[Coloniality in Discourse Studies](#) - Solange Maria de Barros 2022-08-29

The volume examines the discourse-based critique of coloniality. It brings together an extensive interdisciplinary dialogue that reveals what different research fields – such as sociology of language, social psychology, history and political science, among others – have to say about discourse criticism and de/coloniality. In doing so, it also invites a critique of critical thinking, acknowledging the relevance of dissonant voices that arise from this debate. The essays in this volume discuss possibilities to decolonize discursive studies without losing sight of its contradictions. The book delves into how one can, as an intellectual who enjoys the privileges of coloniality in academic environments of the Global North, deal with the limitations and paradox of a radical critique through discourse. It discusses how ideas, entrenched in privilege, can be extracted, shared and applied while ensuring the radicality of their local contextualization. These ideas then must not only make sense within themselves but also resonate with other contexts, readings and peoples, in the South, without repeating the mistakes of hermetic scholarly lexicons. A key reading on decoloniality, critical thinking, methodologies, ideas, ideologies, language and critical discourse analysis, this volume will be of immense interest to scholar and researchers of language and literature, political science, the social sciences and Global South Studies.

Shimmering Literacies - Bronwyn T. Williams 2009

This book examines the powerful role of popular culture in the daily online literacy practices of young people. Whether as subject matter, discourse, or through rhetorical patterns, popular culture dominates both the form and the content of online reading and writing. In order to understand not only how but why online technologies have changed literacy and popular culture practices, this book looks at online participatory popular culture from MySpace and Facebook pages to fan forums to fan fiction. Interviews

and observations reveal the skills and practices students develop, as they sit multitasking at their computers, across popular culture genres and electronic media. For educators, the book provides significant insights into popular culture literacy practices, thus illuminating how students are making meaning and performing identity every day as they read and write online.

Adam and Aira's relationship is in trouble and some of the children in the family needed a good whipping. Relationships become tore and the evilness of sin are upon them. One by one they struggle to understand the changes and how to effectively overcome any battle the world brings because they know money can't fix all their woes and sorrows. In the Arms of Baby Hop - Kenneth Attaway 2006-10

Many times in my adult life, I have had what I would call an "awake out-of-body experience." During these times, I was peeking in at my life in a dream state; thinking this cannot be my life. I found myself asking the questions of what happened to the child who outsmarted the world and what happened to the teen who had all the answers and confidence to boot, and the young adult who never settled for can't. Well, somewhere along the way, the only thing left of who I was once was, were just shreds of an almost non-existent life. Now, don't get me wrong, there were some good times along the way, but it certainly was not always smooth sailing. But what came later in life was no comparison to the early years. Not that long ago, my life was filled with disappointment, brokenness, worry, anxiety, and fear. I survived breakups and breakdowns, sadness and pain, grief and loss beyond description, all of which led to a one-way ticket to Depression Central. Getting off the road to depression was very difficult for me, but there is no job too hard for God. If you can relate to the paralyzing despair that I went through, then please know that I fellowship with you

and understand the grip depression and anxiety can have on your life. However, I want you to know that your destination does not have to be a one-way ticket to the land of despair, instead, your journey can bring you to a place of joy and peace if you simply trust and believe in God.

Cancer Is A Cage - Elizabeth Barry 2012-12

A first person account of a lost battle with Cancer. Elizabeth Barry's personal hand written journals describe her physical and emotional trials before and during her Lymphoma diagnosis and treatment. The book chronicles her thoughts, feelings and experiences in an unedited format. This is not the story that we often read of the smiling cancer survivor. The loss of her battle is a result that is often ignored in the big business of cancer fund raising, which seems to focus mostly on the "happy survivors", ignoring the devastating effects on patients and their families. The countless millions raised by well-meaning contributors continue to be poured into drug research rather than patient care, often at a rate of less than 50% of what is raised. Elizabeth's story reminds everyone that there are countless individuals suffering throughout the world, and it is the purpose of this book to focus more attention on the daily battles they wage against pain, fear and isolation.

Assessing Children in the Urban Community - Barbara L Mercer 2015-12-22

This book illuminates the process of child psychological assessment in community psychology through discussion, theory, and case studies of collaborative, systemic treatment of children and their parents. "Assessing Children in the Urban Community" presents a semi-structured form of collaborative psychological assessment, designed to help clients gain new insights and make changes in their lives. Traditional psychological assessment focuses on diagnosis and treatment but has been slow to include contextual elements, particularly social and cultural contexts into the assessment process and psychological report. Clients receiving services in a community psychology clinic pay for their treatment through state welfare coverage. They cannot choose their providers, they cannot always determine the length and course of their mental health care, they often do not have access to transportation to begin services, to continue them, or to take advantage of follow-up recommendations. The Therapeutic Assessment model is particularly adaptable to community psychology because it allows maximum interaction in the assessment process and promotes participation and collaboration in an often dis-empowering system. This book will be relevant to clinical psychologists, community psychologists, social workers, family therapists, graduate students in psychology, social work, marriage and family therapists, and counseling programs.
