Intercourse - Andrea Dworkin 2008-08-01

Andrea Dworkin, once called "Feminism's Malcolm X," has been worshipped, reviled, criticized, and analyzed-but never ignored. The power of her writing, the passion of her ideals, and the ferocity of her intellect have spurred the arguments and activism of two generations of feminists. Now the book that she's best known for-in which she provoked the argument that ultimately split apart the feminist movement-is being reissued for the young women and men of the twenty-first century. Intercourse enraged as many

readers as it inspired when it was first published in 1987. In it, Dworkin argues that in a male supremacist society, sex between men and women constitutes a central part of women's subordination to men. (This argument was quickly-and falsely-simplified to "all sex is rape" in the public arena, adding fire to Dworkin's already radical persona.) In her introduction to this twentieth-anniversary edition of Intercourse, Ariel Levy, the author of Female Chauvinist Pigs, discusses the circumstances of Dworkin's untimely death in the spring of 2005, and the enormous impact of her life and work. Dworkin's argument, she points out, is the

stickiest question of feminism: Can a woman fight the power when he shares her bed?

Real Knockouts - Martha McCaughey 1997-07

Unprecedented numbers of American women are today learning how to knock out, maim, even kill men who assault them. From behind the scenes of gun ranges, martial arts dojos, fitness centers offering "Cardio Combat," and in padded attacker courses like "Model Mugging," Real Knockouts demonstrates how self-defense trains women out of the femininity that makes them easy targets for men's abuse. And yet much feminist thought, like the broader American culture, seems deeply ambivalent about women's embrace of violence, even in self-defense. Investigating the connection between feminist theory and a woman's balled fist, McCaughey found self-defense culture to embody, literally, a new kind of feminism, one that will change forever the way we think of gender politics, the female body, and feminism itself.

Win Sex Every Time - Jaie Vee 2017-06-14

THIS BOOK IS FOR MEN, showing average men how to get ladies or the wife to give SEX. It details a lady's mind-set, so men are clear why such cheap and simple tactics are effective. It includes erotic sex stories that can excite dominant male, and submissive female emotions.

..... This book received a prestigious Reader's Favorite 5-star review (reviewed under the reviewable title, Getting Her to YES):
Reviewed by Romuald Dzemo for Readers' Favorite This "is a book about the "art of sex," a book that answers the question that many men have asked without finding a definite answer: What does it take to get a woman to give herself fully in sex, to reach deeper levels of intimacy, and to want more from a man? In short, how can a man capture a woman's heart and make her never want to leave him at all? Written for men and from a woman's perspective, this book proposes a game plan that will revolutionize the way most men view sex, an approach that provides the results they want. In this slim and practical guide, a woman unveils the secret to capturing a woman's heart and creating a powerful, dizzying connection with her. But how does this work? It's about viewing "the art of sex" from a woman's perspective. It is learning to think like a woman, understanding how she sees men and what she looks for in a man, especially when it comes to giving in sex. Starting with her personal sexual experiences, from the age of eighteen, the author helps readers understand what women think about what men think about them, unveiling the deep and hidden expectations most women share in common, and offering practical tips on how to find a woman and to make her feel like wow. There is a lot to learn about the heart of a woman in this book. For instance, the author states that: "Why is a female even interested in a man she is keenly aware wants to enter her? Because men have something she deeply desires. That "something" is often emotional excitement and attention from a man she believes is greater than she is, that will help her. Adoration by a grand man, who, in her eyes could some day protect her, is a top prize." Getting Her to YES by Jaie Vee is an interesting book about sex, but it is a book that deals more on the kind of attitude that will provoke a woman to say "Yes" and to continue to say "Yes" to the same man. It's not a new Kama Sutra, but a guide for men to develop the attitude and the sexual approach that will most certainly arouse any woman. The language is great and mature. Readers will enjoy the psychological aspect of taming a woman's heart. This is a book for men in relationships, for men looking for a sex partner, and for men who want to deepen the sexual relationship with their partners. I have always thought that I knew women, but this was an eye-opener."

Language, Gender, and Sex in Comparative Perspective - Susan U. Philips 1987-06-26

Most studies of gender differences in language use have been undertaken from exclusively either a sociocultural or a biological perspective. By contrast, this innovative volume places the analysis of language and gender in the context of a biocultural framework, examining both cultural and biological sources of gender differences in language, as well as the interaction between them. The first two parts of the volume on cultural variation in gender-differentiated language use, comparing Western English-speaking societies with societies elsewhere in the world. The essays are distinguished by an emphasis on the syntax, rather than style or strategy, of gender-differentiated forms of discourse but also often carry out the same forms differently through different choices of language form. These gender differences are shown to be socially organized, although the essays in Part I also raise the possibility that some cross-cultural similarities in the ways males and females differentially use language may be related to sex-based differences in physical and emotional makeup. Part III examines the relationship between language and the brain and shows that although there are differences between the ways males and females process language in the brain, these do not yield any differences in linguistic competence or language use. Taken as a whole, the essays reveal a great diversity in the cultural construction of gender through language and explicitly show that while there is some evidence of the influence of biologically based sex differences on the language of women and men, the influence of culture is far greater, and gender differences in language use are better accounted for in terms of culture than in terms of biology. The collection will appeal widely to anthropologists, psychologists, linguists, and other concerned with the understanding of gender roles.

