Why Fairy Tales Stick - Jack Zipes 2013-09-13

In his latest book, fairy tales expert Jack Zipes explores the question of why some fairy

tales "work" and others don't, why the fairy tale is uniquely capable of getting under the skin of culture and staying there. Why, in other words, fairy tales "stick." Long an advocate of the fairy tale as a serious genre with wide social and cultural ramifications, Jack Zipes here makes his strongest case for the idea of the fairy tale not just as a collection of stories for children but a profoundly important genre. Why Fairy Tales Stick contains two chapters on the history and theory of the genre, followed by case studies of famous tales (including Cinderella, Snow White, and Bluebeard), followed by a summary chapter on the problematic nature of traditional storytelling in the twenty-first century.

Creating the National Park Service - Horace M. Albright 1999

Two men played a crucial role in the creation and early history of the National Park Service: Stephen T. Mather, a

Little Cowgirl On His Doorstep Cadence Creek Cowboys

public relations genius of sweeping vision, and Horace M. Albright, an able lawyer and administrator who helped transform that vision into reality. In *Creating the National Park Service*, Albright and his daughter, Marian Albright Schenck, reveal the previously untold story of the critical "missing years" in the history of the service. During this period, 1917 and 1918, Mather's problems with manic depression were kept hidden from public view, and Albright, his able and devoted assistant, served as acting director and assumed Mather's responsibilities. Albright played a decisive part in the passage of the National Park Service Organic Act of 1916; the formulation of principles and policies for management of the parks; the defense of the parks against exploitation by ranchers, lumber companies, and mining interests during World War I; and other issues crucial to the future of the fledgling park system. This authoritative behind-the-scenes history sheds light on the early

days of the most popular of all federal agencies while painting a vivid picture of American life in the early twentieth century.
