Being of Two Minds - Jonathan Goldberg
2022-09-06

Being of Two Minds examines the place that early modern literature held in Modernist literary criticism. For T. S. Eliot, Virginia Woolf, and William Empson, the early modern period helps model a literary future. At stake in their engagements across time were ontological questions about literature and its ability to

mediate between the one and the many, the particular and the general, life and death, the past and the present. If reading and writing literature enables the mind to be in two places at once, creative experience serves as a way to participate in an expanded field of consciousness alongside mortality. Goldberg reads the readings that these modernists performed on texts that Eliot claimed for the canon like the metaphysical

poets and Jacobean dramatists, but also Shakespeare, Milton, Montaigne, and Margaret Cavendish. Ontological concerns are reflected in Eliot's engagement with Aristotle's theory of the soul and Empson's Buddhism. These arguments about being affect minds and bodies and call into question sexual normativity: Eliot glances at a sodomitical male-male mode of literary transmission; Woolf produces a Judith Shakespeare to model androgynous being; Empson refuses to distinguish activity from passivity to rewrite gender difference. The work of one of our leading literary and cultural critics, *Being of Two Minds* spans centuries to show how the most compelling and surprising ideas about mind, experience, and existence not only move between early modernity, high modernism, and our own moment, but are also constituted through that very movement between times and minds.

[An Introduction to Queer Literary Studies](#) - Will Stockton 2022-11-01

An Introduction to Queer Literary Studies: Reading Queerly is the first introduction to queer theory written especially for students of literature. Tracking the emergence of queer theory out of gay and lesbian studies, this book pays unique attention to how queer scholars have read some of the most well-known works in the English language. Organized thematically, this book explores queer theoretical treatments of sexual identity, gender and sexual norms and normativity, negativity and utopianism, economics and neoliberalism, and AIDS activism and disability. Each chapter expounds upon

foundational works in queer theory by scholars including Michel Foucault, Eve Kosofsky Sedgwick, and Lee Edelman. Each chapter also offers readings of primary texts -ranging from the highly canonical, like John Milton's Paradise Lost, to more contemporary works of popular fiction, like Stephen King's 'Salem's Lot. Along the way, An Introduction to Queer Literary Studies: Reading Queerly demonstrates how queer reading methods work alongside other methods like feminism, historicism, deconstruction, and psychoanalysis. By modelling queer readings, this book invites literature students to develop queer readings of their own. It also suggests that reading queerly is not simply a matter of reading work written by queer people. Queer reading attunes us to the queerness of even the most straightforward text.

Rogue Sexuality in Early Modern English Literature - Ari Friedlander 2023-01-17

The "rogue," a term that described criminals, prostitutes, vagrants, beggars, and the

unemployed, dominated the pages of early modern popular crime literature. Rogue Sexuality resituates the rogue by focusing on how their menace—and their seductive appeal—emerged not only from their social marginality, but also from their supposedly excessive sexuality and prodigious sexual reproduction. Through discussions of both familiar and little-studied early modern works by William Shakespeare, John Milton, Ben Jonson, Thomas Middleton, Thomas Dekker, Robert Greene, Thomas Harman, and the inventor of modern demography John Graunt, this volume posits the sexualized rogue as the avatar of a new category of "socio-sexual identity" and traces a surprising social transposition, in which socio-political elites are portrayed as appropriating the rogue's sexual vitality and performative charisma to navigate moments of crisis. By tracking the movement of rogue sexuality from a criminal to a normative discursive register, this book challenges the

distinctions that literary critics and historians tend to draw between orderly and disorderly sexuality. With its focus on reproduction, rogue sexuality also provides a new framework for what Michel Foucault called "biopolitics," the state's focus on exercising power over life. In legal, administrative, and scientific documents, this book shows that early modern writers grappled with popular pamphlets' rendering of the alleged threat of rogue reproduction. Rogue Sexuality thus offers a new approach to the political history of early modern England as a population—as a people whose aggregate sexual life and reproduction were a key part of its political imagination.

Christianity and Sexuality in the Early Modern World - Merry Wiesner-Hanks 2005-06-20

aspects of sexuality. The book ranges over developments within Europe and beyond to the European colonies including Brazil, Mexico, South Africa and Goa, which were establishing themselves around the world. Christian missionaries and rituals and structures accompanied all of the imperial powers and the control of the sexuality of both indigenous peoples and colonists was an essential part of policy. The book is introduced with a clear, original and engaging account of the central concepts in the study of sexuality in Christianity, such as shame, sin, the body, marriage and gender. Drawing on diverse evidence including literary, medical and historical the following sections chart changes in Western Christianity in the Late Middle Ages, Protestantism and Catholicism in Europe, Orthodoxy in Eastern Europe and Russia, and finally the Spanish, Portuguese, English and Dutch Colonies. Merry Wiesner-Hanks exciting book covers both the ideas and effects in each period. Christianity and

Sexuality in the early Modern World includes discursive bibliographies which discuss major books and articles at the end of each chapter. Prose Fiction and Early Modern Sexuality, 1570-1640 - C. Relihan 2016-09-23 Prose Fiction and Early Modern Sexuality, 1570-1640 brings together twelve new essays which situate the arguments about the multiple constructions of sexualities in prose fiction within contemporary critical debates about the body, gender, desire, print culture, postcoloniality, and cultural geography. Looking at Sidney's Arcadia , Wroth's Urania , Lyly's Euphues ; fictions by Gascoigne, Riche, Parry, and Brathwaite; as well as Hellenic romances, rogue fictions, and novelle, the essays expand and challenge current critical arguments about the gendering of labour, female eroticism, queer masculinity, sodomy, male friendship, cross-dressing, heteroeroticism, incest, and the gendering of poetic creativity.