Real Women, Real Sex - Brian Frank 2005-10-01

This lay book, based on the things I learned from the women I knew, is about what women are like sexually.

Not like they are in porn or Hollywood movies, but the way they are sexually in real life. Its about passionate women, frigid women, those in between, and the noticeable ways they compare to each other. Its also about the clear differences between a womans real orgasm and a faked one; the sex acts easily orgasmic women enjoy with men and why they enjoy them; why certain heterosexual womens preferences are odd; childhood influences, perceptions, and experiences that may be what mold womens views on sex and men; how and why men fail women in bed; and briefly, the remarks bisexual women made to me about their men. But more importantly, its about the probable reasons why at least 75% of all women are unable to have vaginal orgasms.

A Conversation with a Real Woman - Divine Peach 2011-03-24

There is no available information at this time.

Eros and Ethos - Jason Stotts 2018-02-09

Sexual ethics has historically been a bleak landscape of three false alternatives – resist, abstain, or indiscriminately indulge. In Eros and Ethos, philosopher Jason Stotts presents a radical new alternative in which sex is an ethically important part of a rich human life. He shows how sex is a significant expression of our character, because sex arises out of the deepest and most fundamental parts of who we are. On his account, virtue lies in proudly bringing desire in line with our flourishing so that we can create rich and meaningful lives.

Sex and the intelligent women - Manfred F. DeMartino 2013-12-11

How Women Think About Sex - Enas Khalifah Khalifah Kh 2019-10-20

Being a woman, it occurred to be one day that men don't actually know what women think about sex or sexual subjects. We act out in the bedroom in the manner that is expected of us, but what goes on in a woman's mind when she thinks about sexual activity? That's what prompted me to write this book, which may educate men a little about what's going on in their woman's mind. I have taken the experience right back to the roots when women first learn about sex because many of the problems that follow come from this time and from the teachings of parents and learning from peers. We know how we are supposed to view sex, but every woman will view it in her own way because of her own personal experiences and the expectations of her partner. You may be shocked to know that women are quite sexual and do have views of their own. They also have fantasies and sometimes don't share them, and there are reasons for that too. When you understand how a woman's mind works when it comes to sex, it may explain to you any problems that you are encountering under the sheets, and you may be able to use this information to get to the root of problems that may be simple fixes.

Why Men Want Sex and Women Need Love - Barbara Pease 2010-01-12

Allan and Barbara Pease, the international bestselling authors of *Why Men Don't Listen & Women Can't Read Maps*, deliver their most exciting book yet. Will men and women ever see eye-to-eye about love and sex? How will relationships ever be rewarding if men only want to rush into bed and women want to rush to the altar? In this practical, witty and down-to-earth guide, couples experts Allan and Barbara Pease reveal the truth about how men and women can really get along. By translating science and cutting edge research into a powerful yet highly entertaining read, you'll learn how to find true happiness and compatibility with the opposite sex. REVEALED IN THIS BOOK: * The seven types of love * The top five things women want from men * What to do when the chemistry is wrong * What turns men and women on – and off! * The most common “New Relationship” mistakes and how to avoid them * How to decode “manspeak” If you want to get the most satisfaction from your relationship, or are single and looking for the right person, then you must read this book for the answer to *Why Men Want Sex and Women Need Love*.

Reshaping the Work-Family Debate - Joan C. Williams 2012-01-01

The United States has the most family-hostile public policy in the developed world. Despite what is often reported, new mothers don't Opt out of work. They are pushed out by discriminating and inflexible workplaces. Today's workplaces continue to idealize the worker who has someone other than parents caring for their children. Conventional wisdom attributes women's decision to leave work to their maternal

traits and desires. In this thought-provoking book, Joan Williams shows why that view is misguided and how workplace practice disadvantages men—both those who seek to avoid the breadwinner role and those who embrace it—as well as women. Faced with masculine norms that define the workplace, women must play the tomboy or the femme. Both paths result in a gender bias that is exacerbated when the two groups end up pitted against each other. And although work-family issues long have been seen strictly through a gender lens, we ignore class at our peril. The dysfunctional relationship between the professional-managerial class and the white working class must be addressed before real reform can take root. Contesting the idea that women need to negotiate better within the family, and redefining the notion of success in the workplace, Williams reinvigorates the work-family debate and offers the first steps to making life manageable for all American families.

