Red Notice - Bill Browder 2015-02-03

Expelled from Russia after exposing corruption in Russian companies, an investment broker describes how his attorney was detained, tortured and beaten to death for testifying against Russian law enforcement officers who stole millions in taxes paid to the government. Illustrations. Tour.

Beyond Frozen Conflict - Thomas de Waal
2021-03-15

This book is the first to give an up-to-date account of all five unresolved conflicts of the

post-Soviet space in Eastern Europe in an analytically consistent manner.

Memory Politics in Contemporary Russia - Mariëlle Wijermars 2018-07-11

This book examines the societal dynamics of memory politics in Russia. Since Vladimir Putin became president, the Russian central government has increasingly actively employed cultural memory to claim political legitimacy and discredit all forms of political opposition. The rhetorical use of the past has become a defining characteristic of Russian politics, creating a historical foundation for the regime's emphasis on a strong state and centralised leadership. Exploring memory politics, this book analyses a

wide range of actors, from the central government and the Russian Orthodox Church, to filmmaker and cultural heavyweight Nikita Mikhalkov and radical thinkers such as Aleksandr Dugin. In addition, in view of the steady decline in media freedom since 2000, it critically examines the role of cinema and television in shaping and spreading these narratives. Thus, this book aims to gain a better understanding of the various means through which the Russian government practices its memory politics (e.g., the role of state media) and, on the other hand, to sufficiently value the existence of alternative and critical voices and criticism that existing studies tend to overlook. Contributing to current debates in the field of memory studies and of current affairs in Russia and Eastern Europe, this book will be of interest to scholars working in the fields of Russian Studies, Cultural Memory Studies, Nationalism and National Identity, Political Communication, Film, Television and Media Studies.

Putin Again - Philip Hanson 2012

This report examines Russia's economy, domestic politics, and foreign relations beyond the 2012 elections. Russia possesses significant economic assets and residual political capital; however, current trends suggest the country will struggle to realize its potential in the coming decade. Russia's politics and economy are increasingly stagnant, and its international influence is in gradual decline. As internal challenges grow in the next decade, Russia will become an increasing source of concern for Western policymakers, though rarely an object of direct policy.

The Penguin Book of Russian Poetry - Robert Chandler 2015-02-26

An enchanting collection of the very best of Russian poetry, edited by acclaimed translator Robert Chandler together with poets Boris Dralyuk and Irina Mashinski. In the late eighteenth and early nineteenth centuries, poetry's pre-eminence in Russia was unchallenged, with Pushkin and his contemporaries ushering in the 'Golden Age' of Russian literature. Prose briefly gained the high ground in the second half of the nineteenth century, but poetry again became dominant in the 'Silver Age' (the early twentieth century), when belief in reason and progress yielded once

more to a more magical view of the world. During the Soviet era, poetry became a dangerous, subversive activity; nevertheless, poets such as Osip Mandelstam and Anna Akhmatova continued to defy the censors. This anthology traces Russian poetry from its Golden Age to the modern era, including work by several great poets - Georgy Ivanov and Varlam Shalamov among them - in captivating modern translations by Robert Chandler and others. The volume also includes a general introduction, chronology and individual introductions to each poet. Robert Chandler is an acclaimed poet and translator. His many translations from Russian include works by Aleksandr Pushkin, Nikolay Leskov, Vasily Grossman and Andrey Platonov, while his anthologies of Russian Short Stories from Pushkin to Buida and Russian Magic Tales are both published in Penguin Classics. Irina Mashinski is a bilingual poet and co-founder of the StoSvet literary project. Her most recent collection is 2013's *Ophelia i masterok* [Ophelia and the Trowel]. Boris Dralyuk is a Lecturer in Russian at the University of St Andrews and translator of many books from Russian, including, most recently, Isaac Babel's *Red Cavalry* (2014).