The Seeds of Things - Jonathan Goldberg
2009-08-25

The title of this book translates one of the many ways in which Lucretius names the basic matter from which the world is made in *De rerum natura*. In Lucretius, and in the strain of thought followed in this study, matter is always in motion, always differing from itself and yet always also made of the same stuff. From the pious Lucy Hutchinson's all but complete translation of the Roman epic poem to Margaret Cavendish's repudiation of atomism (but not of its fundamental problematic of sameness and difference), a central concern of this book is how a thoroughgoing materialism can be read alongside other strains in the thought of the

early modern period, particularly Christianity. A chapter moves from Milton's monism to his angels and their insistent corporeality. Milton's angels have sex, and, throughout, this study emphasizes the consequences for thinking about sexuality offered by Lucretian materialism. Sameness of matter is not simply a question of same-sex sex, and the relations of atoms in Cavendish and Hutchinson are replicated in the terms in which they imagine marriages of partners who are also their doubles. Likewise, Spenser's knights in the 1590 *Faerie Queene* pursue the virtues of Holiness, Temperance, and Chastity in quests that take the reader on a path of askesis of the kind that Lucretius recommends and that Foucault studied in the final volumes of his history of sexuality. Although English literature is the book's main concern, it first contemplates relations between Lucretian matter and Pauline flesh by way of Tintoretto's painting *The Conversion of St. Paul*. Theoretical issues raised in the work of Agamben and

Badiou, among others, lead to a chapter that takes up the role that Lucretius has played in theory, from Bergson and Marx to Foucault and Deleuze. This study should be of concern to students of religion, philosophy, gender, and sexuality, especially as they impinge on questions of representation.

Desiring Women Writing - Jonathan Goldberg
1997

In a set of readings ranging from early-sixteenth-through late-seventeenth-century texts, this book aims to resituate women's writing in the English Renaissance by studying the possibilities available to these writers by virtue of their positions in their culture and by their articulation of a variety of desires (including the desire to write) not bound by the usual prescriptions that limited women. The book is in three parts. The first part begins by pursuing linkages between feminine virtue and the canonical status of texts written by women of the period. It then confronts some received opinions

and opens up new possibilities of evaluation through readings of Aemelia Lanyer's *Salve Deus Rex Judaeorum* and poems, plays, and fiction by Aphra Behn. The second part studies translation as an allowed (and therefore potentially devalued) sphere for women's writing, and offers accounts of Margaret Roper's translation of Erasmus and Mary Sidney's of Petrarch to show ways in which such work makes a central claim in Renaissance culture. In the third part, the author explores the thematics and practices of writing as exemplified in the women's hands in an early Tudor manuscript and through the character of Graphina in Elizabeth Cary's *Mariam*. Throughout, possibilities for these writers are seen to arise from the conjunction of their gender with their status as aristocrats or from their proximity to centers of power, even if this involves the "debasement" of prostitution for Lanyer or the perils of the marketplace for Behn. The author argues that moves outside the

restriction of domesticity opened up opportunities for affirming female sexuality and for a range of desires not confined to marriage and procreation—desires that move across race in Oroonoko; that imagine female same-gender relations, often in proximity to male desires directed at other men; that implicate incestuous desires, even inflecting them anally, as in Roper's Devout Treatise.

Queering the Renaissance - Jonathan Goldberg 1994

This book redraws the map of sexuality and gender studies in the Renaissance, moving beyond limiting notions of identity politics by historically locating forms of same-sex desire that are not organized in terms of modern definitions of homosexual and heterosexual.

Genders 21 - Carol Siegel 1995-07

Forming and Reforming Identity exposes the historical sites of identity formation and seeks to define the mechanisms of modern-day gender ideologies. Illuminating the power of the family

and state in shaping gender identities, the book also examines the constitution of these identities. Each chapter reveals the complexities and contradictions that inevitably accompany the formation of any new category of identity, whether they are deliberately restrictive or intended as a reformation of the old. The volume moves, as gender construction does, across a field of different media: novels, plays, teleplays, films, official documents, political theory, and advertisements. Four sections—REMODELING WOMAN; REBELLING MAN; HOMEMADE IDENTITIES; and FEMINISMS THAT MAKE (A) DIFFERENCE—address such subjects as the representation of American women in the 1950s; nationalism and respectable sexuality in India; women, Hollywood cinema, and World War II; compulsory heterophobia; and the televising of AIDS.

homoeroticism and social power in a range of literary and historical texts from the 1580s to the 1620s, drawing on insights from materialist, queer and feminist theory to show the centrality of homoerotic practices.

