Loving Someone in Recovery - Beverly Berg 2014-02-02

Recovering addicts are faced with many challenges, and these challenges can often extend to their romantic partners. During the recovery period, couples often struggle with overcoming feelings of betrayal and frustration, and may have a hard time rebuilding trust and closeness. While there are many resources available to recovering addicts, there are limited resources for the people who love them. In *Loving Someone in Recovery*, therapist Beverly Berg offers powerful tools for the partners of recovering addicts. Based in mindfulness, attachment theory, and neurobiology, this book will help readers sustain emotional stability in their relationships, increase effective communication, establish boundaries, and take real steps toward reigniting intimacy. The material in this book is drawn from the author's successful Conscious Couples Recovery Workshop. With more than 25 years in the field, she has developed a unique set of exercises that address the issues faced by couples in recovery. This book addresses the roles that both partners play in recovery, and aims to help readers develop a new appreciation for one another and improve self-confidence and acceptance. The road to recovery is never an easy one, but by building a strong support system, the chances of success are exponentially greater. Addiction and Choice - Nick Heather 2017

This book contains views from philosophy, neuroscience, psychiatry, psychology, and the law exploring this middle ground between free choice and no choice.

The Life and Fear of Living with an Addict and Dealing with Life - Beverly Miller 2010-08-06

This autobiography is a true story about the life being ignorant to drugs. It will also reveal to my readers how much pain that I still feel in my heart about my parents' and grandparents' deaths. I will continue to show people the struggle that I am still going through today is what I went through for thirty years. How I became the worst alcoholic there was. I was also molested in my younger years, which is still, to this day, very painful. I had to almost watch my mother take her last breath and didn't even realize what was going on. My grandmother was there for us during those very gloomy and rough days. Because it was so hard, sometimes I did not want to live. Parents need to listen to their kids especially when it comes to molestation; sometimes you may have to ask questions. How I had to kiss my mom on her face, forehead, and hands to tell her good-bye, and she didn't even know that we were there. I made a very bad mistake when I crossed that street, and the little boy snatched his hand away from me and was hit by a car. How I watched him lie there almost lifeless and could not help him. I was with a man that used drugs, and when the relationship crumbled, the drinking became much worse. How rehab really helped me the second time. How, after seventeen years and no drugs, we are back and even happier. How a person using any kind of substance abuse can alter your mind and the decisions that you may make. When I returned home from rehab, you would not imagine where I found beer bottles and cans. How my cousin was almost killed trying to protect me. How I was beat up by the ones who were supposed to protect and serve. How I had started seeing someone and found out that he was a druggie and dropped him as quickly as I picked him up. How to look for signs when they are on drugs. How drugs can sometimes make a person lose everything that they have. How I have never been so embarrassed in my life until the marshal knocked on my door. How you can try and try again to help a person, but it won't work unless they want help themselves. How some folks do not want help; they are just going through the motions. How my friend, also an addict, jumped off

the subway platform in front of a train. How I know from people in general not to get into a relationship when in a rehab; you are really trying to find yourself again, and you honestly don't know what you want. This is a must; don't let a man/woman bring you down. How my surgery made me look at life totally different. How when you really need your family, they are going to be there, no matter what time, day or night. How my brothers became the best fathers ever, and that was because of the positivity that they had in their life. My sisters are fabulous mothers as well as myself. How I learned that through it all, God will stand by you at all times. How I lost my mom on November 5, 1979, and then my father followed her on June 22, 1990, and my grandmother followed on June 13, 1998. How my uncle Junior was there for us from the time my mom was sick; until this day, he has never walked away. How it took me years to step into the hospitals that both my parents passed away in. How we went through everyday problems; the difference was that we had no parents growing up. How you really need to treasure your parents while they are here; don't wait until they are gone to tell them how much you love them. After all, they gave us life. How I raised kids and was a single parent, and they are okay kids. How I still have bad feelings about the men who molested me. How I am living proof that you can have tremendous fun without a drink in your hands. What made me say "This is it." How I almost died from being the alcoholic that I was. I would tell you, if you haven't drank or used drugs, you are not missing anything. You would like to make decisions on a sober conscience. Sometimes the decision you make while using drugs may haunt you for life. How I came to reality to realize that my b

