International Sex Trafficking of Women & Children - Leonard Territo 2010

Worldwide, an estimated 2 million women are forcefully trafficked for the purposes of sexual abuse each year. Up to 50,000 women and children are trafficked into the U.S. annually. As many as 300,000 children are exploited annually by the sex industry within the U.S. alone. According to a recent report issued by the United States Congress, sex trafficking of women and children has been identified as the 3rd largest source of illicit revenue for organized crime, topped only by drug running and firearms dealing. Sex trafficking of women and children has reached epidemic proportions. The problem is growing and action must be taken. This important book, filled with insights and information from more than 30 top experts on trafficking, gives you the information you need to comprehend the scope of the crisis, the education you need to understand the methods of operation used in its execution and the intelligence you need to recognize and combat it. *International Sex Trafficking of Women and Children-Understanding the Global Epidemic*, is specifically designed for: Educators involved with increasing awareness and understanding of this crisis through academic courses. Law enforcement professionals, including trainers, administrators, investigators and both veteran and early career street officers who may encounter both trafficking criminals and victims. Government officials responsible for drafting and supporting legislation designed to combat this crime. Those compelled to take action to save and protect women and children worldwide from exploitation. Book jacket.

[Understanding the Signs of Sex Trafficking](#) - Madison Pimentel 2018

The purpose of this project was to implement a training on the signs of sex trafficking among children, women, and men and how to appropriately conduct assessments with the victims of sex trafficking. The training included how to recognize clients who have been victims of

sexual exploitation and how helping professionals (e.g., social workers, counselors, and therapists) can engage with clients correctly and cautiously. The guest speaker who conducted this training educated those who are working directly with this population to obtain tools and knowledge in order to feel comfortable in providing services to the victims of sex trafficking. The keynote speaker really brought awareness into the graduate seminar because many people in attendance had little knowledge about the background stories of sex trafficking victims or about how to conduct an assessment of a victim who is suffering from PTSD due to sex trafficking. The next steps in advocating for sex trafficked victims and bringing attention to the sex trafficking industry is to have agencies and schools be aware of the signs of sex trafficking. Educating social workers, counselors, and other social service providers on this topic is crucial to prepare them to work effectively with victims of sex trafficking.

Sex Trafficking of Children Online - Beatriz Susana Uitts 2022-07-20

This book argues that forms of online child sexual exploitation equate to slavery-like practices under international law and that States have a responsibility to punish offenders as such, based on a careful review of relevant legal instruments and standards.

Human Trafficking - Christina Fisanick 2010

It is estimated that human trafficking generates many billions of dollars of profit per year, second only to drug trafficking as the most profitable form of transnational crime. This book explores issues related to human trafficking, including what factors contribute to human trafficking, if internet sites used for sex trafficking should be shut down, and if globalization promotes human trafficking. It contains a collection of writings by foremost authorities in the field, representing a broad range of views on the topics discussed. Each chapter presents an important question about the subject such as Can global cooperation reduce human trafficking? and the opinions that follow are grouped into yes and no categories. By evaluating contrasting opinions, readers can attain an objective knowledge of the subject. Fact boxes are included to summarize important information for researchers.

Combating Human Trafficking - Michael J. Palmiotto 2014-12-01

A centuries-old crime, human trafficking occurs not only in undeveloped countries, but also in some surprising locations. Right here in the United States, individuals are recruited, transported, and held by unlawful means—either through deception or under threat of violence. Approaching the topic from a law enforcement perspective, *Combating Human Trafficking: A Multidisciplinary Approach* provides an unprecedented look at the investigation of this phenomenon in America. Beginning with historical, sociological, and psychological perspectives, the book discusses how authorities can best conduct an investigation of trafficking. It reviews federal agencies responsible for confronting the problem, examines relevant laws and legal trends, and discusses law enforcement awareness and training. Individual chapters written by experts in law enforcement explore a host of topics, including: Border issues between Mexico and the U.S., including the trafficking of people, drugs, and firearms The role of the Internet in human trafficking Child victim recruitment into sex trafficking How sexually oriented businesses such as escort services, hostess bars, and massage parlors can be fronts for sex trafficking The prevalence of human trafficking among street gangs Forced labor aspects, especially with respect to illegal immigrants How victims are chosen Theoretical, practical, and ethical considerations in providing effective services to victims An ideal resource for police investigators, police training, and community outreach organizations, the book is also suitable as a college text for criminal justice courses. It is hoped that the awareness created through this text will provide the knowledge and tools needed to help to end this form of modern-day slavery.

