Working with Families in the Era of HIV/AIDS - Willo Pequegnat 2000-05-31

The purpose of this book is to encourage professional to become involved in family-oriented services to prevent the spread of HIV and its consequences and to provide examples of strategies for mobilizing family resources in the prevention and adaptation to HIV and AIDS.

Undoing Privilege - Professor Bob Pease
2013-04-04

For every group that is oppressed, another group is privileged. In *Undoing Privilege*, Bob Pease argues that privilege, as the other side of oppression, has received insufficient attention in both critical theories and in the practices of social change. As a result, dominant groups have been allowed to reinforce their dominance. *Undoing Privilege* explores the main sites of privilege, from Western dominance, class elitism, and white and patriarchal privilege to the less-examined sites of heterosexual and able-bodied privilege. Pease points out that while the vast majority of people may be oppressed on one level, many are also privileged on another. He also demonstrates how members of privileged groups can engage critically with their own dominant position, and explores the potential and limitations of them becoming allies against oppression and their own unearned privilege. This is an essential book for all who are concerned about developing theories and practices for a socially just world.

The Wheel and Cycling Trade Review - 1890

Sexuality, Health and Human Rights - Sonia Corrêa 2008-08-18

This new work surveys how rapid changes taking place at the start of the twenty-first century in social, cultural, political and economic domains impact on sexuality, health and human rights. The relationships between men, women and

children are changing quickly, as are traditional family structures and gender norms. What were once viewed as private matters have become public, and an array of new social movements – transgender, intersex, sex worker, people living with HIV – have come into the open. The book is split into three sections: Global ‘Sex’ Wars – discusses the notion of sexualities, its political landscapes internationally, and the return of religious fervour and extremism Epistemological Challenges and Research Agendas – examines modern ‘scientific’ understandings of sexuality, its history and the way in which AIDS has drawn attention to sexuality The Promises and Limits of Sexual Rights – discusses human rights approaches to sexuality, their strengths and limitations and new ways of imagining erotic justice Offering a unique framework for understanding this new world, set in the context of the major theoretical debates of recent decades, this book will be of interest to professionals, advocates and policy researchers and is suitable for a wide range of courses covering areas such as gender studies, human sexuality, public health and social policy.

LGBTQ Cultures - Michele J. Eliason
2017-10-16

Drawn from real-world experience and current research, the fully updated *LGBTQ Cultures*, 3rd Edition paves the way for healthcare professionals to provide well-informed, culturally sensitive healthcare to lesbian, gay, bisexual, transgender, and queer (LGBTQ) patients. This vital guide fills the LGBTQ awareness gaps, including replacing myths and stereotypes with facts, and measuring the effects of social stigma on health. Vital for all nursing specialties, this is the seminal guide to actively providing appropriate, culturally sensitive care to persons of all sexual orientations and gender identities.

Sociological Abstracts - Leo P. Chall 2001
CSA Sociological Abstracts abstracts and indexes the international literature in sociology

and related disciplines in the social and behavioral sciences. The database provides abstracts of journal articles and citations to book reviews drawn from over 1,800+ serials publications, and also provides abstracts of books, book chapters, dissertations, and conference papers.

Club Cultures - Sarah Thornton 2018-03-08

This is an innovative contribution to the study of popular culture, focusing on the youth cultures that revolve around dance clubs and raves.

Gender Relations in Sport - Emily A. Roper 2014-01-06

Designed primarily as a textbook for upper division undergraduate courses in gender and sport, gender issues, sport sociology, cultural sport studies, and women's studies, *Gender Relations in Sport* provides a comprehensive examination of the intersecting themes and concepts surrounding the study of gender and sport. The 16 contributors, leading scholars from sport studies, present key issues, current research perspectives and theoretical developments within nine sub-areas of gender and sport:

- Gender and sport participation
- Theories of gender and sport
- Gender and sport media
- Sexual identity and sport
- Intersections of race, ethnicity and gender in sport
- Framing Title IX policy using conceptual metaphors
- Studying the athletic body
- Sexual harassment and abuse in sport
- Historical developments and current issues from a European perspective

The intersecting themes and concepts across chapters are also accentuated. Such a publication provides access to the study of gender relations in sport to students across a variety of disciplines. Emily A. Roper, Ph.D. is an Associate Professor in the Department of Health and Kinesiology at Sam Houston State University. Her research focuses on gender, sexuality, and sport.

