Unchained Mind - Ricardo G. Williams 2017-03-15

I took a three-year break from work to explore the topic of peace, love, and success. I spent the time analyzing my thoughts and the effects my thoughts had on my emotional state of mind. The things I found out were quite intriguing. I came to the realization that many of us are not living to our full potential. We live with a measured joy. We keep our happiness in check. Our smiles are met with a restriction from our breath, which makes it short-lived. We seldom breathe fully because our breath is interrupted by the depth of our thoughts. We never really let go fully. We are bound by layers of chains that have entangled our thinking chains from an uncertain future, chains of work, chains of relationships, chains of our finances, too many chains to mention. My time away from work gave me the opportunity to explore how to break the chains. I admit that even a broken chain is not permanently broken but can be easily reunited if old habits are not changed. My book focuses on the actions we can take to break chains and keep them broken. My book explores how our thoughts control our destiny. It teaches thought control and the importance of silence. It teaches how to overcome fear, anger, negative thoughts, stress, and hatred. You will learn how to nurture your emotions, embrace moments, and the importance of spiritual peace. I will teach you how to live in thankfulness, with compassion, while activating love.

Dear Black Girls - Shanice Nicole 2021-02-08

Dear Black Girls is a letter to all Black girls. Every day poet and educator Shanice Nicole is reminded of how special Black girls are and of how lucky she is to be one. Illustrations by Kezna Dalz support the book's message that no two Black girls are the same but they are all special--that to be a Black girl is a true gift. In this celebratory poem, Kezna and Shanice remind young readers that despite differences, they all deserve to be loved just the way they are.

Sissy Dreams: From Boyfriend to Girlfriend - Paul Zante

Receiving a text from Sasha, my girlfriend, at work was always risky. Especially when she wanted to know if her girlfriend was horny. A short and sweet (and filthy) story.

Clifford Owens - Clifford Owens 2012

Clifford Owens (born 1971) has long been aware that the history of African-American performance art remains largely unwritten. Rather than rectifying the oversight in scholarly terms, Owens has created an unprecedented artistic project, a compendium of African-American performance art that is both highly personal and thoroughly historical. This volume, Owens' first publication, includes written performance scores that Owens solicited from fellow African-American artists, which he then enacted in various locations at MoMA PS1. Clifford Owens: Anthology brings together the final artworks that resulted from the performances, and features essays by art historians Huey Copeland and John Bowles, as well as MoMA PS1 assistant curator Christopher Y. Lew. It also includes interviews with individuals who attended the live performances and a round-table discussion with selected Anthology artists moderated by art historian Kellie Jones.

The Forgotten Rohingya: Their Struggle for Human Rights in Burma - Habib Habib Siddiqui 2019

Imagine that you are living in a country that does not recognize you as a citizen in spite of the fact that your people have maintained a continuous existence there for several centuries. If that was not enough of a traumatic experience, consider that because of your racial, ethnic and religious identity other ethnic groups that are fighting the brutal military regime in your country for their self-determination and human rights consider you as "settlers" from a neighboring country. It must be your worst nightmare when you realize that half of your people (almost 2 million) have been forced to take asylum or refuge outside, and you may be the next in line to seek a way out of this living hell of xenophobia, discrimination, intolerance, racism and bigotry. The victims are the Rohingya people of Burma (Myanmar). Because of their religion, race, ethnicity, color and language they are the most discriminated and persecuted people in our planet. Some argue that they are also one of the most forgotten. The Myanmar military regime has denied their citizenship rights, claiming that they are illegal settlers from nearby Bangladesh who have moved into Arakan during the British occupation of Burma in the 19th century. Is there any truth to such allegations? Does the military junta apply the same litmus test against all ethnic and religious groups in matters of citizenship? What is the basis for a nation's claim to self-determination? Must a people wander in the wilderness for two millennia and suffer repeated persecution, humiliation and genocide to qualify? How about the rights of a minority community to survive with their culture and traditions intact? Do they need to be 'children' of a 'higher' God to qualify? What makes the children of a 'lesser' God to be forgotten and denied the same treatment and privilege that was granted hitherto to other nations? For much of its history, Burma has been ruled by military. As has once again been demonstrated recently they are brutal, savage and tyrannical. They have ignored people's verdict in the election and imprisoned leaders and workers of the democracy movement. They cannot be guarantors or protectors of human rights of anyone, let alone religious and ethnic minorities. Do you know that the Rohingyas - face cruel restriction on marriage and those married without government authorization are paraded naked on the streets? - Are restricted from traveling outside their villages? - Have no legal right to own land or property? - Are restricted from getting education, finding work, getting medical and health care? - Are subjected to land confiscation, forced eviction and destruction of homes, offices, schools, mosques, shops, etc., and face religious persecution on a daily basis? - Are victims of staged riots, forced starvation, arbitrary taxation, extortion, arrest, torture and extra-judicial killings? - Are forced to do slave labor for establishment of government infrastructure, new Buddhist settlements, pagodas and monasteries on evicted lands with the government intent of changing the landscape and demography of Arakan? - Are forced to convert to Buddhism &/or worship Buddha? Do you know that when it comes to the Rohingya people, the Burmese government doesn't uphold any of the Articles of the Universal Declaration of Human Rights? Nothing can excuse us from the criminal

silence that we practice in not voicing our concern about the plight of the Rohingya people. "The Forgotten Rohingya" makes a strong case for mobilizing concerned citizens of our globe to ease their sufferings. The author analyzes origin of the Rohingya people and offers ideas to solve their problem. The author also discusses problems of xenophobia and racism, which are so rampant in this country of many races, ethnicities and religions. He also analyzes the role of Daw Suu Kyi and failure of Burma's orange revolution.