Handbook of Sex Trafficking - Lenore Walker 2018-12-24

This definitive reference assembles the current knowledge base on the scope and phenomena of sex trafficking as well as best practices for treatment of its survivors. A global feminist framework reflects a profound understanding of the entrenched social inequities and ongoing world events that fuel trafficking, including in its lesser-known forms. Empirically sound insights shed salient light on who buyers and

traffickers are, why some survivors become victimizers, and the experiences of victim subpopulations (men, boys, refugees, sexual minorities), as well as emerging trends in prevention and protection, resilience and rehabilitation. These powerful dispatches also challenge readers to consider complex questions found at the intersections of gender, race, socioeconomic status, and politics. A sampling of topics in the Handbook: · An organizational systems view of sex trafficking. · Vulnerability factors when women and girls are trafficked. · Men, boys, and LGBTQ: invisible victims of human trafficking. · Organized crime, gangs, and trafficking. · Human trafficking prevention efforts for kids (NEST). · Treating victims of human trafficking: core therapeutic tasks. · From Trafficked to Safe House (C-SAFE). The Handbook of Sex Trafficking will interest a wide professional audience, particularly mental health workers, legal professionals, and researchers in these and related fields. Public health and law enforcement professionals will also find it an important resource.

A Free Me - Brodrick Nettles 2021-04-19

Taylor and her mother, Ms. Lindsey, have a great relationship. Taylor, being the bubbly, young child she is, does not hesitate to ask her mom whatever questions come to her mind. Understanding the meaning of the word 'free' prompts Taylor to resist uncomfortable advances brought on by a trusted babysitter. This book is meant to stress the importance of open parent-child communications, as well as some of the signs of human and sex trafficking to make children aware of.

Social Work Practice with Survivors of Sex Trafficking and Commercial Sexual Exploitation - Andrea J. Nichols 2018-04-03

As awareness and identification of sex trafficking and exploitation have grown, so has the need for improved social work responses. In this volume, expert practitioners, survivors, and researchers model the best practices for working with this population, using case examples and illustrative guides. Chapters cover the common challenges of working with trafficked and exploited people and how to overcome them, including topics like runaway youth, trauma-bonds, system-level challenges, and resource scarcity. Intended as a teaching tool for

students or a supplementary manual for organizations, this book emphasizes interventions and treatments, working with specific populations, programmatic design recommendations, preventative work, and outreach interventions. Researchers, students, and practitioners will find a comprehensive guide to the emerging field of practice with sex trafficking and exploitation survivors.

Christian Men Speak Up - Denise Strothers 2021-05-11

Our communities are in trouble. Our children and grandchildren are not safe from the predators the enemy uses to destroy our families. We can't be so busy doing church that we do not see what is happening right before our eyes. They are hidden in plain sight. They are in our churches, schools, grocery stores, malls, nail salons, sporting events, and even our families. We must make our 8, 9, 10 year-olds aware of the danger lurking on social media sites since many grown men seek to sleep with underage children. Christian Men Speak Up informs you of the root causes of sex trafficking and the steps your church or faith-based organization can take to make a difference in your community today. *Confronting Commercial Sexual Exploitation and Sex Trafficking of Minors in the United States* - National Research Council 2014-06-20 Commercial sexual exploitation and sex trafficking of minors in the United States are frequently overlooked, misunderstood, and unaddressed domestic problems. In the past decade, they have received increasing attention from advocates, the media, academics, and policy makers. However, much of this attention has focused internationally. This international focus has overshadowed the reality that commercial sexual exploitation and sex trafficking of minors also occur every day within the United States. Commercial sexual exploitation and sex trafficking of minors not only are illegal activities, but also result in immediate and long-term physical, mental, and emotional harm to victims and survivors. A nation that is unaware of these problems or disengaged from solving them unwittingly contributes to the ongoing abuse of minors and all but ensures that these crimes will remain marginalized and misunderstood. The 2013 Institute of Medicine and the National Research Council report *Confronting Commercial Sexual*

