[A Dictionary of Moroccan Arabic](#) - Richard Slade Harrell 2004

This classic volume presents the core vocabulary of everyday life in Morocco--from the kitchen to the mosque, from the hardware store to the natural world of plants and animals. It contains myriad examples of usage, including formulaic phrases and idiomatic expressions.

Understandable throughout the nation, it is based primarily on the standard dialect of Moroccans from the cities of Fez, Rabat, and Casablanca. All Arabic citations are in an English transcription, making it invaluable to English-speaking non-Arabists, travelers, and

tourists--as well as being an important resource tool for students and scholars in the Arabic language-learning field.

[The Sex Lives Of Cannibals](#) - J Maarten Troost 2010-05-25

Fantasized about quitting the 9-5? Walking away from credit card debt and student loans? Think living in the South Pacific for two years sounds like a perfect solution and perhaps even a winning idea for your first novel? Maarten Troost does just that, setting up as a devil-may-care islander while his girlfriend, Sylvia, gets to work on saving the planet, or at least a little part of it on an end-of-the-world atoll, Tarawa. Life on

Tarawa resembles not so much paradise as a theatre of the absurd where planes fly with the aid of masking tape, Coconut Stalinism prevails as national government and Sylvia is co-opted by the CIA to spy on the Chinese. But abandoning continental hang-ups like barbequeing the local dogs and watching on as international industrial fishing trawlers plunder the world's richest tuna supply aren't so easy. Perhaps only by following the locals and letting go, one just might find a better way to live...

The Mermaid and the Lobster Diver - Laura Hobson Herlihy 2012-04-12

Approximately 90 percent of Miskitu boys and men in the Río Plátano Biosphere Reserve along the north coast of Honduras have worked as deepwater divers in the lobster industry and their participation has left an indelible imprint on their society. While lobster diving is lucrative, it is also a life-threatening occupation and many divers have been injured or killed from decompression sickness—locally referred to as

liwa mairin siknis (Mermaid sickness). According to Miskitu folklore, the Mermaid is the main water spirit, owner of all fresh and saltwater resources and capable of punishing male divers for extracting too many of her lobsters. Wary of the wrath of the supernatural liwa mairin, these men face another threat on shore: Miskitu women who use sexual magic—praidi saihka—as a tool to control men's wages and ensure that they continue to provide them with money. Interspersed with short stories, songs, and incantations, *The Mermaid and the Lobster Diver* demonstrates the archetypes of femininity and masculinity within Miskitu society, highlighting the power associated with women's sexuality—as manifested in both goddess and human form—and the vulnerable position of men.

Gottschild maps an unorthodox 'geography', the geography of the black dancing body, to show the central place black dance has in American culture. From the feet to the butt, to hair to skin/face, and beyond to the soul/spirit, Brenda Dixon Gottschild talks to some of the greatest choreographers of our day including Garth Fagan, Francesca Harper, Meredith Monk, Brenda Buffalino, Doug Elkins, Ralph Lemon, Fernando Bujones, Bill T. Jones, Trisha Brown, Jawole Zollar, Bebe Miller, Sean Curran and Shelly Washington to look at the evolution of black dance and it's importance to American culture. This is a groundbreaking piece of work by one of the foremost African-American dance critics of our day.

Jim Morrison - Stephen Davis 2011-08-31

Jim Morrison's electrifying live performances, and appetite for sexual and psychedelic experience enflamed the spirit of a generation. In Jim Morrison, critically acclaimed journalist Stephen Davis brings together insights gleaned

from dozens of original interviews, long-lost recordings, and Morrison's own unpublished journals to create a vivid portrait of a misunderstood genius. Each page brims with new details on every phase of Morrison's life, from his troubled youth in a strict military household, to his coming of age in the avant-garde scene of 1960s LA, his epic alcohol and drug binges, and sexual affairs. In a gripping final chapter, Davis synthesizes new evidence recently uncovered in Paris to resolve at last many of the mysteries surrounding Morrison's death, and reconstructs the final days and hours of America's greatest rock star. Compelling and harrowing, intimate and revelatory, Jim Morrison is the definitive biography of the rock god who defined the 1960s.

affairs' Guardian 'Not only Lewis's most important book but one of the most important books ever produced in the United States' New Yorker A vain, outlandish, anti-immigrant, fearmongering demagogue runs for President of the United States - and wins. Sinclair Lewis's chilling 1935 bestseller is the story of Buzz Windrip, 'Professional Common Man', who promises poor, angry voters that he will make America proud and prosperous once more, but takes the country down a far darker path. As the new regime slides into authoritarianism, newspaper editor Doremus Jessup can't believe it will last - but is he right? This cautionary tale of liberal complacency in the face of populist tyranny shows it really can happen here.

