[Gabe's Guide to Good Sex - Gabriel Morris 2012-03-26](#)

"You can read this short little book in a couple of hours or less. But I assure you that you will come away from it with some new, very useful ideas on how you approach sex-whether you're a man or a woman, young or older, a seasoned sex machine or a 40-year-old virgin. The book isn't focused so much on slick moves and techniques; though there are certainly some of those as well. Rather, it explores some of the more fundamental issues when it comes to having really good sex: Tuning into your partner's energy; understanding the fundamental differences between men and women, masculine and feminine; getting out of the head and into your body; increasing the feelings of love between you and your partner, as opposed to just focusing on physical pleasure; making every phase of the sexual experience last longer. These suggestions and many others will help guide you naturally into finding the right moves, positions, rhythm, etc., so that you can start experiencing deeply satisfying and mind-blowing lovemaking, as opposed to just getting laid." From "Gabe's Guide to Good Sex" by Gabriel Morris Gabriel Morris is author of many books including "How to Make Sacred Love to a Woman" (also available on Amazon.com as both a Kindle e-book and in paperback). "Gabe's Guide to Good Sex" includes 25 potent sex tips (15 for men and 10 for women), with several paragraphs of explanation for each one. It also features three more in-depth essays (two of which are also featured in the book "How to Make Sacred Love to a Woman"). The central focus of these suggestions revolves around the idea that the most important aspect of any sexual encounter is more about the energy you create between yourself and your partner, than simply what you do with your body. Yes, what you do with your body is important as well! And included in this little book are an assortment of tips for both men and women to get more in touch with their bodies. But ultimately, great sex is more about how tuned in you are to your partner, and yourself, rather than simply giving a great performance and showing off the right moves. A few more selections from the book: "Feeling a woman's energy as much as you can is an all-encompassing exercise that should guide everything you do with her, from suggestions for where to go out, to when you make your first move, to how you make love. If you're not sensing into her, then good looks, charm and slick moves will only get you so far. " "The masculine impulse tends to be focused on the goal: get naked, penetrate and orgasm. The feminine wants to savor the moment and take more time with everything: build the energetic connection, more foreplay, longer sex, more orgasms. And if you agree that sex is fun, then why be in a rush to get it over with?" "So, once she signals that she's ready to spread her legs for you and reveal that sweet, beautiful part of her feminine essence, don't just grab your cock and go for the goal. Take your time with it. Admire it. Tell her how beautiful it is. Stroke her thighs, encouraging her to open a little wider. Brush your fingers along her pubic hair, giving her just a little tease of what's to come, how gentle and sensitive you will be with your hands, and with your manhood once you get to that point." "To whatever extent the man is on top and in the active role, it's essential that he finds the proper rhythm with the woman. Sometimes the man needs a little reminder that if he really

wants to merge with the feminine nature and help create a mutually amazing sexual experience, he needs to get out of his own head and make sure to sense into the woman, both energetically and physically, in order to find a rhythm that's truly in sync with the woman. So, as the woman, it's your job to make it clear when in fact he isn't finding that proper rhythm."

[The Oxford Handbook of Philosophy and Race - Naomi Zack 2017](#)

"The Oxford Handbook of Philosophy and Race provides up-to-date explanation and analyses by leading scholars in African American philosophy and philosophy of race. Fifty-one original essays cover major topics from intellectual history to contemporary social controversies in this emerging philosophical subfield that supports demographic inclusion and emphasizes cultural relevance."--[Source inconneue]

[Health and Happiness - Sean Donovan 2010-01-18](#)

Regardless of your age, race, religion, sex, political affiliation or national origin - we should all have one common denominator - Health. We only get one shot at life and when health is gone, nothing else matters. The human mind and body comprise the most sophisticated machine on earth. Our bodies are far more sensitive and complex than any automobile, DVD player or other man-made item; but unlike those products, we don't come with an instruction manual at birth. This Health and Happiness guide offers common sense advice to help the average person make better decisions regarding their mind and body. Health reform starts with the daily choices we make - choosing to read this book is the first step in the right direction.

