

The Politics Of Same Sex Marriage

The Politics of Gay Marriage in Latin America - Jordi Díez
2015-05-05

Addressing one of the defining social issues of our time, *The Politics of Gay Marriage in Latin America* explores how and why Latin America, a culturally Catholic and historically conservative region, has become a leader among nations of the Global South, and even the Global North, in the passage of gay marriage legislation. In the first comparative study of its kind, Jordi Díez explains cross-national variation in the enactment of gay marriage in three countries: Argentina, Chile, and Mexico. Based on extensive interviews in the three countries, Díez argues that three main key factors explain variation in policy outcomes across these cases:

the strength of social movement networks forged by activists in favor of gay marriage; the access to policy making afforded by particular national political institutions; and the resonance of the frames used to demand the expansion of marriage rights to same-sex couples.

Same-sex Marriage in the United States - Jason Pierceson 2014

Same-Sex Marriage in the United States tells the story of the legal and cultural shift, its backlash, and how it has evolved over the past 15 years. Same-sex Marriage in the United States - Sean Cahill 2004

The rhetoric and emotion surrounding the same-sex marriage debate tends to obscure the facts and figures. Tracing the development of

same-sex marriage in the United States and its deployment as a political tool, Sean Cahill lays out the current situation in plain language and explains what's at stake.

Same-Sex Marriage - Kathleen Hull 2006-02-16

Kathleen Hull provides an exploration of the cultural practices around same-sex marriage, as well as the legal battle for recognition. She shows how couples use marriage-related cultural practices, such as public commitment rituals, to assert the reality of their commitments despite lack of legal recognition.

The Politics of Same-Sex Marriage - Craig A.

Rimmerman 2007-10
Publisher description

The Trouble with Normal - Michael Warner 2000

Michael Warner, one of our most brilliant social critics, argues that gay marriage and other moves toward normalcy are bad not just for the gays but for everyone. In place of sexual status quo, Warner offers a vision of true sexual

autonomy that will forever change the way we think about sex, shame, and identity.

Moral Argument, Religion, and Same-sex Marriage - Gordon Albert Babst 2009

A collection of essays in which contributors from the fields of law and politics use moral argumentation to address same-sex marriage, gay rights, and California's Proposition 8.

The Marrying Kind? - Mary Bernstein 2013-05-16

As the fight for same-sex marriage rages across the United States and lesbian and gay couples rush to marriage license counters, the goal of marriage is still fiercely questioned within the LGBT movement. Rarely has an objective so central to a social movement's political agenda been so controversial within the movement itself. While antigay forces work to restrict marriage to one man and one woman, lesbian and gay activists are passionately arguing about the desirability, viability, and social consequences of same-sex marriage. *The Marrying Kind?*

is the first book to draw on empirical research to examine these debates and how they are affecting marriage equality campaigns. The essays in this volume analyze the rhetoric, strategies, and makeup of the LGBT social movement organizations pushing for same-sex marriage, and address the dire predictions of some LGBT commentators that same-sex marriage will spell the end of queer identity and community. Case studies from California, Connecticut, Massachusetts, New Jersey, Oklahoma, Vermont, and Canada illuminate the complicated politics of same-sex marriage, making clear that the current disagreements among LGBT activists over whether marriage is conforming or transformative are far too simplistic. Instead, the impact of the marriage equality movement is complex and often contradictory, neither fully assimilationist nor fully oppositional.

The Limits to Union -
Jonathan Goldberg-Hiller
2004-07-20

Revised and updated to include the most current information on same-sex marriage, *The Limits to Union* documents a legal struggle at its moment of greatest historical importance. "The Limits to Union is a superb book about the complexities of recent political struggles over same-sex marriage. Goldberg-Hiller offers a sophisticated account of egalitarian rights advocacy and the reaction it has generated from established majorities animated by a 'new common sense' of exclusionary sovereign authority. The author's analysis is

Downloaded from
legacy.opendemocracy.net
on 2022-07-08 by guest

multidimensional and nuanced, but the core argument is bold, important, and well-supported. I recommend it very highly to everyone interested in understanding the character, possibilities, and constraints of civil rights amid our contemporary culture wars." - Michael McCann, author of *Rights at Work: Pay Equity Reform and the Politics of Legal Mobilization* "In this excellent book, Goldberg-Hiller uses Hawaii's experience to examine the interaction between courts and the political system. . . . Relying on briefs, legislative statements, and interviews with activists from both sides of the question, he views this familiar debate . . . through the unfamiliar prism of gay marriage, which allows him to gauge the viability and the pliability of the American civil rights ideal, and how gay and lesbian issues fit (or don't fit) within that ideal." -William Heinzen, *New York Law Journal* "Goldberg-Hiller presents the history of the same-sex marriage question since it first sparked debate in