The Oxford Handbook of Ritual and Worship in the Hebrew Bible - Samuel E. Balentine 2020

"The conceit in the title of this volume is that ritual, however expansively it may be defined, is ineluctably tethered to religion and worship. It has a primal connection to the idea that a transcendent order - numinous and mysterious, supranatural and elusive, divine and wholly other - gives meaning and purpose to life. The construction of rites and rituals enables humans to conceive and apprehend this transcendent

order, to symbolize it and interact with it, to postulate its truths in the face of contradicting realities and to repair them when they have been breached or diminished. The focus of this Handbook is on ritual and worship from the perspective of biblical studies, particularly on the Hebrew Bible and its ancient Near Eastern antecedents. Within this context, attention will be given to the development of ideas in Jewish, Christian, and Muslim thinking, but only insofar as they connect with or extend the trajectory of biblical precedents. The volume reflects a wide range of analytical approaches to ancient texts, inscriptions, iconography, and ritual artifacts. It examines the social history and cultural knowledge encoded in rituals, and explores the way rituals shape and are shaped by politics, economics, ethical imperatives, and religion itself. Toward this end, the volume is organized into six major sections: Historical Contexts, Interpretive Approaches, Ritual Elements (participants, places, times, objects, practices),

Homo Hierarchicus - Louis Dumont 1980

Louis Dumont's modern classic, here presented in an enlarged, revised, and corrected second edition, simultaneously supplies that reader with the most cogent statement on the Indian caste system and its organizing principles and a provocative advance in the comparison of societies on the basis of their underlying ideologies. Dumont moves gracefully from the ethnographic data to the level of the hierarchical ideology encrusted in ancient religious texts which are revealed as the governing conception of the contemporary caste structure. On yet another plane of analysis, homo hierarchicus is contrasted with his modern Western antithesis, homo aequalis. This edition includes a lengthy new Preface in which Dumont reviews the academic discussion inspired by Homo Hierarchicus and answers his critics. A new Postface, which sketches the theoretical and comparative aspects of the concept of hierarchy, and three significant Appendixes previously

omitted from the English translation complete this innovative and influential work.

Moroccan Households in the World Economy - David Crawford 2008-11-15

Carnival Song And Society Gobip Sexuality And Creativity In Andalusia

In the High Atlas Mountains of Morocco, far from the hustle and noise of urban centers, lies a village made of mud and rock, barely discernible from the surrounding landscape. Yet a closer look reveals a carefully planned community of homes nestled above the trees, where rock slides are least frequent, and steep terraces of barley fields situated just above spring flood level. The Berber-speaking Muslims who live and farm on these precipitous mountainsides work together at the arduous task of irrigating the fields during the dry season, continuing a long tradition of managing land, labor, and other essential resources collectively. In *Moroccan Households in the World Economy*, David Crawford provides a detailed study of the rhythms of highland Berber life, from the daily routines of making a living in such a demanding environment to the relationships between individuals, the community, and the national economy. Demonstrating a remarkably complete understanding of every household and person in

the village, Crawford traces the intricacies of cooperation between households over time. Employing a calculus known as "arranging the bones," villagers attempt to balance inequality over the long term by accounting for fluctuations in the needs and capacities of each person, household, and family at different stages in its history. Tradition dictates that children "owe" labor to their parents and grandparents as long as they live, and fathers decide when and where the children in their household work. Some may be asked to work for distant religious lodges or urban relatives they haven't met because of a promise made by long-dead ancestors. Others must migrate to cities to work as wage laborers and send their earnings home to support their rural households. While men and women leave their community to work, Morocco and the wider world come to the village in the form of administrators, development agents, and those representing commercial interests, all with their own agendas and senses of time. Integrating a

classic village-level study that nevertheless engages with the realities of contemporary migration, Crawford succinctly summarizes common perceptions and misperceptions about the community while providing a salient critique of the global expansion of capital. In this beautifully observed ethnography, Crawford challenges assumptions about how Western economic processes transfer to other contexts and pulls the reader into an exotic world of smoke-filled kitchens, dirt-floored rooms, and communal rooftop meals -- a world every bit as fascinating as it is instructive.
