Relativistic Channeling - R. A. Carrigan 1987-09

Channeling, by its nature, involves a wide and disparate range of disciplines. Crystal preparation, material science, accelerator physics, sophisticated theoretical analysis and, of course, channeling itself all must work in concert in a research program. In spite of the gulfs separating some of these activities, researchers have drawn together over the last decade to carry out remarkable experiments in relativistic channeling and channeling radiation. Several informal workshops on high-energy channeling have been held over ~he years at Aarhus and Fermilab. However, with the vigorous progress in the field in the last several years it became clear that a more formal, comprehensive workshop was needed along with a book that covered the whole spectrum of the new developments, probed the future, and also laid out some of the foundations of the subject. This volume is the outcome of that process. The organization and preparation of both the volume and the workshop owe much to several outstanding scientific committees. The membership of these included J. Andersen (Aarhus), S. Baker

(Fermilab), B. Berman (G. Washington), G. Bologna (Torino), E. Bonderup (Aarhus), S. Datz (Oak Ridge), J. Forster (Chalk River), F. Fujimoto (Tokyo), W. Gibson (Albany), I. Mitchell (Chalk River), Y. Ohtsuki (Waseda), R. Pantell (Stanford), S. Picraux (Sandia), J. Remillieux (Lyon), A. Saenz (NRL), V. Schegelsky (Gatchina), C. Sun (Albany), H. tiberall (Catholic U.), E. Uggerhøj (CERN), and R. Wedell (Humboldt). Others from across the spectrum of scientific disciplines agreed to serve as session chairmen.

Influenced by slasher films, pro-wrestling, punk rock and heavy metal, her quirky-yet-delicious comfort foods are a refreshing take on vegan eating with award-winning flavors. Along the way, her off-color humor, irreverent rants and density of pop-culture references will make you laugh out loud. Others were born to ride. I was born to put mashed potatoes on pizza." Bake and Destroy was named one of the most anticipated cookbooks of the year by VegNews.

Creative Business Education - Philip Powell 2022-09-28

This volume critically analyses the conceptual contours of pedagogical transformations in the field of creative business education. It calls for an integrated and ethnographic approach to understand, to analyse and to innovate creative curricula that is different from traditional business and management educations and its compliant culture. The book argues for a pluriversal vision based on social intelligence, critical thinking, inclusivity and creativity resulting in a holistic pedagogy that understands the social needs of people and of the planet. The critical reflections on everyday realities of life is central to this intercultural pedagogic approach to understanding and explaining different forms of contemporary crisis. The book brings together interdisciplinary academic practitioners and their praxis with different philosophical orientations within a single ethnographic and theoretical narrative to reclaim global citizenship rights in the age of artificial intelligence, democratic deficit,

hyperreality and alienation. In this way, the volume breaks away from the narrow silo of disciplinary boundaries to outline the pedagogical praxis of creative and critical business education that challenges existing knowledge, power and institutions while offering alternative pedagogic approaches to learning, teaching and research.

Pre-Owned Clothing Business Startup - Marian Robinson 2020-05-10

I bet you don't even know the goldmine that's in your closet. My grandmother had the best fashion sense for her era. She was always seen dressed to the nines, pearls in tow, and heels galore. She would never leave the house without her trusty shoulder-pinned sweater. She kept

every part of her appearance in check as she visited the salon with a weekly, standing appointment. Lipstick was a must. I inherited her fashionista trait. My Gran, as I called her, was a fashionista to the max. When she passed away, I found myself inheriting her vast walk-in closet collection of savvy vintage clothing. I wasn't quite sure what to do with all of it. I kept the pieces that meant the most to me and began to sell the rest. To my surprise, the demand for vintage clothing in great condition, or renewed, upcycled pieces, is immense, widespread, and appeals to men and women of all ages. My business was born - and it thrived! In my book, I will show you exactly how to go about starting and running your own pre-loved clothing business. You gain not only the monetary benefits of selling a high-demand product, but you will also be saving the world's landfills from unnecessary waste. In 2012 alone, an estimated 14.3 million tons of textiles were discarded to the landfill as reported by the Environmental Protection Agency-an alarming number for something seemingly harmless as discarding old clothes. Why toss clothing that has good life still left in it? There are so many ways you can succeed with your secondhand clothing shop, but the best thing you can do (and the most valuable experience you can get) is to go out and actually do it! Experience is always the best teacher. Until you get out and start selling, you will never be able to grasp everything fully that running a used clothing shop entails. Of course, the most important thing you can do is to be prepared for it, just so you know you're setting yourself up for success. You will have the tools you need in this book to start making good money by selling old clothes. You will learn: About crafting a plan for your business Finding who your customer will be Where to place your brick-and-mortar store, should you go that route Creating a solid marketing plan Budgeting and costs How to conduct market research Building your inventory and where to source products Upcycled hacks to increase the life of your products Advice for online marketplaces such as ThredUP, Poshmark, eBay, Depop, Facebook Marketplace, Tradesy, Vinted, Instagram, Craigslist, Mercari, LePrix, The Real Real, Grailed, VarageSale, Etsy, Shopify, and Amazon FBA How to set up a physical, brick and mortar store Branding and logo design Inventory management

Sellout - Dan Ozzi 2021

"From celebrated music writer Dan Ozzi comes a comprehensive chronicle of the punk music scene's evolution from the early nineties to the mid-aughts, following eleven bands as they dissolved, "sold out," and rose to surprise stardom. From its inception, punk music has been identified by two factors: its proximity to "authenticity," and its reliance on an antiestablishment ethos. Yet, in the mid- to late '90s, major record labels sought to capitalize on punk's rebellious undertones, leading to a schism in the scene: to accept the cash flow of the majors, or stick to indie cred? Sellout chronicles the evolution of the punk scene during this era, focusing on prominent bands as they experienced the last "gold rush" of the music industry. Within it, music writer Dan Ozzi follows the rise of successful bands like Green Day and Jimmy Eat World, as well as the implosion of groups like Jawbreaker and At the Drive-In, who buckled under the pressure of their striving labels. Featuring original interviews and personal stories from members of eleven of modern punk's most (in)famous bands, Sellout is the history of the evolution of the music industry, and a punk rock lover's guide to the chaotic darlings of the post-grunge era.