Sex Positions - Christina Dawn 2019-11-30

Feel like your sex life has become routine and stagnant? Tired to repeat over and over the same sex positions over the years? Or do you want a more exciting and enjoyable sex life? The truth is... A lot of people are dissatisfied with their sex life and all of them repeat the same sex positions they have been doing for years. Research has proved that one of the main causes of sexual dissatisfaction is a lack of variety of sex positions. The solution is a complete guide that gives you a plethora of sex positions to try. When you are just entering into the world of sexual relations you need some basic positions to start with. There are basic positions that you can try that offer a variety of unique sensations. These different positions allow you to see your partner from all aspects of the relationship. And that's what you'll learn in *Sex Positions*. DOWNLOAD: *Sex Positions -- A Beginner's Guide to Sex Positions for Incredible Couple's Sex Experiences* The goal of this book is simple: it will give you access to positions that can help you combat confidence, anxiety, or premature ejaculation issues. Bookkeepers, Stenographers and Office Clerks in Ohio, 1914 to 1929 - Amy Grace Maher 1932

Give Her Multiple Orgasm As Often As You Want - Natalie Robinson 2015-06-01

The Female Orgasm is indeed the new age version of the Holy Grail, a mysterious event that seems to boggle our imagination, challenge a man's ego, and sometimes elude us in much the way as a secret cave. But wait! How about all that stuff I see in erotica books and Internet porn? Those guys make it look easy. So it should be just that easy, right? And that's why we have so many real world sex problems. Because we all sort of think, yeah orgasms should be like that. So why isn't it working just like that? Probably because studying erotica in place of education is sort of like getting your history lesson from, well, a Hentai cartoon. - Real sex is not exaggerated. - Real orgasms are not mechanical. - Really good, awesome and out of this world sex takes practice, patience and strategizing rather than just wishing it to be. It's like the old expression goes – if you build it they will come. Or in this case, if you really work at it, she will come. This book is not going to tell you how it “should” happen, or how you wish it could happen—but rather how realistically you're going to either give a woman an orgasm, if you're a man, or bring yourself to orgasm with a lover, if you're a woman. We're going to analyze the anatomy, the emotional complexity and the “social obligation” of all things orgasm over the course of 87 tips and 12 chapters. You will know what to say to your lover to get her in the mood. You will discover foreplay techniques to put your woman on her toes and ready for the big-O. You will know the truth about female ejaculation, the G-spot, the U-spot, the A-spot, the P-spot and Deep Spot, and how to stimulate them to give her multiple full-body, over-the-top, mind-blowing orgasms in one night. By the end of the book, you're going to have your PhD in Orgasmology,

or at least the equivalent of it. And the proof will be in those authentic moans of ecstasy, never more unrestrained, raw and amazing.

Brainsex - Anne Moir 1989

The Smart Wife - Yolande Strengers 2021-08-31

The life and times of the Smart Wife--feminized digital assistants who are friendly and sometimes flirty, occasionally glitchy but perpetually available. Meet the Smart Wife--at your service, an eclectic collection of feminized AI, robotic, and smart devices. This digital assistant is friendly and sometimes flirty, docile and efficient, occasionally glitchy but perpetually available. She might go by Siri, or Alexa, or inhabit Google Home. She can keep us company, order groceries, vacuum the floor, turn out the lights. A Japanese digital voice assistant--a virtual anime hologram named Hikari Azuma--sends her "master" helpful messages during the day; an American sexbot named Roxxy takes on other kinds of household chores. In *The Smart Wife*, Yolande Strengers and Jenny Kennedy examine the emergence of digital devices that carry out "wifework"--domestic responsibilities that have traditionally fallen to (human) wives. They show that the principal prototype for these virtual helpers--designed in male-dominated industries--is the 1950s housewife: white, middle class, heteronormative, and nurturing, with a spick-and-span home. It's time, they say, to give the Smart Wife a reboot. What's wrong with preferring domestic assistants with feminine personalities? We like our assistants to conform to gender stereotypes--so what? For one thing, Strengers and Kennedy remind us,

the design of gendered devices re-inscribes those outdated and unfounded stereotypes. Advanced technology is taking us backwards on gender equity. Strengers and Kennedy offer a Smart Wife "manifesta," proposing a rebooted Smart Wife that would promote a revaluing of femininity in society in all her glorious diversity.

The Writer and His Tradition - Robert Drake 1969

Womanology - E. J. Lester 2011-09

This book is written to provide a glance into the hearts of women. The premise is that if a man or woman is able to gain this understanding, the relationship they have or seek will have a sounder foundation of which to be improved upon; or guided toward that with the intent of fostering a fulfilling and satisfying relationship. The information presented in this book is simple and to the point, it includes poetry at the end of each chapter. The poetry is intended to provide a journey into the word represented in the chapter. This book is not intended to be a scientific guide of any sort, however; it is intended to get you thinking. It is written from a layman's point of view for the man who seeks to understand his woman or women in general, and for the woman who seeks to understand her own nature. If you are a single man this book will help you to understand women from an internal aspect vs. external. You will understand that basically all women seek the same in a relationship, you will additionally understand how to care for her. It can get you more sex, but only when coupled with sincerity. Read carefully, and use wisely.
