Spiders (New & Updated Edition) - Gail Gibbons
2020-10-27

Weaving webs, digging burrows, and floating on strands of silk—spiders are fascinating creatures! From tiny baby spiderlings to large tarantulas, nonfiction master Gail Gibbons' introduction to these intriguing arachnids reminds us that even when they look scary, most spiders are harmless—and even helpful! There are over thirty thousand kinds of spiders in the world—small and large, colorful or gray—and they live,

hunt, and adapt in different ways. A number of different species and spider behaviors are highlighted in this book, accompanied by clear, labeled illustrations and important vocabulary. This new and updated edition, vetted by an entomologist, includes revised illustrations and the latest in arachnid science. Filled with interesting trivia and information on the history of spiders, as well as an explanation of the difference between spiders and insects, this is a great introduction that takes the fear out of our eight-legged, web-spinning friends.

I'm Trying to Love Spiders -
Bethany Barton 2019-07-02

The Official Spider Test. What do you do when you see a spider? a. Lay on a BIG spidey smoocheroo. b. Smile, but back away slowly. c. Grab the closest object, wind up, and let it fly. d. Run away screaming.

If you chose b, c, or d, then this book is for you! (If you chose a, you might be crazy.) I'm Trying to Love Spiders will help you see these amazing arachnids in a whole new light, from their awesomely excessive eight eyes, to the seventy-five pounds of bugs a spider can eat in a single year! And you're sure to feel better knowing you have a better chance of being struck by lightning than being fatally bit by a spider.

Comforting, right? No? Either way, there's heaps more information in here to help you forget your fears . . . or at least laugh a lot!

This Book Is Full Of Spiders: Seriously Dude Don't Touch It - David Wong 2012-10-02

Fan favourite David Wong

takes readers to a whole new level with this blistering sequel to the cult sensation John Dies at the End, now a movie

starring Paul Giamatti. As the sequel opens, we find our

heroes, David and John, again embroiled in a series of

horrifying yet mind-bogglingly ridiculous events caused

primarily by their own gross incompetence. The guys find

that books and movies about zombies may have triggered a

zombie apocalypse, despite a complete lack of zombies in the

world. As they race against the

clock to protect humanity from its own paranoia, they must ask themselves, who are the real monsters? Actually, that would be the shape-shifting horrors secretly taking over the world behind the scenes that, in the end, make John and Dave kind of wish it had been zombies after all. Hilarious, terrifying, engaging and wrenching, This Book Is Full of Spiders, the next thrilling installment, takes us for a wild ride with two slackers from the midwest who really have better things to do with their time than prevent the apocalypse.

Walter's Wonderful Web - Tim Hopgood 2016-08-16

A determined little spider named Walter is trying to make a sturdy web that will stand up to the blustery wind. This simple, vibrant adventure is a lively companion to our two previous Tim Hopgood "first books": Wow! Said the Owl,

about colors; and Hooray for Hoppy!, about the five senses.

Aaaarrgghh, Spider! - Lydia Monks 2007

A rip-roaring read-aloud (shout-aloud) picture book about a spider who wants to be the family pet from the internationally acclaimed illustrator of Julia Donaldson's *What the Ladybird Heard*. Spider wants to be a family pet. But the family whose house he lives in are terrified of him. Whenever he tries to show them what a great pet he would make, they simply cry: "AAAARRGGHH, Spider!" The illustrator of Julia Donaldson's famous titles such as *The Singing Mermaid* and *The Rhyming Rabbit* proves she is an author in her own right with this best-selling picture book story.

Be Nice to Spiders - Margaret Bloy Graham 1967-09-13

When Billy left his pet spider, Helen, at the Zoo, the animals suddenly became happy and contented. The lions snoozed all day long, the elephants enjoyed their baths, and the zebras ate their hay in peace -- all because Helen was spinning webs and catching flies. But one day Helen's webs were swept away. The Keeper had the cages cleaned for the Mayor's inspection tour. Soon the flies were back again and the animals were miserable once more. But not for long... Children will be fascinated and amused by the way Helen solved the problem and won a permanent place of honor for herself in the Zoo. Margaret Bloy Graham's pictures match the wit and charm of her delightful story.

Sneaky, Spinning Baby Spiders - Sandra Markle 2008-10-28

from the moment the spiderlings break out of their egg sacs—sometimes hundreds at a time—they must avoid danger until they are big enough to start spinning silk into beautifully woven webs to snag their own prey. Stunning, up-close photographs show baby spiders as they begin life and grow into adults. With the most up-to-date research about spiders from around the world, science expert Sandra Markle will capture even the most arachnophobic of readers.

[This Monster Cannot Wait!](#) - Bethany Barton 2013-04-18
Irrepressible Stewart the monster is back, and he has big news: He's going camping in five days! Of course, Stewart's parents know that good things come to those who wait - and eventually Stewart will learn that, too. In this hilarious follow-up to [This Monster Needs a Haircut](#), Bethany Barton channels her inner preschooler and shows
