Gay Male Pornography - Christopher N. Kendall 2004

The 2000 case of *Little Sisters Book and Art Emporium v. Customs Canada* provided Canada's highest court with its first opportunity to consider whether the analysis set out in *R. v. Butler* - in which the Supreme Court identified pornography as an issue of sex discrimination - applies to pornography intended for a lesbian or gay male audience. The Court held that it did, finding that, like heterosexual pornography, same-sex pornography also violates the sex equality interests of all Canadians. Christopher Kendall supports this finding, arguing that gay male pornography reinforces those social attitudes that create systemic inequality on the basis of sex and sexual orientation - misogyny and homophobia alike - by sexually conditioning gay men to those attitudes and practices. The author contends that as a result of litigation efforts like those brought by lesbian and gay activists in the *Little Sisters* case, the notion of empowerment and the rejection of those values that daily result in all that is anti-gay have been replaced with a misguided community ethic and identity politic that encourages inequality. This is best exemplified in the gay male pornography defended in *Little Sisters* as "liberation" and "central to sexual freedom." *Gay Male Pornography* rejects the equality claims of gay male pro-pornography advocates and argues that there is little to be gained from sexualized conformity. To date, no one has taken the position that gay male pornography violates the legal right to sex equality. This book does that and, as such, it will be of value to scholars of law, sociology, and gender studies, as well as to all who have an interest in equality and justice.

Animal - Sara Pascoe 2016-04-19

The hilarious feminist account of the female body by the award-winning comedian **BUY SARA PASCOE'S LATEST BOOK SEX POWER MONEY NOW** 'HILARIOUS' Daily Telegraph 'Brilliant' Frankie Boyle Sometimes Sara Pascoe confuses herself. She gets wildly and pointlessly jealous. She spends too much time hating her bum. And you know what she hates more than her bum? Her preoccupation with her bum. She's had sexual experiences with boys she wasn't really into, but still got a post-coital crush on them. She's ruined brand-new relationships by immediately imagining them going into reverse. There was so much about her behaviour that Pascoe wanted to understand. So she started researching what makes us - women - tick. And what she read made her eyes fall out of her face. Reader, here is everything science has to tell us about love, sexuality, infidelity, boobs, periods, pubes, broodiness, and clever old fat. Merry Christmas and Hallelujah! Suddenly being a woman doesn't look like such a minefield after all. 'Fresh and honest.' GUARDIAN 'Timely and intelligent.' THE TIMES 'Funny, sad, angry, affronted, engaging and enlightening.' Birds and Women in Music, Art, and Politics - Carmen M. Cusack 2019-10-17

This volume depicts the struggle of birds for freedom, an endeavour similarly experienced by women in the United States and other regions of the globe. It is a prolific study of how creatures interact psychosocially. Sometimes, birds inspire humanity, and, at other times, humans desecrate birds. They may interweave seamlessly or may experience indirect and direct conflicts. Their needs overlap and may be satisfied and explored compassionately through analytical lenses, including those of feminism, anthropomorphism, and animal rights. They share platforms, including art, the male gaze, and discussions about capture and oppression. In this work, both are presented as equally adept to survival on Earth. In this capacity, the book is novel and fresh. In spite of contradictions, such as preserving some birds at zoos, while causing others to fight for sport, birds, overall, will continue to cause humans to thrive, develop, and take-off; and by experiencing their lives through this book, humans who share the birds' spiritual and spatial realms will develop a keener sense of environmental care and how to make cruelty-free choices. This book's range is profound, and includes original research on diverse areas depicting Martin Luther King, Big Bird, the presidents, celebrities, and other notable sources of leadership. It also considers influential zoos and several preservation sites. In all, it is a well-founded work that demonstrates care in research and argument.

The New Breed - Kate Darling 2021-04-20

'A must read for anyone interested in the emerging ethics of robotics' Irene M. Pepperberg A bold, optimistic exploration of the relationship

between robots and humans based on our history with animals, from a renowned MIT researcher The robots are here. They make our cars, they deliver fast food, they mine the sea floor. And in the near-future their presence will increasingly enter our homes and workplaces - making human-robot interaction a frequent, everyday occurrence. What will this future look like? What will define the relationship between humans and robots? Here Kate Darling, a world-renowned expert in robot ethics, shows that in order to understand the new robot world, we must first move beyond the idea that this technology will be something like us. Instead, she argues, we should look to our relationship with animals. Just as we have harnessed the power of animals to aid us in war and work, so too will robots supplement - rather than replace - our own skills and abilities. A deeply original analysis of our technological future and the ethical dilemmas that await us, *The New Breed* explains how the treatment of machines can reveal a new understanding of our own history, our own systems and how we relate - not just to non-humans, but also to each other.