Hawaii. He follows the shifting debate through court cases, state propositions, and state and federal legislatures, considering questions about the constitutionality of the Defense of Marriage Act and the concept of equal protection under the law for gays and lesbians. This detailed treatment of the legal issues surrounding same-sex marriages is highly recommended." -R. L. Abbott, *University of Evansville* "[A] valuable contribution to the field, situating the gay marriage debate in broader contexts of theory, law and practice. [S]ame-sex marriage is an important issue...that finds itself caught in the friction points of much larger debates over the nature of rights, the limits of sovereignty and the proper role of courts and law in a democratic society. The Limits to Union should therefore be of interest even to those who do not think of themselves as interested in gay and lesbian rights issues." - Evan Gerstmann, *Loyola Marymount University, Law*

and Politics Book Review
Radical Challenges to the
Family - Ashley Lavelle
2016-03-03

Defending the nuclear family and extolling 'family values' have long been central features of politics in capitalist societies, in spite of radical left challenges from social, counter-cultural and gay rights movements. This book examines these challenges as they emerged in the 1960s and 1970s, re-appraising their relevance in the light of recent developments, including the spread of more diverse family forms and the rise of the same-sex marriage movement. Drawing on archival research in the US, UK and Australia, the author asks what the emergence of same-sex marriage movements and legislation mean for challenges to the nuclear family in the light of an original general hostility to marriage and family structures in the gay liberation movement, whilst considering the extent to which the nuclear family might be included in the list of social and economic

institutions subject to criticism on the part of more recent anti-capitalist movements, such as Occupy. A detailed study of the extent to which the nuclear family remains susceptible to the radical critiques of the last century, *Radical Challenges to the Family* examines whether the original challenges shed light on ensuring social problems, including domestic violence, child abuse, homophobia, and growing marital dissatisfaction. As such, it will appeal to scholars of sociology and politics with interests in gender and sexuality, the sociology of the family and feminist thought. *LGBT-Q Teachers, Civil Partnership and Same-Sex Marriage* - Aoife Neary
2016-12-01

The introduction of legislative structures for same-sex relationships provides a new lens for grappling with the politics of sexuality in schools and society. The emergence of civil partnership and same-sex marriage in Ireland brings to the fore international debates around public intimacy,

Downloaded from

on 2022-07-08 by guest

religion in the public sphere, secularism and the politics of sexuality equality. Building on queer, feminist and affect theory in innovative ways, this book offers insight into the everyday negotiations of LGBT-Q teachers as they operate between and across the intersecting fields of education, religion and LGBT-Q politics. Neary illustrates the complexity of negotiating personal and professional identities for LGBT-Q teachers. *Global Perspectives on Same-Sex Marriage* - Bronwyn Winter 2017-11-08

This book provides a comparative, neo-institutionalist approach to the different factors impacting state adoption of—or refusal to adopt—same-sex marriage laws. The now twenty-one countries where lesbians and gay men can legally marry include recent or longstanding democracies, republics and parliamentary monarchies, and unitary and federal states. They all reflect different positions with respect to religion and the cultural

foundations of the nation. Countries opposed to such legalization, and those having taken measures in recent years to legally reinforce the heterosexual fundamentals of marriage, present a similar diversity. This diversity, in a globalized context where the idea of same-sex marriage has become integral to claims for LGBTI equality and indeed LGBTI human rights, gives rise to the following question: which factors contribute to institutionalizing same-sex marriage? The analytical framework used for exploring these factors in this book is neo-institutionalism. Through three neo-institutionalist lenses—historical, sociological and discursive—contributors investigate two aspects of the processes of adoption or opposition of equal recognition of same-sex partnerships. Firstly, they reveal how claims by LGBTIQ movements are being framed politically and brought to parliamentary politics. Secondly, they explore the ways in which same-sex marriage becomes

institutionalized (or resisted) through legal and societal norms and practices. Although it adopts neo-institutionalism as its main theoretical framework, the book incorporates a broad range of perspectives, including scholarship on social movements, LGBTI rights, heterosexuality and social norms, and gender and politics.

Same Sex, Different Politics

- Gary Mucciaroni 2009-05-15

Why is it so much harder for American same-sex couples to get married than it is for them to adopt children? And why does our military prevent gays from serving openly even though jurisdictions nationwide continue to render such discrimination illegal?

Illuminating the conditions that engender these contradictory policies, *Same Sex, Different Politics* explains why gay rights advocates have achieved dramatically different levels of success from one policy area to another. The first book to compare results across a wide range of gay rights struggles, this volume explores debates

over laws governing military service, homosexual conduct, adoption, marriage and partner recognition, hate crimes, and civil rights. It reveals that in each area, the gay rights movement's achievements depend both on Americans' perceptions of its demands and on the political venue in which the conflict plays out. Adoption policy, for example, generally takes shape in a decentralized system of courts that enables couples to target sympathetic judges, while fights for gay marriage generally culminate in legislation or ballot referenda against which it is easier to mount opposition. Brilliantly synthesizing all the factors that contribute to each kind of outcome, *Same Sex, Different Politics* establishes a new framework for understanding the trajectory of a movement.