Exploitation and Sex Trafficking of Minors in the United States increases awareness and understanding of the crucial problem of commercial sexual exploitation and sex trafficking of minors in the United States. By examining emerging strategies for preventing and identifying these crimes, for assisting and supporting victims and survivors, and for addressing exploiters and traffickers, that report offers a path forward through recommendations designed to increase awareness and understanding and to support efforts to prevent, identify, and respond to these crimes. *Confronting Commercial Sexual Exploitation and Sex Trafficking of Minors in the United States: A Guide for Providers of Victim and Support Services* offers a more concise and focused perspective on the problem and emerging solutions for providers of victim and support services for children and adolescents. These service providers include policy makers, leaders, practitioners, organizations, and programs at the local, state, and federal levels. This guide will be a valuable resource for them, and for child welfare and child protective services, other agencies and programs within the state and federal governments (e.g., the U.S. Department of Justice's Office for Victims of Crime), and nongovernmental organizations.

Human Trafficking - John Winterdyk 2011-12-05

Human trafficking is a crime that undermines fundamental human rights and a broader sense of global order. It is an atrocity that transcends borders with some regions known as exporters of trafficking victims and others recognized as destination countries. Edited by three global experts and composed of the work of an esteemed panel of contributors, *Beautiful Justice* - Brooke Axtell 2019-04-02

A story of healing and a guide to seeking justice after sexual abuse from Brooke Axtell, one of the foremost survivor experts on sexual assault, domestic violence, and human trafficking. When Brooke Axtell was seven years old, her nanny subjected her to sex trafficking. Today, she is a champion and advocate for women around the world who have experienced sexual violence and trauma. *Beautiful Justice* shares Brooke's own gripping story, both the trauma of sex trafficking and also her pathway through healing, moving on, and reclaiming power. Along

the way, she imparts warm wisdom for others who have experienced similar violence, providing lessons from her own life and from the thousands of women, advocates, and lawmakers she's spoken with. Relying on her own experiences and a keen awareness of public policy, she provides a clear-eyed awareness of the ways that our culture and government work against women experiencing violence around the world. Inspiring and powerfully redemptive, Brooke encourages readers to take part in a creative resistance as a path to justice.

In Modern Bondage: Sex Trafficking in the Americas - David Guinn 2021-10-25

In *Modern Bondage: Sex Trafficking In The Americas* presents the result of The International Human Rights Law Institute's recent trailblazing study. Based upon individual country reports from Belize, Costa Rica, Dominican Republic, El Salvador, Guatemala, Honduras, Nicaragua & Panama, the book also includes a regional overview highlighting the interplay and interrelationships between trafficking within an individual country and the larger Central American region. It identifies both existing problems in current efforts to confront trafficking and highlights the most successful efforts or best practices adopted by some of the countries. The report also includes recommendations on how to address the problem of sex trafficking. Published under the Transnational Publishers imprint.

Human Trafficking - Lita Sorensen 2019-12-15

According to UNICEF, human trafficking generates a staggering 32 billion dollars in profits each year. Human trafficking takes place all around the world, affecting nearly every country, rich and poor. Women, girls, and migrants are extremely vulnerable to traffickers, who coerce them into sexual exploitation and forced labor. How can the international community allow such terrible criminal networks to flourish? This informative volume offers a diverse array of case studies, first-person accounts, and analyses from experts in the field to provide a full picture of what has been called a pandemic of the twenty-first century.

[The Illegal Business of Human Trafficking](#) - Maria João Guia 2014-12-26

This book offers a brand-new perspective on human trafficking as an

illegal business. It also proposes a new form of networked action: combining the perspectives of academic researchers with those of highly skilled professionals involved in policymaking in this area, this book is a unique contribution and a first step toward a networking paradigm, promoting collaboration in preventing and combating human trafficking crime, and in raising awareness of this ongoing problem. This book was born within the CINETS group - Crimmigration Control International Net of Studies (www.crimmigrationcontrol.com), which was established in 2011 with the aim of bringing together expertise from different fields, professions, universities and countries. It aims to form a new paradigm for sharing knowledge and advancing research on topics related to human trafficking, crimmigration control, immigration and crime, immigrant detention and all types of violence that may affect victims of crimes, helping to create a fairer society.

