Attached Amir Levine 2012-01-05 “Over a decade after its publication, one book on dating has people firmly in its grip.” —The New York Times We already rely on science to tell us what to eat, when to exercise, and how long to sleep. Why not use science to help us improve our relationships? In this revolutionary book, psychiatrist and neuroscientist Dr. Amir Levine and Rachel Heller scientifically explain why some people seem to navigate relationships effortlessly, while others struggle. Discover how an understanding of adult attachment—the most advanced relationship science in existence today—can help us find and sustain love. Pioneered by psychologist John Bowlby in the 1950s, the field of attachment posits that each of us behaves in relationships in one of three distinct ways: • Anxious people are often preoccupied with their relationships and tend to worry about their partner's ability to love them back • Avoidant people equate intimacy with a loss of independence and constantly try to minimize closeness. • Secure people feel comfortable with intimacy and are usually warm and loving. *Attached* guides readers in determining what attachment style they and their mate (or potential mate) follow, offering a road map for building stronger, more fulfilling connections with the people they love.

the subject of #MeToo for the middle grade audience in this heart-wrenching—and ultimately uplifting—novel about experiencing harassment and unwanted attention from classmates. For seventh-grader Mila, it starts with some boys giving her an unwanted hug on the school blacktop. A few days later, at recess, one of the boys (and fellow trumpet player) Callum tells Mila it's his birthday, and asks her for a "birthday hug." He's just being friendly, isn't he? And how can she say no? But Callum's hug lasts a few seconds too long, and feels...weird. According to her friend, Zara, Mila is being immature and overreacting. Doesn't she know what flirting looks like? But the boys don't leave Mila alone. On the bus. In the halls. During band practice—the one place Mila could always escape. It doesn't feel like flirting—so what is it? Thanks to a chance meeting, Mila begins to find solace in a new place: karate class. Slowly, with the help of a fellow classmate, Mila learns how to stand her ground and how to respect others—and herself. From the author of *Everything I Know About You*, *Halfway Normal*, and *Star-Crossed* comes this timely story of a middle school girl standing up and finding her voice.

confident version of yourself. There are no lines or routines; instead you'll find exercises and information to improve your self-esteem, social skills, and other elements integral to social success. Everything in these pages is backed with scientific evidence, and when I say scientific evidence, I mean cited peer-reviewed literature, not pop evolutionary psychology or the "law of attraction." You won't be reading anecdotes telling you about my "successes" or opinions; you'll be learning the practical steps necessary for the specific changes you want to manifest in your life. The Guyde is divided into four sections: Part I - Psychology Part I focuses on the internal elements of social interaction. How do you overcome your toxic self-limiting beliefs that keep you from being authentic with people? How do you overcome your fears? How can you stay motivated to make your changes? You will learn clinically effective approaches to all of these and more. Part II - Social Skills For many men, the biggest barrier between themselves and social success is a lack of social skills and awareness. In Part II, you'll learn how to shore up this weakness. You will learn how to listen, banter, share stories, and assert yourself with others. You'll learn how to improve your body language and vocal tonality to project confidence and charisma. Part III - Physical Attractiveness Part III will teach you how to improve your physical features. The first two chapters detail the most clinically effective approaches to diet and exercise. We'll also discuss the basics of fashion and how to dress to impress. Master Part III, and when you go out, you will turn heads. Part IV - Dating The final portion of The Guyde deals with dating, in this version, in a heterosexual male context. You'll learn the best places to meet potential dates, how to flirt, and how to ask someone out. You'll learn how to plan brag-worthy romantic evenings and how to address problems like rude cancellations and "ghosting." You'll learn how to interact physically while being sensitive to your date's wishes, as well as how to perform better in bed. You'll learn why relationships fail and how to avoid the pitfalls most

Perpetual daydreamer Liz Buxbaum gave her heart to Michael a long time ago. But her cool, aloof forever crush never really saw her before he moved away. And as they continue to grow closer, she must reexamine everything she thought she knew about love—and rethink her own ideas of what Happily Ever After should look like.

[Why Women Have Sex](#) Cindy Meston 2010-04-01 Why do women have sex? Is it purely for pleasure or the desire to reproduce? In their ground-breaking book, clinical psychologist Cindy Meston and evolutionary psychologist David Buss investigate the underlying sexual desires of women and identify 237 distinct motivations for sex. Drawing on more than a thousand intensive interviews conducted solely for the book, as well as their pioneering research on physiological response and evolutionary emotions, Meston and Buss give us a remarkably complex and nuanced portrait of female sexuality. They explore the use of sex as a defensive tactic against a man's infidelity (protection), as a ploy to boost self-confidence (status), as a barter for gifts (resource acquisition), or even as a cure for a headache (medication). *Why Women Have Sex* explores the deep-seated

As She Likes It Penny Gay 2002-03-11 *As She Likes It* is the first attempt to tackle head on the enduring question of how to perform those unruly women at the centre of Shakespeare's comedies. Unique amongst both Shakespearian and feminist studies, *As She Likes It* asks how gender politics affects the production to the comedies, and how gender is represented, both in the text and on the stage. Penny Gay takes a fascinating look at the way *Twelfth Night*, *The Taming of the Shrew*, *Much Ado About Nothing*, *As You Like It* and *Measure for Measure* have been staged over the last half a century, when perceptions of gender roles have undergone massive changes. She also interrogates, rigorously but thoughtfully, the relationship between a male theatrical establishment and a burgeoning feminist approach to performance. As illuminating for practitioners as it will be enjoyable and useful for students, *As She Likes It* will be critical reading for anyone interested in women's experience of theatre.

World) that uses evolutionary psychology to explain human mating and the mysteries of love. If we all want love, why is there so much conflict in our most cherished relationships? To answer this question, we must look into our evolutionary past, argues prominent psychologist David M. Buss. Based on one of the largest studies of human mating ever undertaken, encompassing more than 10,000 people of all ages from thirty-seven cultures worldwide, *The Evolution of Desire* is the first work to present a unified theory of human mating behavior. Drawing on a wide range of examples of mating behavior — from lovebugs to elephant seals, from the Yanomamö tribe of Venezuela to online dating apps — Buss reveals what women want, what men want, and why their desires radically differ. Love has a central place in human sexual psychology, but conflict, competition, and manipulation also pervade human mating — something we must confront in order to control our own mating destiny. Updated to reflect the very latest scientific research on human mating, this definitive edition of this classic work of evolutionary psychology explains the powerful forces that shape our most intimate desires.
