Why Women Have Sex Cindy Meston 2010-04-01 Why do women have sex? Is it purely for pleasure or the desire to reproduce? In their groundbreaking book, clinical psychologist Cindy Meston and evolutionary psychologist David Buss investigate the underlying sexual desires of women and identify 237 distinct motivations for sex. Drawing on more than a thousand intensive interviews conducted solely for the book, as well as their pioneering research on physiological response and evolutionary emotions, Meston and Buss give us a remarkably complex and nuanced portrait of female sexuality. They explore the use of sex as a defensive tactic against a man's infidelity (protection), as a ploy to boost self-confidence (status), as a barter for gifts (resource acquisition), or even as a cure for a headache (medication). Why Women Have Sex explores the deep-seated psychology and biology of female sexuality, and promises to inform every woman's - and her partner's - awareness of her relationship to sex and her own sexuality.

Real Sex Mike Lousada 2017-05-30 The more modern culture shines its light on sex, the longer the shadow it casts. This shadow is commercialism, pornography and shame. This approach to sexuality distorts it to create performance pressure, increasing numbers of sexual 'dysfunctions' and a fundamental disconnect from ourselves and others. Yet sexuality is one of the most important paths to happiness, simply because it requires us to engage all the other aspects of ourselves. To have deeply satisfying sex we must engage the mind, the body and our feelings. Real Sex will show you how almost everything that our society has tried to teach you about your sexuality is misleading or simply wrong. Real Sex is a journey into the heart of your sexual self; a way of creating meaningful and fulfilling intimacy. It sets out seven keys that will teach you how to love and accept your mind, body, feelings, desires and sexuality at a deeper level, leaving behind feelings of guilt, insecurity and shame. Real Sex offers a new, integrated idea of sexuality that holds a positive perspective of the sexual beings that we are; longing for intimacy and aliveness that we know deep down makes our lives meaningful.

The sad truth is that most women end up faking an orgasm to avoid the awkward tension when her male knows he hasn't got her there. But not anymore. You now finally understand that the female orgasm is about more than just the physical act and you now know pretty much all you're going to need to get to that wonderful place." ; "I want you to remember exactly that. The orgasm isn't purely physical; the emotional and psychological elements are still so, so important. It's possible for a person to orgasm without even being touched. It's hard, sure, but it is certainly possible. I just need to demonstrate to you the significance of the mind here. It's a key

part of getting a female to her ultimate climax. Think about tantric sex. Now, you might not know a lot about tantric sex, but the idea is that sex is considered virtually spiritual in nature - it's linked to a higher state of being. So clearly sex is more than the mere physical act of stimulating the nerves." ; "If you're successful here, then the chances are that she won't have anything to say - she will quite literally be speechless! When a female experiences such a hard orgasm she physically won't be able to say anything! She will be so overwhelmed by the sensation that there is no need for words. If you accomplish this then well done, you've done what very few guys ever manage to accomplish because they simply don't know or understand how to. But you do." ; Want to know more? You know what to do. ; ;

Everything You Never Wanted Your Kids to Know about Sex, (but Were Afraid They'd Ask) Justin Richardson 2003 Written by two Harvard-trained doctors, this one-of-a-kind survival guide helps parents stay sane through every stage of their child's sexual development—from infancy to the teen years and beyond. Our generation was supposed to have sex all figured out. We knew it was healthy. We were too cool to ever get flustered.

Then we had kids. And when those kids showed up with sexual ambitions of their own, suddenly we didn't feel so cool anymore. In fact, the confusion, fear, and (let's face it) outright panic we felt the moment our five-year-olds started asking, "Mommy, do you like to rub your wiener, too?" might have done our own parents proud. Well, understanding kids' sexuality doesn't have to be an angst-ridden enterprise. With confidence, wisdom, and humor, Dr. Justin Richardson, a psychiatrist and noted consultant on youth and sex, and Dr. Mark A. Schuster, a pediatrician and leading researcher on parenting strategies and adolescent sexuality, help us regain our equilibrium with this remarkable book. Smart, frank, and occasionally hilarious, this comprehensive guide offers practical and often surprising answers to the questions that bedevil parents at every stage in their children's coming-of-age. What do you say when your four-year-old daughter walks in on you having sex? What about when you walk in on her and the girl next door finger painting each other's bottoms? What, exactly, should you tell your third-grader about sex, and if he says, "That's gross!" does that mean you've said too much? And what about teenagers? Should you buy your son condoms? Should you try to prevent your daughter from having sex? Does telling her to wait actually work? Drs. Richardson and Schuster tackle these and countless other crucial challenges you're likely to face in the first twenty or so years of your children's lives. Packed with the latest research on parenting techniques and childhood sexuality and filled with helpful stories from real parents about what worked (and what didn't) with their kids, this authoritative volume offers advice and comfort to anyone who is hoping to have a productive dialogue with young people about sex. Whether your focus is on protecting your teens from STDs or raising your little ones to understand their bodies, *Everything You Never Wanted Your Kids to Know About Sex (But Were Afraid They'd Ask)* is an indispensable resource that is sure to leave you educated, entertained, and relieved.

The sad truth is that most women end up faking an orgasm to avoid the awkward tension when her male knows he hasn't got her there. But not anymore. You now finally understand that the female orgasm is about more than just the physical act and you now know pretty much all you're going to need to get to that wonderful place." ; "I want you to remember exactly that. The orgasm isn't purely physical; the emotional and psychological elements are still so, so important. It's possible for a person to orgasm without even being touched. It's hard, sure, but it is certainly possible. I just need to demonstrate to you the significance of the mind here. It's a key part of getting a female to her ultimate climax. Think about tantric sex. Now, you might not know a lot about tantric sex, but the idea is that sex is considered virtually spiritual in nature - it's linked to a higher state of being. So clearly sex is more than the mere physical act of stimulating the nerves." ; ;"If you're successful here, then the chances are that she won't have anything to say - she will quite literally be speechless! When a female experiences such a hard orgasm she physically won't be able to say anything! She will be so overwhelmed by the sensation that there is no need for words.
