The Real Reasons Men Commit - Joel D Block

2008-11-01

I need my space. We need to slow down. I'm just not ready to settle down yet. Single women have heard all these excuses and more from the men in their lives. And with a growing number of people choosing not to marry at all, women who do want to get married are increasingly frustrated by men who, in the end, refuse to make that commitment. In this book, women will learn: how men really view commitment; what

factors influence their decision to commit; the difference between cold feet and an intractable single-forever stance; which men are most likely to go the distance; strategies to persuade commitment-phobic men to take the chance on love and marriage; and more. With this book, women looking for commitment from their men can push them off the fence - and into the wedding chapel. Or, if they're found wanting, simply cut them loose with that other famous line: Maybe we should see other people.

Juicy Living, Juicy Aging - Loretta Laroche
2009-08-01

For the last 20 years, Loretta LaRoche has been delighting readers, audiences, and PBS television viewers with her wacky and wise insights about life, love, and the insanity of the modern world. Now, in her most deeply personal book yet, Loretta addresses the most exciting challenge that we all face—one that she now finds herself facing every day: How do we age well? And can humor, dignity, honesty, wisdom, and other virtues ease the path? Our society is youth obsessed: Beauty products, special exercises, designer vitamins, plastic surgery, and certain medications are promoted as "the" ways to enhance life. While these formulas may have some merit, they're not enough to prepare us to have a rich, authentic life filled with passion and juiciness. Why do we wait until we're almost dead before we focus on how to age well? Every school system in the country should be preparing us for the inevitable process

of aging and how to do it well. Our parents, our schools, and the media should all be teaching us that aging is a process that begins at birth . . . not something to be feared and avoided. Those who continue to be hardy and live long and healthy lives understand that the real path to vitality requires connection, playfulness, flexibility, grace, tenacity, resiliency, curiosity, learning, and good humor. With her trademark humor and practical wisdom, Loretta tackles how to live a long, healthy, juicy life—using herself and many of her friends and mentors as metaphors. Filled with practical advice, lifestyle skills, wisdom, and spirituality, Kick Up Your Heels . . . is a mental health spa that will inspire you and your family to live with joy, harmony, and peace while you still have the time!

life means. *Sex Over 50* speaks to this legion of gracefully aging Americans who are looking for professional, practical advice on how to make the transition to deeper, richer, more sophisticated sexual relationships. This edition includes a new chapter on the dating scene for Boomers, as well as updated information on hormone replacement therapy and erectile dysfunction.

Sex Comes First - Joel D Block 2009-04-18

"He works too much." "She expects me to know what she's thinking." "We don't trust one another." There's a lot that gets in the way of a happy relationship—work, jealousy, and communication issues, just to name a few. However, one thing definitely brings a couple together: sex. Relationship experts Dr. Joel Block and Kimberly Dawn Neumann teach couples how to use sex to build and strengthen their relationship. This new approach shows couples how to use sexual intimacy to conquer obstacles outside the bedroom. The authors identify fifteen

of the most common problems couples run into and offer their sexual solution to each one. *Sex Comes First* will leave everyone satisfied—in every way possible.

Love Affairs - Joel D Block 2018-04-02

A psychologist specializing in couples therapy provides an honest and compassionate guide to dealing with a spouse's or partner's love affair, from the one-night stand to the grand amour. As a result of innovative technologies and a globalized world, temptation and opportunity often intersect, allowing infidelity to increasingly create problems between spouses, partners, and other couplings in which at least one person expects exclusive intimacy. In this timely work, noted couples therapist Joel Block examines the challenges of affairs, including types of affairs; their motivations and effects; and how to repair and improve a relationship, or part ways, after an affair. Questions addressed include: "What is the motivation?", "Is it a result of deep dissatisfaction? Or not a reflection of the

relationship at all?", and "Can relationships be affair-proofed?" Providing vignettes from the author's therapy sessions to illustrate points, the book also explains how to respond to discovery; minimize disruption in the lives of children; and when separation or divorce is the chosen solution, understand new modes of "conscious de-coupling" that keep post-breakup life stable as well as satisfying. A lifeline for recovering from crisis, this text will interest general readers looking for advice to react to, cope with, or avoid infidelity, as well as students and professionals in the fields of psychology, counseling, and social work.

The 15-Minute Relationship Fix: A Clinically-Proven Strategy That Will Repair and Strengthen Your Love Life - Joel Block Phd
2018-09-05

Each of us longs to be loved and accepted for the person we truly are. There is no better opportunity than our love relationship for us to be fully ourselves. Ironically, since our partner is so central to our life, his or her validation becomes critical and we are inclined to hide our

true self. We become guarded from the most important person in our lives. The soul-baring intimacy and willingness to know and be known that made the beginning of love so passionate and exciting becomes simply functional. It is replaced with feelings of apprehension and guardedness. Over time we move from a passionate open relationship to one that is quietly cautious. It may work as a partnership, but the spark of the early years is down to embers, at best. You may wonder if it is possible to regain genuine connection. Dr. Joel Block, a psychologist specializing in work with couples for many years provides an efficient, clinically tested program that he has used successfully with couples in his practice. It is not about trying to change each other, which is a waste of time. It is about understanding each other and ourselves at a deeper level than ever before.

LOST and PROFOUND - Mark McKirdy

'LOST and PROFOUND: The Rejected Book

Downloaded from
legacy.opendemocracy.net on 2022-07-15

Reviews by Famous People' is a unique and hilarious collection of unpublished book reviews seemingly written by household names who have reached the top in film, television, journalism, science, music, sport, art, business, politics and literature. Included among the 'reviewers' are George W. Bush, David Letterman, Madonna, Gore Vidal, Shirley MacLaine, Arnold Palmer, Elton John, Gloria Steinem, David Suzuki, Walter Cronkite, Salvatore 'Sammy the Bull' Gravano, Jimmy Swaggart and Monica Lewinsky. All the books reviewed are real, and the astonishing diversity of interests of the celebrities demonstrates that shallow perception can never be disguised as deep thought, no matter how cleverly expressed. As revealed in the book's 'Introduction', Mark McKirdy acquired this collection when he successfully bid for a small, dusty box at a Sotheby's auction in 2013. Upon

his return to Oxford University, where he was the anthropologist-in-residence, he opened the box and, like Howard Carter marveling at the treasures he'd just unearthed from Tutankhamun's tomb in 1922, the author was holding a golden collection of book reviews by many of the world's most significant people. Each review had apparently been commissioned by the prestigious literary journal, 'The London Review of Books' and each, for reasons never revealed, received a soul-crushing rebuff by way of a large, red 'Rejected' stamp. As with all well written satire, 'LOST and PROFOUND' will give readers pause for thought, seconds for chuckling, minutes of laughing out loud and hours of fun, and if the celebrities mentioned in the book didn't actually write the reviews cited, they probably wish they had.