When Your Partner Has an Addiction - Christopher Kennedy Lawford 2016-10-04

Your partner's addiction takes a toll on both of your lives. That doesn't mean you should turn your back on the person you love. We've been told that staying with a partner who struggles with addiction—whether it be with drugs, alcohol, or addictive behaviors—means that we're enabling their destructive behavior. That wanting to help them means we're codependent, and that the best thing for both of us is to walk away from the relationship entirely. But is that true? *When Your Partner Has an Addiction* challenges the idea that the best chance for recovery—for the addict and their partner—is to walk away. Instead, it makes the revolutionary claim that you, and the love you have for your partner, can be a key part of his or her journey to recovery. Together, addiction activist and bestselling author Christopher Kennedy Lawford and psychotherapist Beverly Engel, MFT, take a fresh look at addiction and codependency—the latest research on what causes them and what the two have in common. Rather than treat addiction or codependency as disease or weakness, *When Your Partner Has an Addiction* honors the trauma and shame that often lie at their source and shows you how to use your love to combat that shame, allowing you to more effectively support your partner and heal yourself. The research proves that, while you cannot "fix" your partner, you can have a positive impact on their recovery. Whether you suffer from codependency, and whether your partner is already in recovery, *When Your Partner Has an Addiction* provides you with proven techniques and strategies to drastically improve your relationship and help get your partner the help he needs—without leaving and while taking care of yourself in the process.

Women who Love Too Much - Robin Norwood 2004

Is having 'somebody to love' the most important thing in your life? Do you constantly believe that with 'the right man' you would no longer feel depressed or lonely? Are you bored with 'nice guys' who are open, honest and dependable? If being in

Addicted to "love" - Stephen Arterburn 1992-04

What do these people have in common? Carol cannot free herself from the abusive relationship she has endured for ten miserable years. Ben is driven to secret sexual liaisons with one woman after another. Ginny spends every free moment of her day absorbed in romance novels. Carol, Ben, and Ginny suffer from the same problem. Psychologists call it the disease of the '90's-love addiction. Addicted to Love describes the many forms this addiction can take—from romance novels and relationships to spouse abuse and sexual acting-out. Like drug addicts or alcoholics, love addicts get high from sex and romance, develop a tolerance for it, and need ever-greater doses to keep going. Stephen Arterburn examines why this addiction is on the rise, what it looks like, who it afflicts, and what you can do if you suspect that your spouse, friend, or family member may be suffering from it. With compassion and wisdom, Arterburn points the way to psychological and spiritual healing, to enable men and women to enjoy real and lasting intimacy.

Love Addict - Brianne Ellison 2021-05-10

Love Addict? Don't stop reading! For days I struggled to find the perfect words - the wow factor - for this description. I wanted to craft something that would prompt you to read this book immediately. The more I thought about it, the more I realized I couldn't think of anything better to say than the truth. My name is Bri, aka Lipstick Preacher, and I'm a recovering love addict. I can already imagine what you're thinking. A love addict? No, I'm not talking about being addicted to sex or having multiple relationships and partners. As a young girl and into adulthood, I obsessed over the idea of being in love and assumed it was an easy thing to attain if you were a decent person. No one in my life explained to me the importance of love and how much power it holds. I developed a deep desire to achieve love and had no idea where it came from. The desire for love is embedded in the core of our being, and when we encounter it, good or bad, it can shape the essence of who we are. After many failed relationships and encounters with the opposite sex, my idea of love became broken. This aching and painful feeling consumed my mind and eventually created a pattern of addiction. A love addiction. If you're reading this description, and you know love has dealt you a

blow you don't know how to recover from, read this book. If you're someone who has ended or creates complicated relationships that have left you feeling like a different person, read this book. If you've never experienced love to a capacity that you know is real and true, read this book. If you want to love again but believe it's for everyone else, read this book. If you're in an amazing relationship but had some sucky ones in the past, and you find yourself sabotaging something good because of it, read this book. Hey you, Read this book! The End!

Letters from Women Who Love Too Much - Robin Norwood 2015-04-23

The internationally bestselling author Robin Norwood responds to letters from women who need advice and help in their recovery from addiction - whether drugs, alcohol or dangerous men. In her bestselling self-help book, *Women Who Love Too Much*, Robin Norwood revolutionised the way we look at love, with a compassionate, intimate book offering a detailed psychological recovery programme for women who love too much - women who are attracted to the wrong men, who neglect their own interests and friends and who are unable to leave tormented relationships for fear of being 'empty without him'. It is a book that speaks to nearly every woman who has ever loved and lost. In this follow-up to her bestselling book, Robin Norwood presents selected letters from readers about their reactions to the book. Norwood, a Dallas therapist, responds to her correspondents with diagnoses of the maladies they describe. The book, "a closer look at relationship addiction and recovery," is divided into 10 sections involving women who are battered, in therapy, addicted to drugs and/or alcohol, as well as to dangerous men. Although the letters are filled with pain, they also express hope for new beginnings, together with thanks from women who say they have learned that they are not alone in their suffering. The closing chapter is devoted to letters from men describing their own destructive relationships.

