For Goodness Sex - Al Vernacchio 2014-09-16

A progressive, effective, and responsible approach to sex education for parents and teens that challenges traditional teaching models and instead embraces 21st century realities by promoting healthy sexuality, values, and body image in young people. Sex education today generally falls into one of two categories: abstinence-only or abstinence-based education—both of which tend to withhold important, factual information and leave young adults ill-equipped to make safe decisions. Al Vernacchio, a high school sexuality educator who holds a Master's degree in Human Sexuality from the University of Pennsylvania, has created a new category: sex-positive education. In

Goodness Sex, he refutes the “disaster prevention” model of sex ed, offering a progressive and realistic approach: Sexuality is a natural part of life, and healthy sexuality can only develop from a sex-positive, affirming appreciation. Curious yet fearful of being judged, young people turn to peers, the Internet, and the media, where they receive problematic messages about sex: boys are studs, girls are sluts; real sex should be like porn; hookups are better than relationships. Without a broader understanding to offset these damaging perceptions, teenagers are dangerously unprepared intellectually and emotionally to grow and develop as sexual beings. For Goodness Sex offers the tools and insights adults need to talk young people and help them develop healthy values and safe habits. With real-life examples from the classroom, exercises and quizzes, and a wealth of sample discussions and crucial information, Vernacchio offers a guide to sex education for the twenty-first century.

The Revolutionary Phenotype: The amazing story of how life begins and how it ends - J. - F. Gariépy 2019-04-10

The Revolutionary Phenotype is a science book that brings us four billion years into the past, when the first living molecules showed up on Planet Earth. Unlike what was previously thought, we learn that DNA-based life did not emerge from random events in a primordial soup. Indeed, the first molecules of DNA were fabricated by a previous life form. By describing the fascinating events referred to as Phenotypic Revolutions, this book provides a dire warning to humanity: if humans continue to play with their own genes, we will be the next life form to fall to our own creation.

Buffering - Hannah Hart 2016-11-10

By combing through the journals that Hannah has kept for much of her life, this collection of narrative essays deliver a fuller picture of her life, her experiences, and the things she's figured out about family, faith, love, sexuality, self-worth, friendship and fame. Revealing what makes Hannah tick, this sometimes cringe-worthy, poignant collection of stories is sure to deliver plenty of Hannah's wit and wisdom, and hopefully encourage you to try your hand at her patented brand of reckless optimism. Personal note: Hello, my darlings! I am incredibly pleased

to present BUFFERING: Unshared Tales of a Life Fully Loaded! As a big fan of memoirs, I wanted to try my hand at writing about the events of my life that deserve a little more consideration than can be accomplished in 140-characters or a 6-minute vlog. Now on the cusp of turning 30, I'm ready to expose some parts of my life that I haven't shared before. Before, it was all about privacy, process and time. And now the time has come! I'm ready to put myself out there, for you. I'm a little nervous about all these vulnerable words going into the world, these tales about my love life, the wrestling I've done with faith, how I feel about sex and my family and myself. I've had a lot of trials, a lot of errors, but also a lot of passion. Here's the thing - I've always found comfort in the stories shared by others, so I hope my stories, now that I feel ready to tell them, will bring you some comfort too. And when you read this book please remember: Buffering is just the time it takes to process. Enjoy! Love, Hannah

