

The Law Of Sex Discrimination 4th Edition

Theorizing Backlash - Anita M. Superson 2002

Contrary to the popular belief that feminism has gained a foothold in the many disciplines of the academy, the essays collected in *Theorizing Backlash* argue that feminism is still actively resisted in mainstream academia. Contributors to this volume consider the professional, philosophical, and personal backlashes against feminist thought, and reflect upon their ramifications. The conclusion is that the disdain and irrational resentment of feminism, even in higher education, amounts to a backlash against progress.

The Rights of Women - Lenora M. Lapidus 2009-04

The Rights of Women is a comprehensive guide that explains in detail the rights of women under present U.S. law, and how these laws can be used in the continuing struggle to achieve full gender equality at home, in the workplace, at school, and in society at large. *The Rights of Women* explores the concept of equal protection and covers topics including employment, education, housing, and public accommodations. This handbook also examines the specific issues of trafficking, violence against women, welfare reform, and reproductive freedom. Using a straightforward question-and-answer format while translating the law into accessible language, this volume is a tool for individuals, lawyers, and advocates seeking to assert women's rights under the law. Now in its fully revised and updated fourth edition, *The Rights of Women* is an invaluable guide to finding legal solutions to the most pressing issues facing women today.

Employment Law in Context - Brian Willey 2003

Employment law is a matter of increasing importance for managers and human resource professionals. Approaching the subject from a human resources rather than a law perspective, this book aims to inform about the context in which employment law is enacted and promotes understanding of: the application of the law to HRM, the social purposes behind the legislation, and the contextual issues that affect the implementation of the law.

Sexuality, Gender, and the Law - William N. Eskridge (Jr.) 2004

Eskridge and Hunter's *Sexuality, Gender and the Law* provides detailed information on the sexuality, gender, and the law. It covers the rapidly developing field of transgender law as well as federal court developments in the areas of same-sex sexual harassment, discrimination against transgendered persons as gender discrimination, and pregnancy discrimination and legally defining gender. Specific court decisions on custody, sexual orientation discrimination in jury selection, and gender identity are included and there is an appendix with an annotated list of the best web sites for research on issues of sexuality and gender law.

Work Law - Marion G. Crain 2020-07-03

Sexuality, Gender, and the Law - William Eskridge Jr. 2022-12-12

This casebook offers professors and students a doctrinally comprehensive, theoretically ambitious, and up-to-date exploration of the treatment of sexuality and gender issues in American public law. The Fifth Edition opens with the historically grounded first chapter from earlier editions, which maps the three primary constitutional themes of

liberty, equality, and expression through the end of the twentieth century. Throughout, the book fully integrates the ramifications stemming from the latest court decisions, including *Dobbs v. Jackson Women's Health Organization* and new religious liberty decisions and debates. Highlights of the Fifth Edition include: A probing of where the Court's turn in recent years toward an equal liberty analysis stands in the wake of *Dobbs*, including threats posed by the reversal of *Roe v. Wade* and *Planned Parenthood v. Casey* to the doctrinal foundations of *Lawrence v. Texas* and *Obergefell v. Hodges*. The increasing prominence of the argument that discrimination against lesbian, gay, bisexual, transgender and queer-identified persons constitutes discrimination "because of sex," as recognized by the Supreme Court's opinion in *Bostock v. Clayton County, Georgia*, interpreting Title VII, and the related question of how *Bostock* will affect interpretation of the Equal Protection Clause and other antidiscrimination statutes. Increased coverage of how the First Amendment and the Religious Freedom Restoration Act are being deployed aggressively by the Supreme Court to carve out exemptions and allowances for individuals, companies, and religious institutions to discriminate against women and LGBTQ persons. Examples include questions such as whether *Fulton v. Philadelphia* limits or partially overrules *Obergefell* by requiring a government program to discriminate against same-sex married couples and the extent to which expansion of "the ministerial exception" undermines workplace protections. The book's distinctive fourth chapter introduces the student to natural law theory (which is on the upswing in federal courts), feminist and other liberal theories, and postmodern theories claiming that what many people treat as inflexible and natural are actually contingent, socially constructed, and dynamic. Increased coverage of issues related to transgender people in a range of contexts, including custody and visitation actions involving transgender parents or transgender children, schools and the workplace, on athletic teams, in the military, and in prisons. The Fifth Edition expands upon the book's distinctive integration of sexuality and gender issues and increases coverage of the racialization of these dynamics in American law. From its first edition, this casebook