Human Trafficking - John H. Coverdale, M.D. 2020-06-11

This is an educational and clinical resource for health care practitioners from any discipline who may encounter sex- or labor-trafficked persons. The book provides the background knowledge and frontline clinical strategies providers need to identify, relate to, and treat these psychologically wounded, yet resilient patients.

Confronting Commercial Sexual Exploitation and Sex Trafficking of Minors in the United States - National Research Council 2013-11-12

Every day in the United States, children and adolescents are victims of commercial sexual exploitation and sex trafficking. Despite the serious and long-term consequences for victims as well as their families, communities, and society, efforts to prevent, identify, and respond to these crimes are largely under supported, inefficient, uncoordinated, and unevaluated. *Confronting Commercial Sexual Exploitation and Sex Trafficking of Minors in the United States* examines commercial sexual exploitation and sex trafficking of U.S. citizens and lawful permanent residents of the United States under age 18. According to this report, efforts to prevent, identify, and respond to these crimes require better collaborative approaches that build upon the capabilities of people and

entities from a range of sectors. In addition, such efforts need to confront demand and the individuals who commit and benefit from these crimes. The report recommends increased awareness and understanding, strengthening of the law's response, strengthening of research to advance understanding and to support the development of prevention and intervention strategies, support for multi-sector and interagency collaboration, and creation of a digital information-sharing platform. A nation that is unaware of these problems or disengaged from solutions unwittingly contributes to the ongoing abuse of minors. If acted upon in a coordinated and comprehensive manner, the recommendations of *Confronting Commercial Sexual Exploitation and Sex Trafficking of Minors in the United States* can help advance and strengthen the nation's emerging efforts to prevent, identify, and respond to commercial sexual exploitation and sex trafficking of minors in the United States.

Sex Trafficking, Human Rights, and Social Justice - Tiantian Zheng
2010-09-13

The recognition of women's human rights to migrate and work as sex workers is disregarded and dismissed by anti-trafficking discourses of rescue in the latest United Nation's definition of trafficking. This volume explores the life experiences, agency, and human rights of trafficked women in order to shed light on the complicated processes in which anti-trafficking, human rights and social justice are intersected. In these articles, the authors critically analyze not only the conflation of trafficking with sex work in international and national discourses and its effects on migrant women, but also the global anti-trafficking policy and the root causes for the undocumented migration and employment. Featuring case studies on eleven countries including the US, Iran,

Denmark, Paris, Hong Kong, and south east Asia and offering perspectives from transnational migrant population, the contributors rearticulate the trafficking discourses away from the state control of immigration and the global policing of borders, and reassert the social justice and the needs, agency, and human rights of migrant and working communities. This book will be of interest to students and scholars of politics, gender studies, human rights, migration, sociology and anthropology.

Human Trafficking in Ohio - Jeremy M. Wilson 2007

Human trafficking has garnered a significant and growing amount of attention from the U.S. government since the 1990s, culminating in the passage of the federal Trafficking Victims Protection Act in 2000. There is also a growing body of research on human trafficking, but most of it has focused on trying to show that human trafficking is a problem. Wilson and Dalton explore the extent and characteristics of concrete cases of human trafficking in Columbus and Toledo, Ohio, as well as the awareness of and response to the problem by the justice systems and social service provider communities in the two cities. The authors summarize their content analysis of newspaper accounts as well as key respondent interviews that they conducted with criminal justice officials and social service providers in each site. These identified several cases of juvenile sex trafficking and forced prostitution in Toledo, as well as a smaller trafficking market centered on the forced labor of noncitizens in Columbus. Wilson and Dalton compare the two cities' considerably different responses to human trafficking, and conclude with suggestions on how to raise awareness about human trafficking and improve the responses of the criminal justice system, the juvenile justice system, and social services to the problem.