Philosophy Reborn Part III: Science - Shawn Alli

Ideological science will never lead to genuine growth. The peer-reviewed process is completely broken. Are you for/against climate change? You can back it up with peer-reviewed articles. Against GMOs? There are peer-reviewed articles for that as well. Are you for/against abortion? What about gene-editing? AI? Global trade? Gun control? Unions? Education? Whatever issue you have, there's a peer-reviewed article that you can use to defend your beliefs. That's not objective science. That's ideological junk science. How do we fix the peer-reviewed process? What is animal consciousness? How does ESP work? Will technology enable the creation of a new human race? Are you a visionary scientist? Do you want people to accept GMOs, gene-editing, cloning, and synthetic biology? You'll find the answers to all of these questions in Part III. What it Feels Like for a Girl - Philip Monk 2004

Bitch - Lucy Cooke 2022-03-03

'A dazzling, funny and elegantly angry demolition of our preconceptions about female behaviour and sex in the animal kingdom ... Bitch is a blast. I read it, my jaw sagging in astonishment, jotting down favourite parts to send to friends and reading out snippets gleefully...' Observer 'A book that is tearing down the stereotypes and the biases. Absolutely fascinating.' BBC R4 Woman's Hour 'From the heir to Attenborough. 5*' - Telegraph 'Glorious ... A bold and gripping takedown of the sexist mythology baked into biology ... Full of marvellous surprises. Guardian 'Colourful, committed and deeply informed.' Sunday Times 'Gloriously original' Daily Mirror A 'sparkling attack on scientific sexism' Nature 'Humorous, absorbing, sometimes shocking (for a variety of reasons), and bound to be a conversation starter' BBC Wildlife 'Brilliant ... Cooke is a superb science writer' TLS 'Zoologist Lucy Cooke's hilarious and enlightening book reclaims evolutionary biology for females of all species.' New Statesman 'Introduces us to a marvelous zoetrope of animals.' The Atlantic '[An] effervescent exposé ... [A] playful, enlightening tour of the vanguard of evolutionary biology.' Scientific American Selected for the Telegraph's 'best books for summer 2022' and as one of the Guardian's '50 hottest new books for a great escape'.

What does it mean to be female? Mother, carer, the weaker sex? Think again. In the last few decades a revolution has been brewing in zoology and

evolutionary biology. Lucy Cooke introduces us to a riotous cast of animals, and the scientists studying them, that are redefining the female of the species. Meet the female lemurs of Madagascar, our ancient primate cousins that dominate the males of their species physically and politically. Or female albatross couples, hooking up together to raise their chicks in Hawaii. Or the meerkat mothers of the Kalahari Desert - the most murderous mammals on the planet. The bitches in BITCH overturn outdated binary expectations of bodies, brains, biology and behaviour. Lucy Cooke's brilliant new book will change how you think - about sex, sexual identity and sexuality in animals and also the very forces that shape evolution. _____ Praise for Lucy's previous book THE UNEXPECTED TRUTH ABOUT ANIMALS 'Endlessly fascinating' - Bill Bryson 'I cannot remember when I enjoyed a non-fiction book so much' - Daily Express 'A joy from beginning to end' - Guardian 'Best science pick: deeply researched, sassily written' - Nature

PJ Harvey and Music Video Performance - Abigail Gardner 2016-03-09

PJ Harvey's performances are premised on the core contention that she is somehow causing 'trouble'. Just how this trouble can be theorised

within the context of the music video and what it means for a development of the ways we might conceptualise 'disruption' and think about music video lies at the heart of this book. Abigail Gardner mixes feminist theory and critical models from film and video scholarship as a rich means of interrogating Harvey's work and redefining her disruptive strategies. The book presents a rethinking of the masquerade that allies it to cultural memory, precipitated by Gardner's claim that Harvey's performances are conversations with the past, specifically with visualised memories of archetypes of femininity. Harvey's masquerades emerge from her conversations and renegotiations with both national and transatlantic musical, visual and lyrical heritages. It is the first academic book to present analysis of Harvey's music videos and opens up fresh avenues into exploring what is at stake in the video work of one of Britain's premier singer-songwriters. It extends the discussion on music video to consider how to make sense of the rapidly developing digital environment in which it now sits. The interdisciplinary nature of the book should attract readers from a range of subject areas including popular music studies, cultural studies, media and communication studies, and gender studies.

Animals in Translation - Temple Grandin 2009-08-11

With unique personal insight, experience, and hard science, *Animals in Translation* is the definitive, groundbreaking work on animal behavior and psychology. Temple Grandin's professional training as an animal scientist and her history as a person with autism have given her a perspective like that of no other expert in the field of animal science. Grandin and coauthor Catherine Johnson present their powerful theory that autistic people can often think the way animals think—putting autistic people in the perfect position to translate "animal talk." Exploring animal pain, fear, aggression, love, friendship, communication, learning, and even animal genius, Grandin is a faithful guide into their world. *Animals in Translation* reveals that animals are much smarter than anyone ever imagined, and Grandin, standing at the intersection of autism and animals, offers unparalleled observations and extraordinary ideas about both.