The Red Web - Andrei Soldatov 2015-09-08

A Library Journal Best Book of 2015 A NPR Great Read of 2015 The Internet in Russia is either the most efficient totalitarian tool or the device by which totalitarianism will be overthrown. Perhaps both. On the eighth floor of an ordinary-looking building in an otherwise residential district of southwest Moscow, in a room occupied by the Federal Security Service (FSB), is a box the size of a VHS player marked SORM. The Russian government's front line in the battle for the future of the Internet, SORM is the world's most intrusive listening device, monitoring e-mails, Internet usage, Skype, and all social networks. But for every hacker subcontracted by the FSB to interfere with Russia's antagonists abroad -- such as those who, in a massive denial-of-service attack, overwhelmed the entire Internet in neighboring Estonia -- there is a radical or an opportunist who is using the web to chip away at the power of the state at home. Drawing from scores of interviews personally conducted with numerous prominent officials in the Ministry of

Communications and web-savvy activists challenging the state, Andrei Soldatov and Irina Borogan peel back the history of advanced surveillance systems in Russia. From research laboratories in Soviet-era labor camps, to the legalization of government monitoring of all telephone and Internet communications in the 1990s, to the present day, their incisive and alarming investigation into the Kremlin's massive online-surveillance state exposes just how easily a free global exchange can be coerced into becoming a tool of repression and geopolitical warfare. Dissidents, oligarchs, and some of the world's most dangerous hackers collide in the uniquely Russian virtual world of The Red Web.

Russia, NATO, and Black Sea Security -

Stephen J. Flanagan 2020-10-05

Russia has long used political, military, economic, informational, and clandestine tools against countries in the Black Sea region. In this report, the authors present elements of a Western strategy to counter Russian malign influence and aggression.

Russia's 'New' Tools for Confronting the West: Continuity and Innovation in Moscow's Exercise of Power - Giles Keir 2016-03-21

Modernism and the Spiritual in Russian Art -

Louise Hardiman 2017-11-13

In 1911 Vasily Kandinsky published the first edition of 'On the Spiritual in Art', a landmark modernist treatise in which he sought to reframe the meaning of art and the true role of the artist. For many artists of late Imperial Russia - a culture deeply influenced by the regime's adoption of Byzantine Orthodoxy centuries before - questions of religion and spirituality were of paramount importance. As artists and the wider art community experimented with new ideas and interpretations at the dawn of the twentieth century, their relationship with 'the spiritual' - broadly defined - was inextricably linked to their roles as pioneers of modernism. This diverse collection of essays introduces new and stimulating approaches to the ongoing debate as to how Russian artistic modernism engaged with questions of spirituality in the late nineteenth to mid-twentieth centuries. Ten

chapters from emerging and established voices offer new perspectives on Kandinsky and other familiar names, such as Kazimir Malevich, Mikhail Larionov, and Natalia Goncharova, and introduce less well-known figures, such as the Georgian artists Ucha Japaridze and Lado Gudishvili, and the craftswoman and art promoter Aleksandra Pogosskaia. Prefaced by a lively and informative introduction by Louise Hardiman and Nicola Kozicharow that sets these perspectives in their historical and critical context, *Modernism and the Spiritual in Russian Art: New Perspectives* enriches our understanding of the modernist period and breaks new ground in its re-examination of the role of religion and spirituality in the visual arts in late Imperial Russia. Of interest to historians and enthusiasts of Russian art, culture, and religion, and those of international modernism and the avant-garde, it offers innovative readings of a history only partially explored, revealing uncharted corners and challenging long-held assumptions.

Chelsea FC: The Official Biography - Rick Glanvill 2006-07-31

CHELSEA FC: THE OFFICIAL BIOGRAPHY goes to the heart of what gives the club its personality. The author has access to all the key characters, including Mourinho, Abramovich and the star players, plus legendary names of the past. He addresses all the controversies, including: the near suffocation through lack of cash in the 1970s and in 2002; the impact of Abramovich's money; the club and fans' response to racism; how the hooliganism which dogged Chelsea for years has been tackled. On the lighter side, Chelsea is regarded as the country's glamour club, and fashions, good and dreadful, will feature alongside celebrity fans and the worlds of art and music. And then there is the football at the core of it all, creating moments of huge tension and excitement.