[Sex Guide for Couples - Donna Dare 2019-11-09](#)

Do you want to keep things spicy and fun in your relationship? Good! Now let's do it! Keep reading. Many relationships fail because what they want is very different from what they actually follow. Sexy lingerie, dirty talk and dirty text messages are all great ways to revive any relationship. If you find that these areas don't offer enough satisfaction, try something new. When you have a relationship and you feel comfortable with someone, you must be willing to try new things. This does not necessarily mean that you have to try things that you don't feel comfortable with, but it does mean that you should try things at least once. Start the discussion with your partner and find out what your fantasies are. Your woman might tell you that she has always dreamed of having a sexy cop who handcuffs her and plunges deep into her or your man can express to you that he wants to be whipped by a cat woman. Whatever your fantasies, do everything you can to make your fantasies come true. Take a trip to the local sex shop. Take a look around together. The addition of elements in the bedroom makes the experience more erotic and will give both of them great pleasure. This guide will focus on the following: \* Communication \* When the spouse is not interested in sex: communicate your needs \* The male and female psyche \* Marriage without sex \* All are different \* How to fall in love with your partner \* Tell me junk \* How to spice things up in the bedroom \* Prepare your temple of love; your body \* How to achieve maximum pleasure \* Sexual and couple bonding \* Stages of sexual excitement in humans \* Ways to make you last longer in bed \* Premature ejaculation \* How to rekindle the spark: 15 ways to fall in love \* Sexual role games \* Setting the mood \* Overcoming sexual inhibitions \* Crazy positions and places/situations in which to have sex (eg washing machine, on stairs, etc.) Spicy tips \* Secret to last longer \* Adventurous positions \* Additional suggestions for better sex ... AND

MORE !!! With Sex Guide for Couples, you can discover that there are a million different objects that you can incorporate into the bedroom and thousands of situations that can add pepper to your relationship. You just have to find what makes you feel better and works for you and your relationship. Be open to new things and explore different areas. You never know where you'll find pleasure! Do you want more intimacy for your relationship? Scroll up and click on the Buy Now button.

**Sex, Machines and Navels** - Fred Botting 1999

This work offers a critical re-reading of fictions of humanity, history, technology and postmodern culture. Taking psychoanalysis into cyberspace, the book develops a theoretical perspective on the relationship between bodies and machines.

**The Technology of Orgasm** - Rachel P. Maines 2001-06-15

The author explores hysteria in Western medicine throughout the ages and examines the characterization of female sexuality as a disease requiring treatment. Medical authorities, she writes, were able to defend and justify the clinical production of orgasm in women as necessary to maintain the dominant view of sexuality, which defined sex as penetration to male orgasm - a practice that consistently fails to produce orgasm in a majority of the female population. This male-centered definition of satisfying and healthy coitus shaped not only the development of concepts of female sexual pathology but also the instrumentation designed to cope with them.

**Handbook of Evolutionary Psychology** - Charles B. Crawford 1998

Evolutionary psychology is concerned with the adaptive problems early humans faced in ancestral human environments, the nature of psychological mechanisms natural selection shaped to deal with those ancient problems, and the ability of the resulting evolved psychological mechanisms to deal with the problems people face in the modern world. Evolutionary psychology is currently advancing our understanding of altruism, moral behavior, family violence, sexual aggression, warfare, aesthetics, the nature of language, and gender differences in mate choice and perception. It is helping us understand the relationship between cognitive science, developmental psychology, behavior genetics, personality, and social psychology. Foundations of Evolutionary Psychology provides an up-to-date review of the ideas, issues, and applications of contemporary evolutionary psychology. It is suitable for senior undergraduates, first-year graduate students, or professionals who wish to become conversant with the major issues currently shaping the emergence of this dynamic new field. It will be interesting to psychologists, cognitive scientists, and anyone using new developments in the theory of evolution to gain new insights into human behavior.

[The Male Sexual Machine](#) - Kenneth Purvis 1992

Provides answers to dozens of question on andrology -- the study of male sexual health, from aphrodisiacs to vasectomies, supplying solid advice as well as entertaining little-known facts. Both men and women will enjoy this book. Includes descriptions of male sexual organs and hormones, sperm, the prostate gland, sexual activity and the male body, causes and treatment of male impotence, infertility, vasectomy, and the effects of stress. Dr. Purvis is a leading researcher in andrology at the National Hospital in Oslo, Norway.

**Aging** - Pamela Roberts 2000

As the greying of America continues to shift demographics, increasing attention has been focused on what it means to grow older, both for society and individuals. This work covers various social, financial, and medical issues in order to provide a broad perspective of the ageing experience.