Same-Sex Marriage in the

Americas - Jason Pierceson

2010-04-13

This book explores policy innovation for same-sex couples throughout the Americas and includes same-

sex marriage legislation, civil unions, and other new developments for same-sex couples throughout the Americas at both national and sub-national levels. This scholarship is innovative because though much has been written regarding developments in North America, there is very little work dealing with recent developments in the rest of the Americas.

Equal Ever After - Lynne Featherstone 2016-01-26
"My story starts at the very end of the journey to equal marriage rights. I stand on the shoulders of giants..." In the future, people will find it difficult to believe that until 2014, somewhere between 5 and 10 per cent of Britain's population were excluded from marriage. As Equalities Minister during the coalition government, Lynne Featherstone played a fundamental role in rectifying this. From setting the wheels in motion within government, to her experiences of the abuse with which the gay community

is regularly confronted, through her rebuttals against the noise and fury of her opponents, and finally to the making of history, Lynne details the surprising twists and turns of the fight. Filled with astonishing revelations about finding allies in unexpected places and encountering resistance from unforeseen foes, *Equal Ever After* is an honest account of one woman's pivotal efforts during the turbulent final mile. This is real, lived history - recent history. Many of us celebrated on the day the dream became reality; many of us know people whose lives were changed by the events described here. In this inside story, Lynne reveals the emotional lows and the exhilarating highs involved in turning hard-won social acceptance into tangible legal equality.

A Time to Embrace - William Stacy Johnson 2012-06-30
In *A Time to Embrace* William Stacy Johnson brilliantly analyzes the religious, legal, and political debates about gay

marriage, civil unions, and committed gay couples. This new edition includes updates that reflect the many changes in laws pertaining to civil unions / same-sex marriage since 2006.

America's Struggle for Same-Sex Marriage - Daniel R. Pinello 2006-05-22

This book chronicles the evolution of the social movement for same-sex marriage in the United States.

The Engagement - Sasha Issenberg 2021-06-01

A NEW YORK TIMES NOTABLE BOOK OF THE YEAR • The riveting story of the conflict over same-sex marriage in the United States—the most significant civil rights breakthrough of the new millennium "Full of intimate details, battling personalities, heated court cases, public persuasion." —John Williams, The New York Times On June 26, 2015, the U.S. Supreme Court ruled that state bans on gay marriage were unconstitutional, making same-sex unions legal across the United States. But the road

to that momentous decision was much longer than many know. In this definitive account, Sasha Issenberg vividly guides us through same-sex marriage's unexpected path from the unimaginable to the inevitable. It is a story that begins in Hawaii in 1990, when a rivalry among local activists triggered a sequence of events that forced the state to justify excluding gay couples from marriage. In the White House, one president signed the Defense of Marriage Act, which elevated the matter to a national issue, and his successor tried to write it into the Constitution. Over twenty-five years, the debate played out across the country, from the first legal same-sex weddings in Massachusetts to the epic face-off over California's Proposition 8 and, finally, to the landmark Supreme Court decisions of *United States v. Windsor* and *Obergefell v. Hodges*. From churches to hedge funds, no corner of American life went untouched. This richly detailed narrative follows the coast-to-

coast conflict through courtrooms and war rooms, bedrooms and boardrooms, to shed light on every aspect of a political and legal controversy that divided Americans like no other. Following a cast of characters that includes those who sought their own right to wed, those who fought to protect the traditional definition of marriage, and those who changed their minds about it, *The Engagement* is certain to become a seminal book on the modern culture wars.

[The Political Economy of Same-Sex Marriage](#) - Bronwyn Winter
2020-12-29

Same-sex marriage is now legal in twenty-nine countries and the subject of continued debate around the world. *The Political Economy of Same-Sex Marriage: A Feminist Critique* considers this debate from a political economy perspective. Rather than engaging directly in the now well-rehearsed social-movement and academic for-and-against debates, this book focuses on processes of institutionalization of same-sex

marriage and so-called "rainbow families" within (neo)liberal capitalist democracies. It examines how states and markets appropriate same-sex marriage and family to enhance their own political and symbolic capital, consolidating power and profit within existing systems of gendered and raced socioeconomic stratification. Taking a radical feminist, heterodox, qualitative and intersectional approach, this book investigates the political economy of same-sex marriage across three axes: same-sex marriage as institution; same-sex marriage and the market; and the political economy of the "rainbow family". The examination of case studies from different countries and regions enables a comparative analysis that foregrounds cultural, political and economic path dependencies while at the same time highlighting a number of striking commonalities. In all the countries discussed in this book and in most respects, same-sex marriage has been

Downloaded from
legacy.opendemocracy.net
on 2022-07-08 by guest

integrated almost seamlessly into a mainstream/malestream political economy of marriage and family and its translation into added market and productive value. *The Political Economy of Same-Sex Marriage: A Feminist Critique* will be of use to researchers and students alike, and indeed to all those who are curious about the mainstreaming of

homosexuality within twenty-first-century capitalist democracies.

The Politics of Gay Marriage in Latin America - Jordi Dâiez
2015

Díez explores how and why Latin America has become a leader among nations in the passage of gay marriage legislation.