The American Psychiatric Association Practice Guidelines for the Psychiatric Evaluation of Adults, Third Edition -

American Psychiatric Association 2015-07-29

Since the publication of the Institute of Medicine (IOM) report *Clinical Practice Guidelines We Can Trust* in 2011, there has been an increasing emphasis on assuring that clinical practice guidelines are trustworthy, developed in a transparent fashion, and based on a systematic

review of the available research evidence. To align with the IOM recommendations and to meet the new requirements for inclusion of a guideline in the National Guidelines Clearinghouse of the Agency for Healthcare Research and Quality (AHRQ), American Psychiatric Association (APA) has adopted a new process for practice guideline development. Under this new process APA's practice guidelines also seek to provide better clinical utility and usability. Rather than a broad overview of treatment for a disorder, new practice guidelines focus on a set of discrete clinical questions of relevance to an overarching subject area. A systematic review of evidence is conducted to address these clinical questions and involves a detailed assessment of individual studies. The quality of the overall body of evidence is also rated and is summarized in the practice guideline. With the new process, recommendations are determined by weighing potential benefits and harms of an intervention in a specific clinical context. Clear, concise, and actionable recommendation statements help clinicians to incorporate recommendations into clinical practice, with the goal of improving quality of care. The new practice guideline format is also designed to be more user friendly by dividing information into modules on specific clinical questions. Each module has a consistent organization, which will assist users in finding clinically useful and relevant information quickly and easily. This new edition of the practice guidelines on psychiatric evaluation for adults is the first set of the APA's guidelines developed under the new guideline development process. These guidelines address the following nine topics, in the context of an initial psychiatric evaluation: review of psychiatric symptoms, trauma history, and treatment history; substance use assessment; assessment of suicide risk; assessment for risk of aggressive behaviors; assessment of cultural factors; assessment of medical health; quantitative assessment; involvement of the patient in treatment decision making; and documentation of the psychiatric evaluation. Each guideline recommends or suggests topics to include during an initial psychiatric evaluation. Findings from an expert opinion survey have also been taken into consideration in making recommendations or

suggestions. In addition to reviewing the available evidence on psychiatry evaluation, each guideline also provides guidance to clinicians on implementing these recommendations to enhance patient care.

The Washington Post Index - 1989

Lesbian, Gay, Bisexual, and Transgender Aging - Douglas C. Kimmel 2006

This volume fills a unique gap. Gerontologists seldom focus on special concerns of gay and lesbian older adults, lesbian, gay, bisexual, and transgender aging organizations rarely address issues of aging, and the mental health field has demonstrated an ability to marginalize both aging and homosexuality. This book lays out the state of knowledge with respect to lesbian, gay, bisexual, and transgender aging—physical health, sexuality, family ties, victimization, and legal and financial concerns. The references at the end of individual chapters and the bibliographical material at the end of the book provide an invaluable resource. For any gerontologist intrigued by the interplay of historical changes and individual aging, it is difficult to imagine a more powerful example than Lesbian, Gay, Bisexual, and Transgender Aging. Evolution of attitudes toward homosexuality, the emergence of HIV/AIDS, and legal protections beginning to be afforded to same-sex relationships are all part of the changing world that has shaped and been shaped by lesbian, gay, bisexual, and transgender individuals who are now old.

Homer Simpson Marches on Washington - Timothy M. Dale 2010-03-19

The Simpsons questions what is culturally acceptable, showcasing controversial issues like homosexuality, animal rights, the war on terror, and religion. This subtle form of political analysis is effective in changing opinions and attitudes on a large scale. Homer Simpson Marches on Washington explores the transformative power that enables popular culture to influence political agendas, frame the consciousness of audiences, and create profound shifts in values and ideals. To investigate the full spectrum of popular culture in a democratic society, editors Timothy M. Dale and Joseph J. Foy gather a top-notch team of scholars who use television shows such as Star Trek, The X-Files,

All in the Family, The View, The Daily Show with Jon Stewart, and The Colbert Report, as well as movies and popular music, to investigate contemporary issues in American popular culture.

American Psychiatric Association Practice Guidelines - American Psychiatric Association 1996

The aim of the American Psychiatric Association Practice Guideline series is to improve patient care. Guidelines provide a comprehensive synthesis of all available information relevant to the clinical topic. Practice guidelines can be vehicles for educating psychiatrists, other medical and mental health professionals, and the general public about appropriate and inappropriate treatments. The series also will identify those areas in which critical information is lacking and in which research could be expected to improve clinical decisions. The Practice Guidelines are also designed to help those charged with overseeing the utilization and reimbursement of psychiatric services to develop more scientifically based and clinically sensitive criteria.

