The Cosmic Embrace John Stevens 1999 Here is a survey, through art from around the world, of the sacred dimension of sexuality. It demonstrates beyond a doubt that the notion of sexual relationships as something honorable, nonpossessive, fulfilling, and beneficial is nothing new, nor is the idea limited to the traditions of the mystic East. John Stevens shows how world sexual traditions have always had the spiritual as their highest goal. His survey looks at art from China, India, Native American traditions, ancient Europe, Japan, the South Pacific, Southeast Asia, Tibet, Greece, Africa, and Mexico, as well as art by modern artists like Eric Gill. The book includes an extensive bibliography.

The Erotikon Augustin Cabanès 2002-05-01 Brief medical and historical descriptions of hundreds of odd and unusual sexual practices and facts from around the world. This volume covers such ground as contraception, beautiful breasts, male potency and defloration ceremonies, to name but a few. This unique book is an easy read for a science study, yet it is an entertaining anthropological and historical look at the many facets of sexuality that have previously been suppressed. Includes 16 chapters such as Ancient and Medieval Conceptions, Laws and Devices, Queer Tests for Pregnancy, Twins and twin studies, Sexual Freaks, Medical Mutilations and Operations of Male Sex Organs, and more. Along with photographs, there are illustrations such as "a cabinet of unusual illustrations depicting curiosities described in text". This book was the final work of the French Dr. Augustin Cabanes who previously published a lengthy list of titles that all related to sex.

The History of Childhood Lloyd deMause 1995-06-01 from the Foreword: Possibly the heartless treatment of children, from the practice of infanticide and abandonment through to the neglect, the rigors of swaddling, the purposeful starving, the beatings, the solitary confinement, and so on, was and is only one aspect of the basic aggressiveness and cruelty of human nature, of the inbred disregard of the rights and feelings of others. Children, being physically unable to resist aggression, were the victims of forces over which they had no control, and they were abused in many imaginable and some almost unimaginable ways by way of expressing conscious or more commonly unconscious motives of their elders... The present volume abounds in evidence of all kinds, from all periods and peoples. The story is monotonously painful, but it is high time that it should be told and that it should be taken into account...
