**Playing with History** - Molly Rosner 2021-05-14

Since the advent of the American toy industry, children's cultural products have attempted to teach and sell ideas of American identity. By examining cultural products geared towards teaching children American history, *Playing With History* highlights the changes and constancies in depictions of the American story and ideals of citizenship over the last one hundred years. This book examines political and ideological messages sold to children throughout the twentieth century, tracing the messages conveyed by racist toy banks, early governmental interventions meant to protect the toy industry, influences and pressures surrounding Cold War stories of the western frontier, the fractures visible in the American story at a mid-century history themed amusement park. The study culminates in a look at the successes and limitations of the American Girl Company empire.

**Beyond Child's Play** - Sally Edward 2017-07-05

Sustainable product design is more than eco design: it goes beyond 'green' to consider the work environment, community impacts, consumer health, and economic viability, as well as environmental attributes.

"Beyond Child's Play" explores the concept of sustainable product design in the context of the global doll-making industry. To initiate this research, the author reviewed eco design parameters and developed criteria for sustainable product design in the doll-making industry. Using this framework, she conducted three case studies of do I making: the American Girl doll produced in China, the Kathe Kruse doll produced in Germany and the Q'ewar Project doll produced in Peru. Themes emerged from this research that have relevance beyond the doll-making industry: the value of making a product with care; designing work for human dignity; intention and vision for sustainability; the implications of materials choices; and, transparency and sustainability. Sustainable product design calls for fundamentally new thinking. By connecting the term 'sustainable' to 'product', we raise expectations for a radically different approach to design, production, and consumption. This

framework integrates the eco design principles of detoxification and dematerialization with the principle of 'humanization', to ensure that the work environment where the product is made is safe and healthy and that local communities benefit from production. This approach places increased responsibility on the industrial designer and decision-makers throughout the supply chain, including governments, corporations, and citizens. Sustainable product design can be implemented effectively only when systems are in place that support sustainable production and consumption.

**Delinquents and Debutantes** - Sherrie A. Inness 1998-08-01

The contributors, including such leading scholars as Vicki L. Ruiz, Jennifer Scanlon, and Miriam Formanek-Brunell, examine myriad ways in which a variety of discourses and activities from popular girls' magazines and advertisements to babysitting and the Girl Scouts help form girls' experiences of what it means to be a girl, and later a woman, in our society. The essays address such topics as board games and the socialization of adolescent girls, dolls and political ideologies, Nancy Drew and the Filipina American experience, the queering of girls' detective fiction, and female juvenile delinquency to demonstrate how cultural discourses shape both the young and teenage girl in America. Although girls' culture has until now received comparatively little attention from scholars, this work confirms that understanding the culture of girls is essential to understanding how gender works in our society. Making a significant contribution to a long-neglected area of social and cultural inquiry, *Delinquents and Debutantes* will be of central interest to those in women's studies, American studies, history, literature, and cultural studies.

**Explorations in Consumer Culture Theory** - John F. Sherry 2008-11-24

The literature of marketplace behaviour, long dominated by economic and psychological discourse, has matured in the last decade to reveal the vast expanse of consumption activity not adequately addressed - in either theoretical or empirical perspective - by the discipline's favoured approaches. The lived experience of consumption in cultural and historical context, rendered in a fashion that is both intellectually insightful and authentically evocative, and that recognizes the dynamics of accommodation and resistance that characterize the individual's relationship with the market, is the central interpretive thrust of an emerging interdisciplinary field inquiry broadly labelled "consumer culture theory." In this volume, some of the leading scholars of this field explore in great empirical detail and theoretical depth the relationships that the consumer has developed both with goods and services and with the stakeholders that animate markets. Beginning with an examination of the underpinnings of cultural inquiry, the focus then shifts to specific consumption venues. Analyses of advertising in personal, critical and historical perspective, examination of lifestyle trends from dwelling practices of transnational nomads and regimes of personal training to genetic testing and gambling, interpretations of the dynamics of brand loyalty and corporate image management, and investigation of family consumption rituals are among the topics explored in ethnographic and humanistic perspective.

*Trust the Flames* - Katie Delimon 2023-02-18

"Trust the Flames is a palate cleanser and a much-needed shot of reality. In a world of highlight reels and curated depictions of life, Katie Delimon assures us that the path to a beautiful life is often a rugged, messy, unfiltered one. Read this memoir." - Alicia Cook, best-selling poet and author of *Sorry I Haven't Texted You Back*. Katie Delimon's debut memoir takes us on an unforgettable—and deeply relatable—adventure as she unabashedly shines a spotlight on all of her humanness including her shame, trauma, recovery, and ultimately, her spiritual awakening. Woven into Delimon's journey of self-realization and healing is a remarkable love story of a twin flame journey, which just gets more incredible with each turn of the page! (Don't worry; you'll learn exactly what a "twin flame is" as you read on!) After experiencing life in the deep backwoods of West Virginia, the grimy brilliance of New York City, and the beautiful beaches of Australia, Delimon ultimately begins her search for serenity during a stint in South East Asia, where she's robbed and left penniless, catapulting her desire to uncover calm out of chaos and mindfulness out of mindlessness. It's a true story of transformation, generational trauma and parental loss; of finding solace and safety in the silence of ashrams; of love dying, but then ultimately wildly blooming in the deserts of Burning Man. Delimon is a phoenix rising from the ashes, a woman who burned through the layers of who she thought she should be, in order to find out who she truly was.
