Monster Talk - Michael Jarmer 2012-05-16

Two hundred and sixty-four years after the first awakening, the family line stops momentarily, perhaps forever, in the body of a child. Victor is a second-grader growing up with a very unique family history: he is a direct descendant of the monster created by his namesake, Victor Frankenstein. Understandably proud of this distinction, his effort to share this remarkable fact with his classmates and teachers backfires, and he becomes a target on the playground. He is not without allies. With the help of his grandmother, Elizabeth, and his best friend, Michelle, he learns the origin of his family's strange history straight from Mary Shelley's Frankenstein. He learns how that story continued with the surprising journey of the monster and his monster-bride to America. And finally, he learns about the end of making monsters on earth. But there are elements in this history about which even those closest to it are unaware. Wonders abound and dangers lurk

for Victor and his loved ones in unexpected places. *Monster Talk* is a poignant tale about the power of reading, the complexity of love, the wonder and terror of growing up, and the moral ambiguity of the species, human and monster both.

The Lady's Handbook For Her Mysterious Illness - Sarah Ramey 2020-03-19

'A visceral, scathing, erudite read that digs deep into how modern medicine continues to fail women and what can be done about it' Booklist
The darkly funny memoir of Sarah Ramey's years-long battle with a mysterious illness that doctors thought was all in her head - but wasn't. A revelation and an inspiration for millions of women whose legitimate health complaints are ignored. In her harrowing, defiant and unforgettable memoir, Sarah Ramey recounts the decade-long saga of how a seemingly minor illness in her senior year of college turned into a prolonged and elusive condition that destroyed her health but that doctors couldn't diagnose or

treat. Worse, as they failed to cure her, they hinted that her devastating symptoms were psychological. The Lady's Handbook for Her Mysterious Illness is a memoir with a mission: to help the millions of (mostly) women who suffer from unnamed or misunderstood conditions-- autoimmune illnesses, fibromyalgia and chronic fatigue syndrome, chronic Lyme disease, chronic pain and many more. Ramey's pursuit of a diagnosis and cure for her own mysterious illness becomes a page-turning medical mystery that reveals a new understanding of today's chronic illnesses as ecological in nature, driven by modern changes to the basic foundations of health, from the quality of our sleep, diet and social connections to the state of our microbiomes. Her book will open eyes, change lives and, ultimately, change medicine. 'Ramey's uncanny grit and fortitude will deeply inspire the multitudes facing similar issues' Publishers Weekly 'This is a book for anyone who has ever asked a question that didn't have an immediate

or easy answer, anyone who has worried about themselves or a loved one who isn't getting better - despite following all the experts' advice - and anyone interested in their own health, public health or medicine; in other words, it's a book with something resonant and useful for all of us' Chelsea Clinton

Basic Group Processes - P. B. Paulus
2012-12-06

Research on groups has been a major focus of concern among psychologists and sociologists for many years. The study of groups certainly deserves a central role in these disciplines since much of our behavior occurs in groups and many important social phenomena involve groups. Issues such as leadership, conformity, group decision-making, group task performance, and coalition formation have had a long history of research. However, recently a number of other areas of research have blossomed that provide interesting new perspectives on group processes (e.g., social impact). In addition, topics of

research have developed outside the commonly accepted domain of group dynamics (e.g., self-disclosure) which seem to be concerned with rather basic group processes. Basic Group Processes was designed to bring together in one volume a representative sample of the broad range of work currently being done in the area of groups. Some of the chapters provide a review of the literature while others focus more specifically on current programs of research. All, however, provide new insights into basic group processes and a number provide broad integrative schemes. All of the authors were asked to emphasize theoretical issues rather than a detailed presentation of research. Basic Group Processes suggests that research on groups is a lively enterprise and forging interesting new theoretical and empirical directions.

Farangi Girl - Ashley Dartnell 2011-06-09

Ashley Dartnell's mother was a glamorous American, her father a dashing Englishman, each trying to slough off their past and upgrade to a more romantic and exotic present in Iran. As the story starts, Ashley is eight years old and living in Tehran in the 1960s: the Shah was in power, life for Westerners was rich and privileged. But somehow it didn't all add up to a fairytale. There were bankruptcies and prisons, betrayals and lovers, lies and evasions. And throughout it all, Ashley's passionate and strong-willed mother, Genie. Stories of mothers and daughters are some of the most compelling in contemporary memoir, from *The Liar's Club* and *The Glass Castle* to *Don't Let's Go to the Dogs Tonight* and *Bad Blood*. *Farangi Girl* deserves to be in their company. It's an honest and endlessly recognisable portrait of a mother by a daughter who loved her (and was loved in return). Against

this extraordinary background, Ashley's journey into adulthood was more helter-skelter than most and this portrait of a bewitching and endlessly inventive mother is surprising and deeply moving.

He-Said-She-Said - Marjorie Harness Goodwin 1990

" . . . carefully researched and clearly written . . .

