**Historical Painting Techniques, Materials, and Studio Practice** - Arie Wallert 1995-08-24

Bridging the fields of conservation, art history, and museum curating, this volume contains the principal papers from an international symposium titled "Historical Painting Techniques, Materials, and Studio Practice" at the University of Leiden in Amsterdam, Netherlands, from June 26 to 29, 1995. The symposium—designed for art historians, conservators, conservation scientists, and museum curators worldwide—was organized by the Department of Art History at the University of Leiden and the Art History Department of the Central Research Laboratory for Objects of Art and Science in Amsterdam. Twenty-five contributors representing museums and conservation institutions throughout the world provide recent research on historical painting techniques, including wall painting and polychrome sculpture. Topics cover the latest art historical research and scientific analyses of original techniques and materials, as well as historical sources, such as medieval treatises and descriptions of painting techniques in historical literature. Chapters include the painting methods of Rembrandt and Vermeer, Dutch 17th-century landscape painting, wall paintings in English churches, Chinese paintings on paper and canvas, and Tibetan thangkas. Color plates and black-and-white photographs illustrate works from the Middle Ages to the 20th century.

**Killing Off the Lesbians** - Liz Millward 2017-05-23

So, the film or television lesbian character dies. It seems to happen frequently. But does it really? If so, is it something new? Surveying the fates of numerous characters over decades, this study shows that killing off the lesbian is not a new trend. It is a form of symbolic annihilation and it has had an impact in real life. When more women are working behind the scenes, what appears on-screen also becomes more diverse--yet unhappily the story lines don't necessarily change. From the Xenaverse to GLAAD to the Lexa Pledge, fans have demanded better. As fan fiction migrates from the computer screen to the printed page, authors reanimate the dead and insist on happy endings.

**The Prime Time Closet** - Stephen Tropiano 2002-05-01

Is it a show about nothing or one of the greatest TV series of all time? It's both of course! *Seinfeld's* impact on popular culture was so profound that it continues to this day-years after it left prime time-thanks to its inimitable characters (Newman! Bubble Boy!) its wacky memorable plots (who can forget The Contest or The Puffy Shirt ?) and the many catchphrases we use regularly (not that there's anything wrong with that). *Seinfeld FAQ* is the first-ever comprehensive guide to the sitcom tracing its path from modest beginnings to water-cooler-show status and to its infamous love-it-or-hate-it finale. This humor-filled reference tells all about Jerry Elaine George and Kramer as well as the other unforgettable characters in their world. It features season-by-season episode reviews and a wealth of fun facts about everything from the characters' inevitably doomed relationships to their food obsessions and fashion sense (or lack thereof) as well as profiles of actors and other notables. *Broad* in scope and yet obsessed with detail (like the show itself) this FAQ is essential reading for anyone who wants to be master of the *Seinfeld* domain.

It presents examples of mad studies in action, covering initiatives that have been taken, their achievements and what can be learned from them. In addition to sharing research findings and evidence, the book offers examples and insights for advancing understandings of experiences of madness and distress from the perspectives of those who have (had) those experiences, and also explores ways of supporting people oppressed by conventional understandings and systems. This book will be of interest to all scholars and students of Mad

Studies, disability studies, sociology, socio-legal studies, mental health and medicine more generally.

**Forgotten Laughs: An Episode Guide to 150 TV Sitcoms You Probably Never Saw** - Richard Irvin 2016

Ever wonder what the unaired episodes of situation comedies that disappeared quickly from the air were about? Curious about those comedy series such as *Rewind*, *The Grubbs*, and *The Ortegas* that the Fox network announced for its fall schedule but that never premiered? Did you know that stars like Bradley Cooper, Michelle Williams, and Brad Pitt made some of their earliest appearances on short-lived sitcoms? *Forgotten Laughs: An Episode Guide to 150 TV Sitcoms You Probably Never Saw* contains answers to these questions as well as others about quickly-canceled, never-aired, and short-run situation comedies.

Published for the first time are episode descriptions for these forgotten shows. This reference book contains the most complete descriptions of sitcoms such as the quickly-canceled *Doc Corkle*, *Co-Ed Fever*, and *Black Tie Affair*, the never-aired *Misconceptions*, *The Singles Table*, and *Snip*, as well as short-run comedies like *Fathers and Sons* and *Free Country* and over 140 more. Most episode descriptions were culled from the archives of the Library of Congress, the Paley Center, and the UCLA TV script collection. In addition, *Forgotten Laughs* also includes insights from many producers, directors, and writers who worked on these little-known shows.

**Lesbian Images in International Popular Culture** - Sara E. Cooper 2013-09-13

Lesbian images are everywhere these days—cable television, film, popular magazines, advertising, Internet and the news—creating desire in men and women alike, selling commercial products and services, and stirring up controversy on many levels. But do these images truly represent the diverse identities of women-centered women worldwide? This book addresses the limited access to images of diverse and international lesbian identities and experiences, in order to provide the reader with a more complete understanding of what it means to be lesbian in a global context. It investigates how lesbians portray themselves as well as how they are portrayed by others in several areas of popular culture, including television, film, the arts,

Internet, advertising and the news. It features articles on U.S. lesbian cartoonists, Canadian viewer perceptions of lesbians on the cable show *Queer as Folk*, panoramic looks at lesbians' representation in Australian and Spanish television programming, and in-depth explorations of films by Spanish director Pedro Almodóvar, leading Indian film producers, and independent Chinese-American filmmakers. This book was published as a special issue of the *Journal of Lesbian Studies*.

