Researching Violence Against Women - Mary Ellsberg 2005

Draws on the collective experiences and insights of many individuals, and in particular from the implementation of the WHO Multi-country Study on Women's Health and Domestic Violence against Women in over 10 countries. Twenty years ago, violence against women was not considered an issue worthy of international concern. Gradually, violence against women has come to be recognized as a legitimate human

rights issue and as a significant threat to women's health and well-being. Now that international attention is focused on gender-based violence, methodologically rigorous research is needed to guide the formulation and implementation of effective interventions, policies, and prevention strategies. The manual has been developed in response to the growing need to improve the quality, quantity, and comparability of international data on physical and sexual abuse. It outlines some of the methodological and ethical challenges of conducting research on violence against women and describes a range of innovative techniques that have been used to address these challenges.

The Female Brain - Louann Brizendine
2009-05-04

Accessible, fun and compelling, and based on more than three decades of research, *The Female Brain* will help women to better understand themselves - and the men in their lives. In this groundbreaking book, Dr Louann Brizendine describes the uniquely flexible structure of the female brain and its constant, dynamic state of change - the key difference that separates it from that of the male - and reveals how women think, what they value, how they communicate, and whom they'll love. She also reveals the neurological explanations behind why... - A woman remembers fights that a man insists never happened... - Thoughts about sex enter a woman's brain perhaps once every couple of days, but may enter a man's brain up to once every minute... - A woman's brain goes on high alert during pregnancy - and stays that way long after giving birth... - A woman over 50 is more likely to initiate divorce than a man... - Women tend to know what people are feeling, while men can't spot an emotion unless someone cries or threatens them with bodily harm!

American Book Publishing Record - 2003

Children's needs - parenting capacity - Hedy Cleaver 2011-10-12

This second edition of "Children's needs - parenting capacity" updates the original exploration of the research literature in the light of legal and policy changes in England and findings from more recent national and international research. The edition has also been expanded to cover parental learning disabilities

and how it may impact on parenting and children's health and development. The findings show that these parenting issues affect children differently depending on their age and individual circumstances. While some children grow up apparently unscathed, others exhibit emotional and behavioural disorders. This knowledge can inform practitioners undertaking assessments of the needs of children and their families and effective service responses. This publication is essential reading for practitioners, managers and policy makers concerned with improving the outcomes for children and families who are experiencing such problems.

This report represents the most comprehensive estimate made to-date of livestock's contribution to global warming as well as the sectors potential to help tackle the problem. This publication is aimed at professionals in food and agriculture as well as policy makers.

How Tobacco Smoke Causes Disease - 2010

This report considers the biological and behavioral mechanisms that may underlie the pathogenicity of tobacco smoke. Many Surgeon General's reports have considered research findings on mechanisms in assessing the biological plausibility of associations observed in epidemiologic studies. Mechanisms of disease are important because they may provide plausibility, which is one of the guideline criteria for assessing evidence on causation. This report specifically reviews the evidence on the potential mechanisms by which smoking causes diseases and considers whether a mechanism is likely to be operative in the production of human disease by tobacco smoke. This evidence is relevant to understanding how smoking causes disease, to identifying those who may be particularly susceptible, and to assessing the potential risks of tobacco products.

Seduced by Mrs. Robinson - Beverly Gray
2017-11-07

An Amazon Best Book of the Month “[Gray] writes smartly and insightfully . . . The book as a whole offers a fascinating look at how this movie tells a timeless story.” —The Washington Post
Mrs. Robinson, you're trying to seduce me. Aren't you? When *The Graduate* premiered in December 1967, its filmmakers had only modest expectations for what seemed to be a small, sexy art-house comedy adapted from an obscure first novel by an eccentric twenty-four-year-old.

~~There was little indication that this offbeat~~ story—a young man just out of college has an affair with one of his parents' friends and then runs off with her daughter—would turn out to be a monster hit, with an extended run in theaters and seven Academy Award nominations. The film catapulted an unknown actor, Dustin Hoffman, to stardom with a role that is now permanently engraved in our collective memory. While turning the word plastics into shorthand for soulless work and a corporate, consumer culture, *The Graduate* sparked a national debate about what was starting to be called “the generation gap.” Now, in time for this iconic film's fiftieth birthday, author Beverly Gray offers up a smart close reading of the film itself as well as vivid, never-before-revealed details from behind the scenes of the production—including all the drama and decision-making of the cast and crew. For movie buffs and pop culture fanatics, *Seduced by Mrs. Robinson* brings to light *The Graduate*'s huge influence on the future of filmmaking. And it explores how this unconventional movie rocked the late-sixties world, both reflecting and changing the era's views of sex, work, and marriage.
