Irresistible Masculine Sexappeal - Caeden Connor 2018-05-09

To be irresistibly attractive to women. That would be rad, wouldn't it? You see other men working their magic, and you wonder just how they know just what to do. Well, I'll tell you one thing for certain: they weren't born with it. Attraction, believe it or not, is more of a skill than a born personality trait, and you can acquire it, too. The secret lies in understanding exactly what a woman wants, and learning how to give it to her. We have all been taught wrong since we were children about what females find attractive. It's impossible to make them want you when you have no idea what you want. But advice from someone who has plenty of experience attracting women could change everything for you, teaching you what to do in order to make yourself irresistible. I am a man that women naturally find attractive, and I have seduced many women over the years, learning many tricks along the way. I know how their minds work, what makes them tick. I know what they want and what they don't want, and I am willing to share that information with you. Finally, you will know what you've been doing wrong. You will know what things you need to start doing, and which habits you need to kick. Prepare yourself to be the most attractive man in any room, no matter what you look like. The subtleties of what a woman finds attractive is enough information to fill a book-which is exactly what I've done. But this is no ordinary book. This book compiles years of built knowledge on female attraction, both from my own experience and from my observations, and contains everything you should have been taught as a young boy but never were. Say goodbye to bumbling over your sentences and worrying about your appearance, and wondering why she wandered away after you said hello. After reading this book, you will be so confident in your own ability to sweep a lady off your feet that you won't ever have to ask those kinds of questions again. And that confidence will carry over into all areas of your life, bolstering your self-assurance and your charm in the workplace and social situations. Can it really be that simple? Yes, and no. Don't be fooled-it will take hard study and a lot of practice. But you can learn the subtleties of female attraction just as easily as you can learn anything else. So, yes, female attraction is complex. But just a few secrets will unlock a whole new world for you-a world of irresistible attraction. So, what are you waiting for? Quit being the schmuck standing in the corner, baffled as to why women won't give him a second glance, and be the one who has women coming to him, like bees to honey. The power is right there in front of you, just reach out and take it.

Bound Feet, Young Hands - Laurel Bossen 2017-01-25

Footbinding was common in China until the early twentieth century, when most Chinese were family farmers. Why did these families bind young girls' feet? And why did footbinding stop? In this groundbreaking work, Laurel Bossen and Hill Gates upend the popular view of footbinding as a status, or even sexual, symbol by showing that it was an undeniably effective way to get even very young girls to sit still and work with their hands. Interviews with 1,800 elderly women, many with bound feet, reveal the reality of girls' hand labor across the North China Plain, Northwest China, and Southwest China. As binding reshaped their feet, mothers disciplined girls to spin, weave, and do other handwork because many village families depended on selling such goods. When factories eliminated the economic value of handwork, footbinding died out. As the last generation of footbound women passes away, *Bound Feet, Young Hands* presents a data-driven examination of the social and economic aspects of this misunderstood custom.

**The Power of Looks** - Bonnie Berry 2016-02-24

There is a saying that beauty is in the eye of the beholder, implying that beauty is subjective. But can it be said that 'better looking' people have

more social power? This book provides a fascinating insight into the social stratification of people based on looks - the artificial placement of people into greater and lesser power strata based on physical appearance. The author analyzes different aspects of physical appearance such as faces, breasts, eye shapes, height and weight as they are related to social power and inequality. For example, tall people are often associated with power, with tall people being seen publicly as more capable and thus more deserving of power than shorter people. The author moreover assesses how people's physical appearance affects their chances of marriage, employment, education, and other social and economic opportunities. The book contributes to and differentiates itself from current literature by emphasizing sociological theory - including constructionism and critical theory - and research to understand the phenomenon of social aesthetics, a term coined by the author to refer to the social reaction to physical appearance.

[The 48 Laws of Power](#) - Robert Greene 2000-09-01

Amoral, cunning, ruthless, and instructive, this multi-million-copy New York Times bestseller is the definitive manual for anyone interested in gaining, observing, or defending against ultimate control - from the author of *The Laws of Human Nature*. In the book that *People* magazine proclaimed "beguiling" and "fascinating," Robert Greene and Joost Elffers have distilled three thousand years of the history of power into 48 essential laws by drawing from the philosophies of Machiavelli, Sun Tzu, and Carl Von Clausewitz and also from the lives of figures ranging from Henry Kissinger to P.T. Barnum. Some laws teach the need for prudence ("Law 1: Never Outshine the Master"), others teach the value of confidence ("Law 28: Enter Action with Boldness"), and many recommend absolute self-preservation ("Law 15: Crush Your Enemy Totally"). Every law, though, has one thing in common: an interest in total domination. In a bold and arresting two-color package, *The 48 Laws of Power* is ideal whether your aim is conquest, self-defense, or simply to understand the rules of the game.