Don't Stick Your Dick in a Blender - Jonathan Roseland 2020-09-21

Women are dangerous. Good, yet naive, men routinely wreck their lives because they “stick their dick in a blender” — having sex with the wrong kinds of women. STDs, unplanned pregnancies, false accusations, mental health headcases, and divorce make chasing skirts a dangerous game. While lesser men retreat from the pursuit of women into the pixel-powered pleasure world, you have faith that your hunt for a virtuous woman will be fruitful. You can't take a time-machine back to a more decent age to find a marriageable woman. You're not ready to give up on your genetic purpose and start banging sex robots, but you're tired of the transient, meaningless flings with mediocre women. You're likely underestimating just how risky sex, a relationship, or marriage is with the modern woman. But you're also underestimating just how rewarding it is to win the commitment of “a nice girl” — a truly feminine woman, not at war with the natural order — and intertwine your essence with hers. “Don't Stick Your Dick in a Blender” is an irreverent, politically incorrect exposition of the state of dating in the current year. And a playbook of counter-intuitive approaches, advanced social dynamics lifehacks, along with filtering strategies for avoiding the time-wasters and inglorious skanks. How to meet a nice girl... Meeting a wife-material woman - Yes, it's still possible! Dating post-COVID-19 - The global pandemic/plandemic has changed the game, you must adapt. The truth about marrying an exotic foreign woman - Is it for you? Online dating - Navigating the digital minefield of fakers, flakes, liars, and scams. Mindset demystified - Deprogramming the mainstream (and counter-culture) mindsets that cost you love. Dating abroad - How to do it without getting royally screwed. Avoiding the friend zone - Advanced persuasion and sexual signaling methods. Seducing a virgin - Why this really matters and how to do it... Eliciting yielding Yin energy - Inspiring a woman to adopt your values. Cultivating her devotion - Get laid like a “lover” and get respect like a patriarchal provider. Tantric “sex hacks” - Up your bedroom skills with an arsenal of holistic biohacks (both ancient and cutting-edge) for life-changing sex. Losing your virginity - Perhaps you're a

frustrated virgin or “Incel” disappointed with all the crappy advice about how to lose your virginity. 33 steps are broken down for meaningfully losing your virginity. And in these pages, you’ll get the “red pills” on dating, sex, and the fairer sex without the hopelessness and cynicism. You’ll learn about the four red flags of a “blender” — deal-breakers that should make you back away slowly from a woman. You’ll learn what qualifies as a virtuous woman who you might have a future with. And, why there’s a lot of reasons to be optimistic about finding love and even getting married one day. This book is also a story of hope and redemption, the memoir of a reformed pickup artist who “enjoyed the decline” all the way from America and Colombia to Ukraine and found edifying joy and meaning between the voluptuous thighs of a beautiful Bulgarian woman on the edge of Europe.

Doing It - Hannah Witton 2017-04-06

Book of the Year at the Summer in the City Awards 2017 Sexting. Virginity. Consent. The Big O ... Let's face it, doing it can be tricky. I don't know anyone (including myself) who has sex all figured out. So I've written a book full of honest, hilarious (and sometimes awkward) anecdotes, confessions and revelations. And because none of us have all the answers, I've invited some friends and fellow YouTubers to talk about their sexuality, too. My book is for everyone, no matter what gender you identify as or who you fancy. We talk about doing it safely. Doing it joyfully. Doing it when you're ready. Not doing it. Basically, doing it the way you want, when you want. So. Let's do this ... ----- Doing It candidly and openly explores topics like masturbation, slut-shaming, pornography and consent, as well as how to maintain healthy relationships in a digital age.

Reframing Sex - Stevie N. Berberick 2020-11-02

This book is an exploration of both mainstream and independent media. Grounded in qualitative methods, this book explores three trans masculine run YouTube channels alongside the streaming productions: *The Chilling Adventures of Sabrina*, *Orange is the New Black*, and *Transparent*. Analyzing and contrasting these narratives illuminates how even the most progressive of pop culture productions fail to present multi-dimensional transgender narratives, thereby intensifying stigma and shame for those outside of the binary (male or female, man or woman, gay or straight). In contrast, trans masculine produced YouTube vlogs, such as those discussed in this book, can help audience members unlearn the ways in which the continuum of sex, gender, and sexual orientation has been simplified and obscured through corporate media. These vlogs thus exemplify the various ways in which independent media acts as an educational tool toward greater awareness, and perhaps empathy, of/for the self

and others in regards to sexual identity.