Textual Practice - Lindsay Deputy Editor: Smith 2006-02

First published in 1995. Routledge is an imprint of Taylor & Francis, an informa company.

Shakespeareer - Madhavi Menon 2011-02
Shakespeareer puts the most exciting queer theorists in conversation with the complete works of William Shakespeare. Exploring what is odd, eccentric, and unexpected in the Bard's plays and poems, these theorists highlight not only the many ways that Shakespeare can be queered but also the many ways that Shakespeare can enrich queer theory. This innovative anthology reveals an early modern playwright insistently returning to questions of language, identity, and temporality, themes central to contemporary queer theory. Since

many of the contributors do not study early modern literature, Shakespeareer takes queer theory back and brings Shakespeare forward, challenging the chronological confinement of queer theory to the last two hundred years. The book also challenges conceptual certainties that have narrowly equated queerness with homosexuality. Chasing all manner of stray desires through every one of Shakespeare's plays and poems, the contributors cross temporal, animal, theoretical, and sexual boundaries with abandon. Claiming adherence to no one school of thought, the essays consider *The Winter's Tale* alongside network TV, *Hamlet* in relation to the death drive, *King John* as a history of queer theory, and *Much Ado About Nothing* in tune with a Sondheim musical. Together they expand the reach of queerness and queer critique across chronologies, methodologies, and bodies. Contributors. Sexuality and Form - Graham L. Hammill

2002-12-15

This ambitious, wide-ranging study of sexuality, aesthetics, and epistemology covers everything from the aesthetics of war to the works of Caravaggio, Michaelangelo, Christopher Marlowe, and Francis Bacon, synthesizing queer

theory and psychoanalysis and demonstrating the role of the body and the flesh as both a problem and a promise within the narrative arts.

This Distracted Globe - Jonathan Goldberg

2016-04-01

Worldmaking takes many forms in early modern literature and thus challenges any single interpretive approach. The essays in this collection investigate the material stuff of the world in Spenser, Cary, and Marlowe; the sociable bonds of authorship, sexuality, and sovereignty in Shakespeare and others; and the universal status of spirit, gender, and empire in the worlds of Vaughan, Donne, and the dastan (tale) of Chouboli, a Rajasthani princess.

Together, these essays make the case that to address what it takes to make a world in the early modern period requires the kinds of thinking exemplified by theory.

works by Shakespeare, Marlowe, Spenser and others - it is framed by more recent political considerations. The book takes as axiomatic that Foucault's description of sodomy as that utterly confused category, which he assigned to historic regimes before the advent of sexuality, applies not only to Renaissance texts but to modern situations as well. The analyses of literary texts engage the most advanced work in contemporary literary criticism (that done by feminist and New Historicist critics) and propose a gay studies perspective that necessarily complicates and enriches the discussions of gender and history. Goldberg brings rigorous scholarship to bear on a powerful contemporary polemic about the ways in which a past that never was is used to justify the repression of gay sexuality today.

Premodern Sexualities - Louise Fradenburg
2013-12-02

Premodern Sexualities offers rigorous new approaches to current problems in the

historiography of sexuality. From queer readings of early modern medical texts to transcribing and interrogating premodern documents of sexual transgression, the contributors bring together current theoretical discourses on sexuality while emphasizing problems in the historicist interpretation of early textualizations of sexuality. Premodern Sexualities clarifies the contributions literary studies can make--through its emphasis on reading strategies--to the historiography of sexuality.

perspectives on the commercial and cross-cultural interactions of the sixteenth and seventeenth centuries. Covering a uniquely broad range of literary and cultural materials, historical contexts, and geographical regions, the Companion's varied chapters offer interdisciplinary perspectives on the implications of early modern concepts of commerce, material and artistic culture, sexual and cross-racial encounters, conquest and enslavement, social, artistic, and religious cross-pollinations, geographical "discoveries," and more. Building upon the success of its predecessor, this second edition of *A Companion to the Global Renaissance* radically extends its scope by moving beyond England and English culture. Newly-commissioned essays investigate intercultural and intra-cultural exchanges, transactions, and encounters involving England, European powers, Eastern kingdoms, Africa, Islamic empires, and the Americas, within cross-disciplinary frameworks. Offering a complex and

multifaceted view of early modern globalization, this new edition: Demonstrates the continuing global "turn" in Early Modern Studies through original essays exploring interconnected exchanges, transactions, and encounters Provides significantly expanded coverage of global interactions involving England, European powers such as Portugal, Spain, and The Netherlands, Eastern empires such as Japan, and the Ottoman, Safavid, and Mughal empires Includes a Preface and Afterword, as well as a revised and expanded Introduction summarizing the evolving field of Global Early Modern Studies and describing the motifs and methodologies informing the essays within the volume Explores an array of new subjects, including an exceptional woman traveler in Eurasia, the Jesuit presence in Mughal India and sixteenth-century Japan, the influence of Mughal art on an Amsterdam painter-cum-poet, the cultural impact of Eastern trade on plays and entertainments in early modern London, Safavid
