The Digital Person - Daniel J Solove 2004

In a revealing study of how digital dossiers are created (usually without our knowledge), the author argues that we must rethink our understanding of what privacy is and what it means in the digital age, and then reform the laws that define and regulate it. Reprint.

[The Call of the Weird](#) - Louis Theroux 2008-09-04

After a decade of making documentaries about offbeat characters on the fringes of US society, Louis had the urge to return to America and track down the people who most fascinated him. It would be a reunion tour, but this time without the cameras and the sense of performance being filmed inevitably brings. It would allow him to get closer to people, to discover what really motivated them and what had happened to the assorted dreamers, outlaws and eccentrics since he last saw them. On a journey that took him from the porn sets of Los Angeles to the gangsta rappers of Memphis, from a convention of UFO contactees in Arizona to Northern Idaho for a festive get-together of neo-Nazis, he asked what 'weird people' have to tell us about our own secret natures. Had he learned anything about himself by being among them? Do we choose our beliefs or do our beliefs choose us? Louis Theroux's first book is a hilarious, thought-provoking and at times surreal voyage into the heart of weirdness.

Brothel - Alexa Albert 2011-11-09

What began as a public-health project by a Harvard medical student evolved into an intimate, ambitious, six-year study of the brothel ecosystem and a book that puts an unforgettable face on America's maligned and caricatured subculture. "A fascinating glimpse into a hidden lifestyle.... It's an instantly gratifying page-turner.... It emerges as a personality-filled memoir about an unforgettable group of women."

—Seattle Weekly Not a single legal prostitute in Nevada had contracted HIV since testing began in 1986. Why? Harvard medical student Alexa Albert traveled to Nevada in search of answers. Gaining unprecedented access to the infamous and notoriously secretive Mustang Ranch, Albert reveals a fascinatingly insular world where the women share their experiences with unexpected candor. There's Dinah, Mustang's oldest prostitute, who turned her first trick years ago at age fifty-one. And Savannah, a woman who views her work as a "healing" social service for needy men. Nevada's legal brothels are an incredibly rich environment for examining some of this nation's thorniest social issues. From problems of class and race to the meaning of family, honor, and justice—all are found within this complex and singular microcosm. And in a country where prejudice is a dirty word—but not as dirty as hooker—these social issues are compounded and deepened by the stifling stigma that has always plagued the profession. But in the end, all of Mustang's working girls are just women trying to earn their way to

happiness. Brothel is a landmark work that probes beyond the veil of desire and fantasy in which the sex trade shrouds itself—and uncovers the naked humanity at its core.

Confronting Commercial Sexual Exploitation and Sex Trafficking of Minors in the United States - National Research Council 2013-11-12

Every day in the United States, children and adolescents are victims of commercial sexual exploitation and sex trafficking. Despite the serious and long-term consequences for victims as well as their families, communities, and society, efforts to prevent, identify, and respond to these crimes are largely under supported, inefficient, uncoordinated, and unevaluated. *Confronting Commercial Sexual Exploitation and Sex Trafficking of Minors in the United States* examines commercial sexual exploitation and sex trafficking of U.S. citizens and lawful permanent residents of the United States under age 18. According to this report, efforts to prevent, identify, and respond to these crimes require better collaborative approaches that build upon the capabilities of people and entities from a range of sectors. In addition, such efforts need to confront demand and the individuals who commit and benefit from these crimes. The report recommends increased awareness and understanding, strengthening of the law's response, strengthening of research to advance understanding and to support the development of prevention and intervention strategies, support for multi-sector and interagency collaboration, and creation of a digital information-sharing platform. A nation that is unaware of these problems or disengaged from solutions unwittingly contributes to the ongoing abuse of minors. If acted upon in a coordinated and comprehensive manner, the recommendations of *Confronting Commercial Sexual Exploitation and Sex Trafficking of Minors in the United States* can help advance and strengthen the nation's emerging efforts to prevent, identify, and respond to commercial sexual exploitation and sex trafficking of minors in the United States.

Nevada Rose - Marc McAndrews 2011

Scattered around the state of Nevada in unassuming little desert towns, prostitution is thriving. Nevada Rose is an extraordinary peephole into this legal, albeit secretive, world of fantasy and theatre, which takes readers inside the 29 'ranches' in and around towns. Readers will meet the managers and the madams, the kitchens and the cooks, laundry rooms and lounges, personal bedrooms and pets.

[Brothels of Nevada](#) - Timothy Hursley 2004

The state of Nevada is known as a place for quick money, 24-hour marriages, and easy divorces. But it's also the only place in the United States with a legal sex industry. About 300 women today work in Nevada brothels, all regulated by the state government. Often shunned from serious consideration, little is known about the prostitutes or the environments in which they work. In *Brothels of Nevada*, photographer Timothy Hursley offers a view of this unknown side of America. He exposes the sites in all their variety and complexity, from neon signs on double-wide trailers, to red-toned bars where workers and customers meet, to bedrooms lined with velvet and lace. Far from risqué, the images are poignant reminders of how little brothels differ from many American settings. Hursley photographs twenty-five houses, roughly the entire sex industry, in views from the mid-1980s to today. *Brothels of Nevada* includes large well-known places like the Chicken Ranch and Mustang Ranch as well as tiny houses off the beaten track, like Angel's Ladies and Bobbie's Buckeye Bar. Alexa Albert addresses how the design of the brothels affects the work they house.

Communicating in the Anthropocene - C. Vail Fletcher 2021-02-04

The purpose of *Communicating in the Anthropocene: Intimate Relations* is to tell a different story about the world. Humans, especially those raised in Western traditions, have long told stories about themselves as individual protagonists who act with varying degrees of free will against

a background of mute supporting characters and inert landscapes. Humans can be either saviors or destroyers, but our actions are explained and judged again and again as emanating from the individual. And yet, as the coronavirus pandemic has made clear, humans are unavoidably interconnected not only with other humans, but with nonhuman and more-than-human others with whom we share space and time. Why do so many of us humans avoid, deny, or resist a view of the world where our lives are made possible, maybe even made richer, through connection? In this volume, we suggest a view of communication as intimacy. We use this concept as a provocation for thinking about how we humans are in an always-already state of being-in-relation with other humans, nonhumans, and the land.

The Immoral Landscape - Richard Symanski 1981

Responsive Regulation - Ian Ayres 1995-02-16

This book transcends current debate on government regulation by lucidly

outlining how regulations can be a fruitful combination of persuasion and sanctions. The regulation of business by the United States government is often ineffective despite being more adversarial in tone than in other nations. The authors draw on both empirical studies of regulation from around the world and modern game theory to illustrate innovative solutions to this problem. Their ideas include an argument for the empowerment of private and public interest groups in the regulatory process and a provocative discussion of how the government can support and encourage industry self-regulation.

Lydia's Open Door - Patty Kelly 2023-04-28

In this groundbreaking ethnographic study, Patty Kelly examines the lives of the women who work in the Zona Galactica, a state-run brothel in Chiapas's capital city. By delving into lives that would otherwise go unremarked, Kelly documents the modernization of the sex industry during the neoliberal era in the city of Tuxtla Gutiérrez and illustrates how state-regulated sex became part of a broader effort by government officials to bring modernity to Chiapas, one of Mexico's poorest and most conflicted states. Kelly's innovative approach locates prostitution in a political-economic context by treating it as work. Most valuably, she conveys her analysis through vivid portraits of the lives of the sex workers themselves and shows how the women involved are neither victims nor heroines.
