Introducing Tantra into your love life is incredibly easy to do; however, it must first be discussed openly and honestly with your mate. True Tantra is rooted in trust and utter devotion to your partner, and if your partner is not entirely on board to bring Tantra practice into your love lives, the experience can not truly be implemented into the relationship. Speak from your

heart about what Tantra is, and why you feel you would like to begin practicing it together, and how it can strengthen the bonds of which are shared between the two of you in your relationship. Once you have both honestly opened your hearts about Tantra, and are ready to incorporate it into your love making, you may proceed to do so with transitional ease.

problems to developing a sense of spiritual connection, Tantra is for every 'body'. Tantra is not just about being sexy - it's about being alive to your senses. It is particularly appealing to women because it is they who take the lead. Tantra also gives women the opportunity to celebrate their femininity and men are encouraged to revere it. Many women are self-conscious about their bodies - Tantra will help you to be conscious of your body but in a positive and empowering way. And for men the pressure to perform is removed, replaced by reciprocity, connection and ultimate fulfillment (so no more grunting, turning over and falling asleep).