**An Owner's Manual for Men** - Joe Nickaloff 2011-12-02

Being a man in today's society is no easy task. Men are confused and worried about their role as lovers, fathers, protectors, leaders, bread winners and role models. Men rarely realize just what is expected of them and even when they do, how to respond to those expectations can often be elusive. In An Owners Manual For Men, Author Joe Nickaloff combines vast experience, insight and humor to teach you the many things you need to know to be happy, successful, respected and fulfilled - to become the best man you are capable of being. You will learn all about how to get the most out of your life and the one male machine you were

given to work with, all in quick, no nonsense lessons that you will find enlightening and easy to understand. Improve Your Sex Life - Get the Most out of Your Career Understand Love, Women, Marriage and Divorce Build Character - Be A Great Leader - Create Wealth Make Good Decisions - Deal with Failure and Defeat Handle Bad News - Beat Depression - Be a Great Parent Enjoy Good Mental and Physical Health - Cope with Stress Find Real Happiness - Become An Expert Crisis Manager Understand Self-Delusion, Revenge, Guilt and Regret -and much more- Ladies, you will also find An Owners Manual For Men an invaluable guide to understanding what makes your man tick and how best to work with him to create a great life together. Hell thank you for reading it and when you are done, give it to him. There has never been a resource like this for men to turn to until now. In An Owners Manual For Men, men of all ages will find the answers to many of life's big and little mysteries.

**Readings in the Psychology of Gender** - Anne E. Hunter 2002

Though most research in the psychology of gender highlights the differences between females and males, this supplementary collection of readings also investigates how they are alike. With the aim of providing an accurate picture of gender, the authors have culled readings that not only explore commonalities between females and males, but also probe the unique ways that people of different races, ethnicities, social classes and sexual orientations experience gender. The result is a model that views gender in terms of thinking, feeling, and behaving as the result of a complex interplay among biological, psychological, social and cultural processes.

**Sex Machine** - Charlotte Kane 2019-10-19

So you'd really like to please her in bed? Well, now you can. In Sex Machine: A Man's Guide to What Really Pleases a Woman in Bed, Charlotte Kane gives advice to men about what women really want in bed. If you're ready to expend the effort, you're ready to be all your woman wants and more. You are ready to become a Sex Machine. All men want a sexually satisfied woman but most don't have a clue as to where to start. The thing to realize is that great lovers are made not born. Women aren't that hard to please and pleasing them shouldn't involve any anxiety. What most women want is to be loved and desired. On top of that, they want massive orgasms. You, too, can give your lover sexual pleasure and massive orgasms. This book explains how. You can become the lover she's always wanted you to be. The good news is that it's not something that's beyond your grasp. The better news is that you can have fun while you learn. Sex Machine: A Man's Guide to What Really Pleases a Woman in Bed will show you how.

[The Machines of Sex Research](#) - Donna J. Drucker 2013-07-04

The Machines of Sex Research describes how researchers worldwide integrated technology into studies of human sexuality in the postwar era. The machines they invented made new ways of seeing bodies possible. Some researchers who studied men used machines like penile strain gauges to police "deviant" male sexuality; others used less painful devices like penis-cameras to study women's sexual responses and map the physiology of their arousal and orgasm. While researchers used the findings from their technological innovations to propose their own views of how people should view their bodies and should manage their sexual lives, their readers interpreted their findings to enact their own visions of sexuality. Drucker shows how the use of machines in sex research provided some of the intellectual underpinnings of the sexual revolution and the women's and gay rights movements, and in turn how the sex research community developed new machines for investigations that would enhance sexual happiness rather than constrict it. The Machines of Sex Research is a key read for those interested in the intersections between human sexuality, technology, and twentieth-century social

movements. Describes the little-known history of the machines of human sex research in the postwar era Shows how researchers worldwide invented and used machines to study human sexuality and the body in new ways, and how they used and improved each other's designs Relates the relationship between the machines of sex research to Cold War sexualities and gender and sexual liberation movements.

**Sex/Machine** - Patrick D. Hopkins 1998

" . . . discusses the complex connections between gender and technology . . . an intriguing and enlightening book, the latest in an outstanding . . . series by Indiana University Press." —Bruce Hilton, Scripps Howard News Service How does technology influence gender roles? From personal computers and cyberspace to artificial wombs and sex reassignment surgery, technology has opened up the possibility that sex roles as well as the gendered notions we have of human identity are subject to radical change. This engaging anthology examines long-standing stereotypical associations of men with technology and women with nature and assesses the impact of technologies that have necessarily blurred distinctions between the sexes and altered traditional views of gender.