has prioritized inclusion of the perspectives of transgender and intersex persons, as well as lesbians and straight women, gay men, and bisexuals of different races and ethnicities. In addition to the opening segments focused on constitutional law and theory, the remaining chapters contain the most comprehensive and deepest coverage available of sexuality and gender issues in the workplace, the family, schools, the armed forces, and prisons.

[The Dynamics of Managing Diversity](#) - Gill Kirton 2015-07-24

The Dynamics of Managing Diversity was one of the first books to respond to growing academic coverage of the topic of diversity management at degree level. This fourth edition has been fully updated to reflect new working practices, statistical information and developments in equality and diversity law, as well as including new case studies and analysis of current and emerging areas of debate in the UK and across Europe. Diversity management is a term that covers not only race, disability and sex discrimination, but also broader issues such as individual and cultural differences. *The Dynamics of Managing Diversity*, fourth edition, provides HR and business managers of the future with the legal information and research findings to enable them to develop meaningful diversity policies in their organizations. This new edition offers:

- Coverage of topical areas such as female representation on executive boards, religious diversity, and economic migration following EU enlargement
- Multiple analytical perspectives, such as socio-legal and feminist approaches, to provide rich insights to the subject matter
- Practical case studies to illustrate the real-life issues in a local, international and organizational context

Kirton and Greene present the subject of diversity management in a logical and structured manner, beginning each chapter with aims and objectives, and ending with discussion questions, making this book the perfect support resource for those teaching or studying in the field of equality and diversity.

Clinical Aspects of Sexual Harassment and Gender Discrimination

- Sharyn Ann Lenhart 2004-03-20

This book addresses the psychological impact of sexual harassment and gender discrimination from both a clinical and theoretical perspective,

whereas previous literature on the topic has emphasized legal and employment consequences. To start, Lenhart provides a comprehensive summary and integration of existing literature and discusses relevant aspects of the workplace and legal environments. The second portion of the book deals with the psychodynamics of sexual harassment and gender discrimination, placing these violations in proper psychological perspective, along the same lines as rape, battering and other forms of gender-based abuse. The wide spectrum of psychological consequences of discrimination will be discussed and an effective and integrative model for intervention and treatment will be presented.

Searching the Law, 3d Edition - Frank Bae 2021-12-13

The Constitutional and Legal Rights of Women - LESLIE F. GOLDSTEIN 2019-01-14

Authors Goldstein, Baer, Daum and Fine skillfully blend doctrinal and political developments to document and explain the evolution of women's rights and the law as well as the dynamics and dissension among feminist activists. Building on three previous editions, this book combines updated material on constitutional law, sex and gender discrimination, and women's reproductive rights, with new cases and readings on family law, criminal law, and LGBT rights. Discussion has been expanded to include questions of whether or not the prohibitions on sex discrimination in Title VII and Title IX protect trans individuals. New material covers emerging policy concerns such as female genital mutilation, child marriage, and the Trump Administration's policy changes on gender issues. This edition takes a more socio-political and institutional approach than other books on women and the law. The authors consider issues such as institutional questions of constitutional interpretation, the scope of judicial power, the balance of federal-state power, the interaction between law and other social and political institutions, the capacity of law to effect societal change, and the effect of presidential and Senate politics on U.S. Supreme Court nominations and confirmations. The inclusion of state and lower federal court decisions greatly strengthens the book's focus on the law's relationship

to gendered inequality. Topics also include constitutional history, shifting interpretations of employment discrimination and gender equality, changes in reproductive technology and associated policy responses, divorce and dissolution of domestic partnerships, child custody, education, same-sex marriage, pornography, and domestic violence.