Shirley - Susan Scarf Merrell 2014-06-12

NOW A MAJOR MOTION PICTURE STARRING ELIZABETH MOSS AND MICHAEL STUHLBARG! "Susan Scarf Merrell brilliantly weaves events from Shirley Jackson's life into a hypnotic story line"* in this darkly thrilling novel about the author of *The Haunting of Hill House* and *The Lottery*. Two imposing literary figures are at the heart of this captivating novel: celebrated author Shirley Jackson and her husband, Stanley Edgar Hyman, a literary critic and professor at Bennington College. When a young graduate student and his pregnant wife—Fred and Rose Nemser—move into Shirley and Stanley's home in the fall of 1964, they quickly fall under the magnetic spell of their brilliant and unconventional hosts. While Fred becomes preoccupied with his teaching schedule, Rose forms an unlikely, turbulent friendship with the troubled and unpredictable Shirley. Fascinated by the Hymans' volatile marriage and inexplicable drawn to the darkly enigmatic author, Rose nonetheless senses something amiss—something to do with nightly unanswered phone calls and inscrutable accounts of a long-missing female student. Chillingly atmospheric and evocative of Jackson's own classic stories, *Shirley* is an elegant thriller with one of America's greatest horror writers at its heart. *The Washington Post

Alex has plenty of experience investigating crimes involving missing kids. So when he senses something is wrong, he trusts his instincts. The only problem is, he's a newly deputized officer of the law. If he's wrong about Jess, he'll destroy his career before it gets off the ground. And with young lives on the line, there's a lot more at stake than his career.

Yvain - Chretien de Troyes 1987-09-10

The twelfth-century French poet Chrétien de Troyes is a major figure in European literature. His courtly romances fathered the Arthurian tradition and influenced countless other poets in England as well as on the continent. Yet because of the difficulty of capturing his swift-moving style in translation, English-speaking audiences are largely unfamiliar with the pleasures of reading his poems. Now, for the first time, an experienced translator of medieval verse who is himself a poet provides a translation of Chrétien's major poem, *Yvain*, in verse that fully and satisfyingly captures the movement, the sense, and the spirit of the Old French original. *Yvain* is a courtly romance with a moral tenor; it is ironic and sometimes bawdy; the poetry is crisp and vivid. In addition, the psychological and the socio-historical perceptions of the poem are of profound literary and historical importance, for it evokes the emotions and the values of a flourishing, vibrant medieval past.

Fire in Montana - Greg Martin 2006-05

In the summer of 1949 fifteen smokejumpers parachuted into a remote

Montana canyon called Mann Gulch. It started as a very small fire in rugged country but within two hours after landing, thirteen of these young men were caught in a raging inferno and were killed. They died bravely, together with their friends, and in the service of their country. Everyone was young and attractive, healthy and strong, enthusiastic and in love. They were bursting into the prime of their lives. There were no malcontents here. Everyone did their best but events overtook them. Until now the actual time line has never been connected to the people involved. Fire in Montana connects the lives of young smokejumpers who lived with a joy of life and expectations of shining futures, the forest rangers and volunteers who fought valiantly to rescue them, and their families, lovers, and friends who were forced to wait and pray, then face the devastating and heart wrenching loss.

De Wain Valentine: Works from the 1960s and 1970s - De Wain Valentine 2016-04-26

A key member of the Light and Space movement in Los Angeles during the 1960s and 1970s, De Wain Valentine is distinguished in particular by his in-depth understanding of synthetic materials and his ability to transform industrial products into artworks that investigate the seductive power of light, transparency, reflection, and surface. Published in conjunction with his critically lauded 2015 exhibition at David Zwirner, New York, *De Wain Valentine: Works from the 1960s and 1970s* focuses on the artist's pioneering achievements in polyester resin. A new scholarly text by Robin Clark on Valentine's production from this period details his personal history and his innovations with this material. Influenced by the vast California landscape, he was initially confronted with material limitations: at the time, polyester resins could not be poured in volumes exceeding fifty pounds. Not willing to accept this restriction, Valentine partnered with Hastings Plastics in 1966 to create an entirely new resin that could be cast in larger quantities. The resulting material, known as Valentine MasKast Resin, allowed the artist to dramatically increase the scale of his work. With its inherent ability to contain and reflect light, while maintaining a powerful luminous dimension, polyester resin would form the foundation of Valentine's practice. *De Wain Valentine: Works from the 1960s and 1970s* includes rich color plates of Valentine's "Columns," corporeally scaled sculptures cast in colored polyester resins that recede from a wider base up to a narrow tip; his "Circles," 6-foot discs that display not only the artist's mastery of geometrical form, but also highlight his command of color in sculpture; and a selection of the artist's smaller forms—rings, discs, and double pyramids. The catalogue also features extensive documentation of *Double Column Gray* (1975–1976), two massive, identical columns that each stand twelve feet tall. Originally executed for Baxter Travenol Laboratories' newly built corporate headquarters in Deerfield, Illinois, Valentine had conceived of two immense vertical columns standing side by side, but because of architectural modifications (the ceiling in the company's reception area was lowered at a late stage of construction), Valentine was forced to install the two slabs on their sides. Forty years after its initial conception, the exhibition at David Zwirner represented the first time this work was presented in its intended configuration.