The Marriage and Relationship Junkie - Sherry Gaba 2020-06-30

After Rihanna and Alanis Morissette and Amber Smith and Rachel Uchitel, we've all heard about love addiction—people who feel they can only be happy when they are deep in an all-consuming love. There are a handful of books about it (including *Facing Love Addiction* by Pia Melody, *Women Who Love too Much* by Robin Norwood, *Love Addict* by Ethlie Ann Vare, and others), and many rehab and recovery centers are now advertising that they help clients with love addictions. But no one has approached the subject of its equally damaging cousin—marriage and relationship addiction. Marriage addicts are so in love with love that they continually move from one relationship to another, always on the rebound, never giving themselves time to heal and learn how to be independent. They marry again and again, just to avoid feeling lonely—or worse, to avoid feeling "abnormal." *The Marriage Junkie* will address all of these issues, looking at early childhood trauma and how that affects our subsequent choices in partners, and how we approach love and marriage. It will discuss the lessons we learn from our upbringing and social and cultural background—lessons that sometimes teach us what healthy relationships look like, but sometimes teach us something else: that we don't deserve any better; that a typical relationship looks turbulent and difficult. "This is an important book. Sherry Gaba clearly identifies a common pattern in relationships and shows the negative results on relationships of self-abandonment." - Margaret Paul, PhD Co-Creator of Inner Bonding
Love Addict - Ethlie Ann Vare 2011-09

Neuroscience now shows us—in living color, thanks to PET scans and fMRI technology—that falling in love affects our brains precisely the same way as snorting cocaine. Award-winning author and screenwriter

Ethlie Ann Vare already knew that; she's been addicted to both. She survived to tell the tale . . . with humor, honesty, and hope. Just because something is addictive doesn't mean that you will get addicted to it. But . . . if your stomach ties up in knots while you count the seconds waiting for a phone call from that special someone . . . if you hear a loud buzzing in your ears when you see a certain person's car (or one just like it) . . . if your eyes burn when you hear a random love song or see a couple holding hands . . . if you suffer the twin agonies of craving for and withdrawing from a series of unrequited crushes or toxic relationships . . . if you always feel like you're clutching at someone's ankle and dragged across the floor as they try to leave the room . . . welcome to the club. With a light touch and a sharp wit, Ethlie has enlisted some famous love junkies--including supermodel Amber Smith, movie star William McNamara, and comedienne Margaret Cho--and the top therapists and researchers in the field to help lead you from the dark of despair into the dawn of recovery.

Girlfriend of Bill - Karen Nagy 2014-04-01

If you are dating, sheltering-in-place with, or married to someone who's walking the way of 12-step recovery, you may be mystified by the landscape and language of the recovery community, and wondering how you fit in to your partner's plan. Karen Nagy's book is for you. This ground-breaking guide provides twelve key points you need to know about dating a person in addiction recovery. Gain a greater understanding of your companion's recovery program and personality traits, while learning to identify red

flags in order to build confidence for a successful relationship. Being in a new relationship is hard enough, but if the person you're dating is a recovering alcoholic or addict, there may be more to consider than just mutual interests and attraction. For Karen Nagy, dating a recovering alcoholic felt, in some ways, like she was seeing someone "from another planet"--with his own language, culture, and social behaviors. With humor, compassion, and a great respect for what it takes to recover from an addiction, this first-of-its-kind field guide offers an "inside scoop" on what people do in all those Twelve Step meetings, why they need a sponsor, what is a sponsor and why phrases like "Live and Let Live" and "Easy Does It" keep creeping into your conversations. Nagy offers twelve key points that you need to know about dating a person in recovery. She also helps you identify the warning signs of developing your own codependent tendencies by playing into your partner's addictive thinking and behavior--and what to do about it. By gaining a greater understanding of your companion's recovery program, you can help them stay sober, learn how to deal with character flaws, and also build your confidence in the potential for a healthy, successful relationship.
