United States. The British Empire controls their colonial

possessions with an iron fist. Time for the young discoverers is running out. Global events are slowly colliding where retaining the secret of their discovery is almost impossible. A race develops to get the secrets of time travel out of the country.
