### **From Fantasy Trust to Real Trust** -

Krishnananda Trobe, M.d. 2011-09-19

This book deals with the roots of our mistrust and the ways that we can learn to recover our lost sense of trust. What we normally consider trust is actually a false trust, a childish, fantasy trust. This kind of false trust is dependent on how others and life treats us. Life teaches us through the painful experiences of disappointment and betrayal how to learn a new kind of trust, a real sense of trust which comes from inside and no longer dependent on outside events and experiences. Trust arises first from retrieving self-trust and then trust towards others follows naturally from that re-discovery. In the book, the authors teach by sharing liberally from their own personal experiences and also with examples from their work as international seminar leaders.

**Wired for Intimacy** - William M. Struthers

2010-02

Pornography is powerful. Our contemporary culture as been pornified, and it shapes our assumptions about identity, sexuality, the value of women and the nature of relationships. Countless Christian men struggle with the addictive power of porn. But common spiritual approaches of more prayer and accountability groups are often of limited help. In this book neuroscientist and researcher William Struthers explains how pornography affects the male brain and what we can do about it. Because we are embodied beings, viewing pornography changes how the brain works, how we form memories and make attachments. By better understanding the biological realities of our sexual development, we can cultivate healthier sexual perspectives and interpersonal relationships. Struthers exposes false assumptions and casts a vision for a redeemed masculinity, showing how our sexual longings can actually propel us toward sanctification and holiness in our bodies.

Domestic Violence and Sexuality - Donovan, Catherine 2014-04-29

## **When Sex Becomes Intimate How Sexuality Changes As Your Relationship Deepens**

---

This book provides the first detailed discussion of domestic violence and abuse in same-sex relationships, offering a unique comparison between same-sex and heterosexual contexts. Catherine Donovan and Marianne Hester examine how experiences of domestic violence and abuse are shaped by gender, sexuality, and age, seeking to understand what factors drive victims to seek?or not seek?help. Employing a pioneering methodology that includes both quantitative and qualitative research, they provide a new framework of analysis?what they call ?practices of love”?that challenges heteronormative models of engaging domestic violence in research, policy, and practice.

Sesso e intimità - Amana

2010-10-18T00:00:00+02:00

“Da molti anni conduciamo seminari nei quali insegniamo come amare – se stessi e gli altri. Uno degli argomenti che molto spesso emerge, soprattutto con coppie che sono insieme da tempo, è come riuscire a mantenere attiva la propria sessualità. Molte coppie osservano che più stanno insieme, più è difficile mantenere lo stesso interesse nel fare l’amore. La vita stressante, la crescente familiarità e la carenza di comunicazione possono stemperare il desiderio di fare l’amore. [...] Grazie a una maggiore intimità, siamo maggiormente esposti ai modi in cui la nostra sessualità viene influenzata dalla paura, dalla vergogna e dall’insicurezza. Eppure la vulnerabilità è anche la via d’accesso alle più recondite e preziose parti di noi stessi, ai tesori della nostra anima e

*The Promise of Adolescence* - National Academies of Sciences, Engineering, and

Medicine 2019-08-26

Adolescence"beginning with the onset of puberty and ending in the mid-20s" is a critical period of development during which key areas of the brain mature and develop. These changes in brain structure, function, and connectivity mark adolescence as a period of opportunity to discover new vistas, to form relationships with peers and adults, and to explore one's developing identity. It is also a period of resilience that can ameliorate childhood setbacks and set the stage for a thriving trajectory over the life course. Because adolescents comprise nearly one-fourth of the entire U.S. population, the nation needs policies and practices that will better leverage these developmental opportunities to harness the promise of adolescence"rather than focusing myopically on containing its risks. This report examines the neurobiological and socio-behavioral science of adolescent development and outlines how this knowledge can be applied,

**Sex at Dawn** - Christopher Ryan 2021-01-05  
The 10th-anniversary edition of the book that

radical re-evaluates the origins and nature of human sexuality. Since Darwin's day, we've been told that sexual monogamy comes naturally to our species. Mainstream science — as well as religious and cultural institutions — has maintained that men and women evolved in families in which a man's possessions and protection were exchanged for a woman's fertility and fidelity. In this groundbreaking book, however, Christopher Ryan and Cacilda Jethá argue that human beings evolved in egalitarian groups that shared food, child care, and, often, sexual partners. Weaving together evidence from anthropology, archaeology, primatology, anatomy, and psychosexuality, the authors show how far from human nature monogamy really is. With intelligence and humour, Ryan and Jethá explain how our promiscuous past haunts our contemporary struggles. They explore why many people find long-term fidelity so difficult; why sexual passion tends to fade even as love deepens; why

homosexuality persists in the face of standard evolutionary logic; and what the human body reveals about the prehistoric origins of modern sexuality. **Getting Connected, Staying Connected** - John DeFrain 2012

Couples and families have it in their power to be happy with each other and create a pleasant and peaceful home environment in which they live together. Our aim in writing about getting connected and staying connected is to accentuate the positive - to show clearly and simply how happy couple and family

relationships are created and maintained over time. We will be continuously demonstrating what works well in creating strong, enduring relationships. The focus will be on six key couple and family strengths: 1) appreciation and affection for each other; 2) commitment to the family; 3) positive communication; 4) enjoyable time together; 5) a sense of spiritual well-being and shared values; and 6) the ability to manage stress and crisis effectively.

**Marriage in the Middle** - Dorothy Littell Greco 2020-09-15

Midlife is a season of challenge and change—professionally, relationally, physically, and spiritually. On our better days, we experience a sense of growing clarity and satisfaction about who we are. We might even be coming to terms with our limitations and vulnerabilities, letting go of some dreams and creating new ones. But many days, we are overwhelmed and exhausted by the intense transitions of this season, leaving us feeling off-

balance and insecure. And these challenges reverberate through our marriages, making us wonder how we're going to survive. Though many assume that "midlife" is synonymous with "crisis," Dorothy Littell Greco reminds us that it doesn't have to be that way. The demands of midlife actually force us to adjust and adapt, providing new opportunities for discovery and growth within our marriages. With vulnerability and insight, *Marriage in the Middle* will inspire and encourage you to invest in your relationship with your spouse, enabling you both to thrive as you face the challenges and changes of this era together.

Contained within are suggested strategies and exercises that help develop communication and sexual skills, as well as interesting case studies that open the doors to couples' sexual frustrations. The shame, embarrassment, and hesitancy that individuals feel with themselves, and the resentment and blame they can feel towards their sexual partners, are explored and put into context. Whether you are married, cohabitating, or dating, or if you are 25, 45, or 75, reading this book will help renew your sexual desire and put you on the path towards healthy, pleasure-oriented sexuality.