*Reality TV* - Mark Andrejevic 2004-09-08

Drawing on cultural theory and interviews with fans, cast members and producers, this book places the reality TV trend within a broader social context, tracing its relationship to the development of a digitally enhanced, surveillance-based interactive economy and to a savvy mistrust of mediated reality in general. Surveying several successful reality TV formats, the book links the rehabilitation of 'Big Brother' to the increasingly important economic role played by the work of being watched. The author enlists critical social theory to examine how the appeal of 'the real' is deployed as a pervasive but false promise of democratization.

*Sexual Inequalities and Social Justice* - Niels Teunis 2007

This pioneering collection of ten ethnographically rich essays signals the emergence of a new paradigm of social analysis committed to understanding and analyzing social oppression in the context of sexuality and gender. The contributors, an interdisciplinary group of social scientists representing anthropology, sociology, public health, and psychology, illuminate the role of sexuality in producing and reproducing inequality, difference, and structural violence among a range of populations in various geographic, historical, and cultural arenas. In particular, the essays consider racial minorities including Hispanics, Koreans, and African Americans; discuss disabled people; examine issues including substance abuse, sexual coercion, and HIV/AIDS; and delve into other topics including religion and politics. Rather than emphasizing sexuality as an individual trait, the essays view it as a social phenomenon, focusing in particular on cultural meaning and real-world processes of inequality such as racism and homophobia. The authors address the complex and challenging question of how the research under discussion here can make a real contribution to the struggle for social justice.

**Queer/Adaptation** - Pamela Demory 2019-02-15

This collection of essays illuminates the intersection of queer and adaptation. Both adaptation and queerness suffer from the stereotype of being secondary: to identify something as an adaptation is to recognize it in relation to something else that seems more original, more authentic. Similarly, to identify something as queer is to place it in relation to what is assumed to be "normal" or "straight." This groundbreaking volume brings together fifteen original essays that critically challenge these assumptions about originality, authenticity, and value. The volume is organized in three parts: The essays in Part I examine what happens when an adaptation queers its source text and explore the role of the author/screenwriter/director in making those choices. The essays in Part II look at what happens when filmmakers push against boundaries of various kinds: time and space, texts and bodies, genres and formats. And the essays in Part III explore adaptations whose source texts cannot be easily pinned down, where there are multiple adaptations, and where the adaptation process itself is queer. The book includes discussion of a wide variety of texts, including opera, classic film, genre fiction, documentary, musicals, literary fiction, low-budget horror, camp classics, and experimental texts, providing a comprehensive and interdisciplinary introduction to the myriad ways in which queer and adaptation overlap.

**Queer TV** - Glyn Davis 2008-12-03

How can we queerly theorise and understand television? How can the realms of television studies and queer theory be brought together, in a manner beneficial and productive for both? *Queer TV: Theories, Histories, Politics* is the first book to explore television in all its scope and complexity - its industry, production, texts, audiences, pleasures and politics - in relation to queerness. With contributions from distinguished authors working in film/television studies and the study of gender/sexuality, it offers a unique contribution to both disciplines. An introductory chapter by the editors charts the key debates and issues addressed within the book, followed by three sections, each central to an understanding of the relationships between queerness and television: 'theories and approaches', 'histories and genres', and 'television itself'. Individual essays examine the relationships between queers, queerness, and television across the multiple sites of production, consumption, reception, interpretation and theorisation, as well as the textual and aesthetic dimensions of television and the televisual. The book crucially moves beyond lesbian and gay textual analyses of specific TV shows that have often focussed on evaluations of positive/negative representations and identities. Rather, the essays in *Queer TV* theorise not just the queerness in/on television (the production personnel, the representations it offers) but also the queerness of television as a distinct medium.

*Social Psychology of Inclusion and Exclusion* - Dominic Abrams 2004-06-02

This book is about the social psychological dynamics and phenomenology of social inclusion and exclusion. The editors take as their starting point the assumption that social life is conducted in a framework of relationships in which individuals seek inclusion and belongingness. Relationships necessarily include others, but equally they have boundaries that exclude. Frequently these boundaries are challenged or crossed. The book will draw together research on individual motivation, small group processes, stigmatization and intergroup relations, to provide a comprehensive social psychological account of social inclusion and exclusion.

*The Sister Season* - Jennifer Scott 2013-11-05

Sometimes coming home for the holidays isn't as easy as it seems.... It's December 21, and the Yancey sisters have been called home. When the girls were young, holidays at their family farm meant a tinsel-garnished tree, the scent of simmering food, and laughter ringing through the house. But as the years unfolded, family bonds fractured, and the three sisters scattered and settled into separate lives. Until now. The Yancey sisters are coming to spend the holidays with their mother. They're also coming to bury their father. Claire, the youngest, a free spirit who journeyed to California, returns first. Then comes Julia, the eldest, a college professor with a teenage son of her own. And finally there's Maya, the middle child, who works so hard to be the perfect mother and wife. During the sisters' week together, old conflicts surface, new secrets emerge, and the limits and definitions of family are tested. And as the longest night of the year slips by and brightening days beckon, the sisters will have to answer one question: When you're a sister,

aren't you a sister forever? CONVERSATION GUIDE INCLUDED