Goodwin makes a major step in redefining the enterprise of studying language use in context and across contexts." —American Ethnologist "I recommend the book highly." —John Haviland, American Anthropologist "Goodwin's thoughtful interpretation of these examples [of children's conversation] is replete with wise insights, challenging critical darts, and well-referenced links to a wide literature." —Child Development Abstracts & Bibliography "Intellectual breadth shines through this book." —Barrie Thorne "By combining Goffman's approach to ethnography with in-depth conversational analysis, Goodwin provides important and novel insights into the interactive processes through which culture is created and maintained. The results should be of interest to any social scientist." —John J. Gumperz " . . . required reading for linguists, anthropologists, sociologists, and educators." —Language and Acquisition "This book is clearly a significant addition to the study of the range and power of children's voices at play . . . —Harvard Educational Review "He-Said-She-Said provides fascinating insight into the importance of social context in the organization of gender." —Signs "A rare and wonderful combination of ethnography and conversational analysis. Goodwin gives both a sensitive account of African American adolescent street talk and a careful approach to the study of language in use." —Ray McDermott "Marjorie Harness Goodwin's study of children's talk provides the best and most comprehensive analysis of gender differences in interaction, situated in the broader context of children's social organization. She didn't set up experiments; she didn't just take field notes. She hung around with the children in her neighborhood until they trusted her, then tape-recorded their natural conversations as they played together. This is Goodwin's long-awaited compilation of years of painstaking analysis of the transcripts of those tapes. It is not only one of the best sources, if not the best source, for anyone interested in how

boys and girls use language in their daily lives—indeed, to constitute their daily lives; it is also a model ethnographic study of language in its natural setting." —Deborah Tannen, author of *You Just Don't Understand: Women and Men in Conversation* This groundbreaking study describes in detail the complexities of children's communication. By integrating the analysis of conversation with ethnography, Marjorie Harness Goodwin systematically and empirically reveals how a group of urban black children constitute their social world through talk.

Ibrahim the Mad and Other Plays - Talat S. Halman 2008-06-09

Since the middle of the twentieth century, Turkish playwriting has been notable for its verve and versatility. areas. It also includes several plays set outside Turkey. The two volumes together will feature seventeen plays by major playwrights published or produced from the late 1940s to the present day, with volume 1, "Ibrahim the Mad" and Other Plays, encompassing plays from the 1940s through the 1960s, and volume 2, "I, Anatolia" and Other Plays, including plays from the 1970s through the 1990s. They grant to English readers the pleasure of riveting drama in translations that are colloquial as well as faithful. For producers, directors, and actors they provide a wealth of fresh, new material, with characters ranging from Ottoman sultans to a Soviet cosmonaut, from the Byzantine Empress Theodora to a fisherman's wife, from residents of an Istanbul neighborhood to King Midas, from Montezuma to a Turkish cabinet minister.

Life's Twists - Carol Fike 2014-12-18

This is a book about Page and Blake, and it takes place in Manhattan, New York. The couple plans a December eighteenth wedding as Page is

already expecting, and the young couple wants to be married before the arrival of their child. The two of them buy a house because Blake is a devoted husband and father, and he wants to do the best he can for his family. They also purchase a beach house, which in Page's mind is the best and worst investment right until the very end when everything ends in tragedy. Fortunately for Page, she finds another man, Luke, and the two of them fall in love. Who knows what life will bring. It sure has a lot of twists.

Girls who Wore Black - Ronna Johnson 2002
"Girls Who Wore Black recovers neglected women writers who deserve more attention for their writing and for their historical role in the mid-century arts scene. This collection of essays reopens and revises the Beat canon, Beat history, and Beat poetics; it is an important contribution to literary criticism and history."

Johnson and Nancy Grace have done an invaluable service for students of American literature: their collection begins with an essential essay about the three generations of Beat women and then provides fine contributions by critics Anthony Libby, Linda Russo, Maria Damon, Tim Hunt, and others. The value of this book is so clear one must wonder why it wasn't available much earlier."-Linda Wagner-Martin, University of North Carolina, Chapel Hill What do we know about the women who played an important role in creating the literature of the Beat Generation? Until recently, very little. Studies of the movement have effaced or excluded women writers, such as Elise Cowen, Joyce Johnson, Joanne Kyger, Hettie Jones, and Diane Di Prima, each one a significant figure of the postwar Beat communities. Equally free-thinking and innovative as the founding generation of men, women writers, fluent in Beat, hippie, and women's movement idioms, partook of and bridged two important

countercultures of the American mid-century. Persistently foregrounding female experiences in the cold war 1950s and in the counterculture 1960s and in every decade up to the millennium, women writing Beat have brought nonconformity, skepticism, and gender dissent to postmodern culture and literary production in the United States and beyond. Ronna C. Johnson is a lecturer in the departments of English and American Studies at Tufts University. Nancy M. Grace is an associate professor in the department of English and director of the Program in Writing at The College of Wooster in Ohio. She is the author of *The Feminized Male Character in Twentieth-Century Literature*.

A Girl's Story - Annie Ernaux 2020-04-07
WINNER OF THE 2022 NOBEL PRIZE IN LITERATURE Another masterpiece of remembering from Annie Ernaux, the Man Booker International Prize–shortlisted author of *The Years*. In *A Girl's Story*, Annie Ernaux revisits the season 50 years earlier when she found herself overpowered by another's will and desire. In the summer of 1958, 18-year-old Ernaux submits her will to a man's, and then he moves on, leaving her without a "master," bereft. Now, 50 years later, she realizes she can obliterate the intervening years and return to consider this young woman that she wanted to forget completely. And to discover that here, submerged in shame, humiliation, and betrayal, but also in self-discovery and self-reliance, lies the origin of her writing life.