Broken Idols of the English Reformation - Margaret Aston 2015-11-26

Why were so many religious images and objects broken and damaged in the course of the Reformation? Margaret Aston's magisterial new book charts the conflicting imperatives of destruction and rebuilding throughout the English Reformation from the desecration of images, rails and screens to bells, organs and stained glass windows. She explores the motivations of those who smashed images of the crucifixion in stained glass windows and who pulled down crosses and defaced symbols of the Trinity. She shows that destruction was part of a methodology of religious revolution designed to change people as well as places and to forge in the long term new generations of new believers. Beyond blanked walls and whited windows were beliefs and minds impregnated by new modes of religious learning. Idol-breaking with its emphasis on the treacheries of images fundamentally transformed not only Anglican ways of worship but also of seeing, hearing and remembering.

Bisexual Lives - 1988

"Bisexuals are people who experience a desire

for emotional, sensual or sexual relationships with people of both sexes. There are an enormous number of them in the world. This book contains a collection of short pieces written by bisexual women and men about their experiences of what it is like to be bisexual." -- from back cover.

The Social Life of Coffee - Brian Cowan
2008-10-01

What induced the British to adopt foreign coffee-drinking customs in the seventeenth century? Why did an entirely new social institution, the coffeehouse, emerge as the primary place for consumption of this new drink? In this lively book, Brian Cowan locates the answers to these questions in the particularly British combination of curiosity, commerce, and civil society. Cowan provides the definitive account of the origins of coffee drinking and coffeehouse society, and in so doing he reshapes our understanding of the commercial and consumer revolutions in Britain during the long Stuart century. Britain's virtuosi, gentlemanly patrons of the arts and sciences, were profoundly interested in things strange and exotic. Cowan explores how such virtuosi spurred initial consumer interest in coffee and invented the social template for the first coffeehouses. As the coffeehouse evolved, rising to take a central role in British commercial and civil society, the virtuosi were also transformed by their own invention.

Essential Psychiatry - Robin M. Murray
2008-09-18

This is a major international textbook for psychiatrists and other professionals working in the field of mental healthcare. With contributions from opinion-leaders from around the globe, this book will appeal to those in training as well as to those further along the career path seeking a comprehensive and up-to-date overview of effective clinical practice backed by research evidence. The book is divided into cohesive sections moving from coverage of the tools and skills of the trade, through descriptions of the major psychiatric disorders and on to consider special topics and issues surrounding service organization. The final important section provides a comprehensive review of treatments covering all of the major modalities. Previously established as the Essentials of Postgraduate Psychiatry, this

new and completely revised edition is the only book to provide this depth and breadth of coverage in an accessible, yet authoritative manner.

The Psychology of Shame - Gershen Kaufman,
PhD 2004-01-01

In this classic volume, Kaufman synthesizes object relations theory, interpersonal theory, and, in particular, Silvan Tompkins's affect theory, to provide a powerful and multidimensional view of shame. Using his own clinical experience, he illustrates the application of affect theory to general classes of shame-based syndromes including compulsive; schizoid, depressive, and paranoid; sexual dysfunction; splitting; and sociopathic. This second edition includes two new chapters in which Dr. Kaufman presents shame as a societal dynamic and shows its impact on culture. He examines the role of shame in shaping the evolving identity of racial, ethnic, and religious minorities, and expands his theory of governing scenes. This new edition will continue to be of keen interest to clinical psychiatrists as well as graduate students.

Compasito - Nancy Flowers 2007-01-01

Living among other people, in their families and communities, children become aware from a very early age of questions related to justice, and they search for the meaning of the world. By fostering an understanding of human rights, shaping opinion and developing attitudes, human rights education strongly supports this natural interest and learning process. This is what human rights education is about and this is what 'Compasito manual on human rights education for children' is for. 'Compasito' is a starting point for educators, teachers and trainers who are ready to deal with human rights education with children of 7-13 years. The book covers the key concepts of human rights and children's rights, and provides substantial theoretical background to 13 key human rights issues, such as democracy, citizenship, gender equality, environment, media, poverty, and violence. The 42 practical activities serve to engage and motivate children to recognise human rights issues in their own environment. They help children to develop critical thinking, responsibility and a sense of justice, and help them learn how to take action to contribute to the betterment of their school or community.

The manual also gives practical tips on how it

can be used in various formal and non-formal educational settings.
