#### **Dating Guide for Men** - Anthony Ekanem 2016-12-31

What do women want? This is a question that has baffled men since the beginning of time and men are no closer to understanding women than we were when we huddled around an open fire every night and lived in caves. Why are women so hard to decipher? Simply because we try to understand them from a man's point of view without understanding the basic premise that women think differently from men. In fact, women have completely different wiring from that of men and men will never be able to understand them on a logical level, which is how men approach almost everything. Think about it. What do we do when we get together for some fun? We definitely aren't sharing feelings. No,

we drink, talk about sports and other apparently innocuous subjects which in fact are a hidden form of competition. You know, the mine's bigger than yours syndrome. However, for guys this is absolutely natural. On the other hand, when women get together they share their feelings; they watch chick flicks and talk about the latest diet or article in town. You see, women are mainly driven by emotion. Just as we need logic and structure in our lives, they need emotion. Men thrive on competition, adrenaline, power, domination, while women couldn't really care less about them. The idea is that if you really want to be able to date any girl, no matter how attractive she is, you need to know what drives her, what her underlying motives are. Now, don't take this the wrong way because

many women have no conscious idea of what drives them or what their motives are; it's just the way nature has wired them. However, just as you need to know what drives her, you need to stop worrying about it making sense. It is never going to make sense to us because we see things differently. But, if you know what her buttons are then you will be able to play sweet music that she won't be able to resist. Remember knowledge is power and you like power, don't you? Well, learn what drives women and then you will have it in spades.

**How to Date a Woman** - Bruce Glover

2020-10-10

☐☐ You don't know HOW TO DATE A WOMAN, but would you like to learn? Do you want a better dating life. . . but need a little practical, how-to help? If so then keep reading. ☐☐ Dating isn't what it used to be. In the old days, dating was a straightforward process. Man likes a

woman. A woman likes man. They court, they date, and if things worked out, they marry. Today's love scene however, is something else entirely, thanks in large part to how heavily reliant all of us have become on technology. Specifically, our mobile phones. The dating scene today is dominated by text messaging, status updates, social media updates, online flirting, sexting, and the list goes on. These days, the first date usually takes place only after you've been interacting for some time over texts. Which means a date is only likely to happen if your texting sessions go well. It's no secret that men and women each think the opposite sex is hard to understand. You never know what you're going to say or do that's suddenly going to put the other person off or cause them to lose interest. It is even harder when you can't exactly see their reaction through the screen of your phone when you text them. Keeping and holding onto the man you want over text messages can seem like a bewildering challenge and it's easy

superficial criteria to judge potential partners by. As a grown woman, you should be taking dating to the next level. Unfortunately, women are socialized to act a certain way when dating and seeking a romantic match. We have to be soft, we have to be feminine. In fact, most guides and magazines teach you to be passive, to turn yourself into a Damsel in Distress and wait for a fabulous guy to rescue you. It's time to get in charge of your dating life. You should know what you want, you should know how to assert yourself and how to make the most of the dating game. Most women experience insecurities and these can have a profound impact on romantic encounters. The media, magazines, and even influencers work full-time to instill such insecurities and commercialize just about every aspect of a woman's life. This is one of the reasons why 82% of married women question the love of their partner! That's a massive number showing an insecurity pandemic... a pandemic that needs to end right now. Dating

**You Don't Need A Man!** - Lana Otoya

2019-09-24

Are You Single? Good! Professional dating coach and dating advice blogger, Lana Otoya knows that you don't need a man. Your life is perfectly

fine just the way it is. You have good friends. You have a good job. You're successful. And most importantly... You don't want a relationship just for the sake of having one. As a modern woman, you need a relationship for more than just the ability to get a credit card. You need a strong man who knows how to take the lead. To have someone take care of you rather than you always taking care of everyone else. But finding a man isn't really a problem for you. There are a lot of men who want to date you. Lots of messages from men on Tinder or Match.com. Weird men talking to you at the bar or hitting on you at the gym. They're everywhere! The problem isn't that you have trouble finding somebody... It's.. That you're having trouble finding somebody good. Somebody who is worth your time. You want a man who is serious. A good communicator. A man who asks you out on a date, arranges the time and place and actually meets you there. And if you can't find him, who cares! You've got a good life going anyway...

...but it would be nice... So what's so hard about finding him? Well.... Swiping on the apps is frustrating and disappointing. It takes up too much time and is emotionally draining. You feel your eyes drooping after reading bad profile after bad profile. Shallow texting conversations take all the humanity and romance out of dating. You've come to expect the last-minute date cancellations and ghosting but when it happens, it still hurts. You've pretty much given up and left your love life to destiny or chance. If this sounds familiar, you'll be happy to know that - I've been in the professional dating scene for years and it has taught me something very interesting. There really is an easier way. A faster way to get out of the dating scene and into a healthy relationship with a high-quality man. The method takes a little work, it's not magic wand, but with a minimal effort, you'll find the man who checks off all your boxes. In my book you will discover: Science based facts that will make online dating easier and more fun Why

staying single is the best thing to do for your romantic relationships. How to read a man's personality so you can divorce-proof your future marriage. The final answer to the question: "Am I being too picky?" What compatibility really means and how to know if you have it with your new man The reason you're overthinking and questioning everything when it comes to men The personality traits that have made you successful in life but unsuccessful at dating The one statistic that will give you the motivation you need to keep swiping The science based reason why men ghost you I am not interested in just hooking you up with some man. I never want you to settle. There IS a man out there who checks off all your boxes, but he's a needle in the haystack. And if you're looking for a needle in a haystack, it doesn't hurt to get better at looking. So, if you're satisfied with your current life but think it would be nice to add a good man to the picture, go ahead and hit the "add to cart" button. You won't be disappointed!