Gorky Park - Martin Cruz Smith 2020-01-28

The "gripping, romantic, and dazzlingly original" (Cosmopolitan) Arkady Renko book that started it all: the #1 bestseller *Gorky Park*, an espionage classic that begins the series, by Martin Cruz Smith, "the master of the international thriller" (The New York Times). It begins with a triple murder in a Moscow amusement center: three corpses found frozen in the snow, faces and

fingers missing. Chief homicide investigator Arkady Renko is brilliant, sensitive, honest, and cynical about everything except his profession. To identify the victims and uncover the truth, he must battle the KGB, FBI, and the New York City police as he pursues a rich, ruthless, and well-connected American fur dealer. Meanwhile, Renko is falling in love with a beautiful, headstrong dissident for whom he may risk everything. "Brilliant...there are enough enigmas within enigmas within enigmas to reel the mind" (The New Yorker) in this wonderfully textured, vivid look behind the Iron Curtain. "Once one gets going, one doesn't want to stop...The action is gritty, the plot complicated, and the overriding quality is intelligence" (The Washington Post). The first in a classic series, Gorky Park "reminds you just how satisfying a smoothly turned thriller can be" (The New York Times Book Review).

The Illustrated London News - 1855

Extending Russia - James Dobbins 2019-04-11
As the U.S. National Defense Strategy recognizes, the United States is currently locked in a great-power competition with Russia. This report seeks to define areas where the United States can compete to its own advantage. It examines Russian vulnerabilities and anxieties; analyzes potential policy options to exploit them; and assesses the associated benefits, costs, and risks, as well as the likelihood of successful implementation.

Management Studies in Crisis - Dennis Tourish 2019-07-18

Management research is criticised for poor research practices and not addressing important problems. Tourish proposes fundamental changes to rescue it from crisis. A must read for management and organisation scholars, practising managers, university administrators and policy makers within higher education.

Monthly Index of Russian Accessions - 1963

Corporate Governance in Russia - Daniel J. McCarthy 2004-01-01

Given the past decade of abuse of shareholder rights, corporate governance is essential for Russia's future. In this comprehensive volume,

an international group of contributors - academics, corporate executives, government officials, policymakers, specialists from nongovernmental organizations, and legal experts - examine the crucial role of corporate governance as well as the external institutions and forces that affect it. Offering coverage from numerous perspectives, the contributors explore external and institutional influences on corporate governance, its workings within corporations, and the relationships between boards of directors, managers, shareholders, and the government. Case studies of three major companies illustrate the challenges and opportunities involved in creating sound practices. The concluding section provides a summary of the current situation and discusses implications for the future of Russia's corporate governance. A valuable source of information, *Corporate Governance in Russia* is a must-read for business people, government officials, academic researchers, students, and all those interested in Russia and what the future holds. *Protest in Putin's Russia* - Mischa Gabowitsch 2016-12-27

The Russian protests, sparked by the 2011 Duma election, have been widely portrayed as a colourful but inconsequential middle-class rebellion, confined to Moscow and organized by an unpopular opposition. In this sweeping new account of the protests, Mischa Gabowitsch challenges these journalistic clichés, showing that they stem from wishful thinking and media bias rather than from accurate empirical analysis. Drawing on a rich body of material, he analyses the biggest wave of demonstrations since the end of the Soviet Union, situating them in the context of protest and social movements across Russia as a whole. He also explores the legacy of the protests in the new era after Ukraine's much larger Maidan protests, the crises in Crimea and the Donbass, and Putin's ultra-conservative turn. As the first full-length study of the Russian protests, this book will be of great value to students and scholars of Russia and to anyone interested in contemporary social movements and political protest.
